

Funding

The activities of the DoRD are supported by financial outlays in the Plan and Non-Plan Budget of the State Govt. Besides the grants received from the Central Govt through ministry of Rural Development for implementation of National Rural Drinking Water project on the sharing basis 50:50 in Coverage, Operation & Maintenance and Water Quality programme. Further Govt. of India have provided 100% funds for implementation of Pradhan Mantri Gram Sadak Yojana for construction of all-weather connectivity to all unconnected habitations in rural area of the State having more than or equal to The existing PMGSY scheme aims for providing connectivity to the unconnected habitations of 500 + population in general area and 250+ population in 18 IAP districts & upto 100+ population in 38 LWE blocks.

The funds were previously released by the Govt. of India under PMGSY not routed through State Govt. Budget and the same is directly released to the implementing agency i.e. OSRRA (Odisha State Rural Road Agency). Govt. of India launched “**Swachh Bharat Mission (Gramin)**” with effect from 2nd October 2014. It aims to achieve Swachh Bharat by 2019, as a fitting tribute to the 150th Birth Anniversary of Mahatma Gandhi. The National Flagship programme of GoI for sanitation i.e. Nirmal Bharat Abhiyan has been restructured and renamed as “Swachh Bharat Mission” (Gramin). The concept of Swachh Bharat encompasses ways to access every person with sanitation facilities including toilets, solid & liquid waste disposal systems, village cleanliness and provision of adequate drinking water. In line with the national goal, Govt. of Odisha has also taken strong initiatives and strives to make Odisha Open Defecation Free (ODF) by 2019 by ensuring construction and use of Individual Household Latrine (IHHL) alongwith environmental cleanliness. Previously, to achieve the above targets, the above mission was addressed to through the centrally sponsored “Nirmal Bharat Abhiyan”(NBA) previously known as "Total Sanitation Campaign" (TSC). The SBM programme is being implemented in all the 30 districts of the State. Government of India releases funds through State Govt. budget and the State Govt. releases funds as matching state share after making appropriate provision in the state budget. The entire operation under this campaign is being looked after by the OSWSM of RD Department and the District Water and Sanitation Missions.

(ii) Rural Water Supply

The availability of safe drinking water is an important role in the health and wellbeing of the people. Rural Development Department is the nodal department for providing safe drinking water in rural population.

1. NRDWP (SP: ₹ 46910.62 lakh)

The rural water supply and sanitation organisation is functioning under the Rural Development Department primarily aims at providing safe drinking water to the rural people of the state. From the year 2009-10, rural water supply is carried out as per the new guideline of GOI i.e. National Rural Drinking Water Programme (NRDWP). The goal of the programme is to provide every rural person with adequate water for drinking, cooking and other domestic basic needs on a sustainable basis. There is a paradigm shift in coverage from habitation to household. To meet the emerging challenges in the rural drinking water sector relating to availability of sustainable and qualitative drinking water supply, the components covered under the program are NRDWP-Coverage, Sustainability, Water quality, operation & maintenance and Support activities. The proposed fund includes provision to address water quality related issues in the fluoride affected districts particularly Nuapada.

To meet the above needs, an amount of ₹ 46910.62 lakh under State Plan in the Budget for the year 2015-16 is available against anticipated GoI allocation of ₹ 23528.00 lakh.

RURAL DRINKING WATER SUPPLY (R.W.S & S Organization)

The role of drinking water for individual's survival, reducing illness, enhancing economic growth and improving peoples' quality of life has acquired prominence in the process of the development agenda in recent years. The 10th Plan accorded topmost priority to provision of stipulated quantity of safe drinking water to "Not Covered" (NC) habitations, followed by coverage of "Partially Covered" (PC) and the quality affected habitations (having contaminated water). In previous years, the habitations were mostly covered by installation of hand pump tube wells and sanitary wells. But it is found that these sources do not attend to the desired level of sustainability. Hence it is decided that desired goal can be achieved by providing water to rural habitations through Piped Water Supply (PWS) schemes. The State Government has a clear mandate to cover all uncovered rural habitations and Government & Government aided schools. As on 31.03.2015, there are 1,57,296 habitations (115830-FC+35648-PC+5818-WQ) have been provided with drinking water facility through 402590 spot sources (hand pump Tube Well and Sanitary Wells) and 9752 Piped Water Supply projects commissioned in the State.

National Rural Drinking Water Programme

National Rural Drinking Water Programme (NRDWP) is being implemented w.e.f. 1.4.2009. Under this programme, provision of drinking water supply to the rural population is made through hand pump tube wells and piped water supply schemes. As per the new guidelines under NRDWP, there has been a shift in approach of coverage which aims at household level
