

Government of Odisha

OUTCOME BUDGET 2013-14

Rural Development Department

Hon'ble Chief Minister Odisha taking review of departmental activities of DoRD on 1st March 2013
.....Outcome budget of 2012-13

Sl. No.	CONTENTS		Page No.
1.	EXECUTIVE SUMMARY		I-VII
2.	CHAPTER-I	Introduction	1-16
3.	CHAPTER-II	Outcome Budget, 2013-14 Statement (Plan & Non-Plan)	17-109
4.	CHAPTER-III	Reform Measures & Policy Initiatives	110 -112
5.	CHAPTER-IV	Past performance of programmes and schemes	113-119
6.	CHAPTER- V	Financial Review	120-126
7.	CHAPTER-VI	Gender and SC/ST Budgeting	127

EXECUTIVE SUMMARY

The Outcome Budget of Department of Rural Development (DoRD) broadly indicates physical dimensions of the financial outlays reflecting the expected intermediate output. The Outcome budget will be a tool to monitor not just the immediate physical "outputs" that are more readily measurable but also the "outcomes" which are the end objectives.

2. The Outcome Budget 2013-14 broadly consists of the following chapters:

- **Chapter-I:**Brief introduction of the functions, organizational set up, list of major programmes/schemes implemented by the Department, its mandate, goals and policy frame work.
- **Chapter-II:**Tabular format(s)/statements indicating the details of financial outlays, projected physical outputs and projected outcomes for 2013-14 under Plan and Non-Plan.
- **Chapter-III:**The details of reform measures and policy initiatives taken by the Department during the course of the year.
- **Chapter-IV:**Write-up on the past performance for the year 2011-12 and 2012-13 (up to December, 2012).
- **Chapter-V:**Actual of the year preceding the previous year, Budget Estimates and Revised Estimates of the previous year, Budget Estimates of the Current Financial year.
- **Chapter-VI:**Highlights of the outlays provided for the schemes benefiting Women, ST and SC groups along with the corresponding physical output.

Monitoring Mechanism of Rural Development Department

The establishment of the Millennium Development Goals has significantly reinforced the concerns about non-income poverty. With the paradigm shifts in economic development from growth to broadly defined “development,” the concept of rural development has begun to be used in a broader sense. The concept now encompasses “concerns that go well beyond improvements in growth, income, and output. Connectivity –physical like roads, water and sanitation services to our people in rural areas is not an administration but a mission.

Road transport is vital for the economic development and social integration of the country. Easy accessibility, flexibility of operations, door-to-door service and reliability have earned road transport an increasingly higher share of both passenger and freight traffic vis-à-vis other transport modes. Transport sector accounts for a share of 6.4 per cent in India’s Gross Domestic Product (GDP). The Road Transport Sector has grown significantly during the past five decades. Road Transport has deep linkages with the rest of the economy and a strong multiplier effect. Transport is essentially a derived demand depending upon the size and structure of the economy and the demographic profile of the population. Greater the share of commodity-producing sectors like agriculture and manufacturing, higher is the demand for transport. Odisha’s surge in growth and expansion in public spending in the past decade has created new possibilities for its social protection system. Social protection strategy must aim at mitigating water poverty in rural areas. The Government is firmly committed to the goal of providing safe drinking water and sanitation facilities to the entire population of the State. The Government is equally committed to the objective of ensuring source and system sustainability. Despite the efforts put forth in the past, there is a growing concern over the widening gap between the expectations of the people and the achievements. Paucity of funds, over-exploitation of water resources, degradation of water recharge structures, competing demand on the available water resources, depleting water availability due to continuous failure of monsoon are some of the factors that cause concern on the supply front. In addition, on the demand side, factors like growing urbanization increase in population, changing life styles, tariff structures which do not reflect the scarcity and economic value of water, inadequate institutional and legislative framework also increase.

There is an inbuilt monitoring mechanism in the guild lines of each scheme of the Department so as to ensure that the objectives are achieved by their implementation.

The Department has a huge field formation with 1 EIC, 6 Chief Engineers at Heads of Deptt level (3 Chief Engineers in Rural Works Organization and three in Rural Water Supply and Sanitation Organization), 19 circles headed by S.Es at Circle level and 89 Divisions headed by Executive Engineers at District level and 404 Sub-Divisions headed by Asst. Engineers at Sub-Division level, 628 Sections headed by Junior Engineers at Section level who looks after the functioning of this Department. This is in addition to 314 JEs engaged for O&M and sanitation work in each PanchayatSamiti. There are two Agencies namely (i) Odisha State Rural Road Agency (OSRRA) -chaired by Hon'ble Minister RD, to monitor the PMGSY works and (ii)Odisha State Water & Sanitation Mission (OSWSM)-chaired by Chief Secretary, to monitor/execute the Nirmal Bharat Abhiyan (NBA) programme. Apart from continuous monitoring through periodical progress reports received from the Districts depicting both the financial and physical progress of the programmes, the Department also emphasizes on E-Governance.

Furnishing of statement of expenditure, Utilization Certificates, Audited Accounts and other requisite reports are submitted for the release of subsequent installments.

The officer dealing with the implementation of the programmes visits regularly to ensure that the programmes are being implemented satisfactorily.

Officers visit their assigned districts at regular intervals and the important observations of such teams are shared with the Department advising them to take appropriate corrective measures, wherever shortcomings are noticed.

A Performance Review Committee under the chairmanship of Principal Secretary reviews the performance of various programmes being implemented by the districts and recommends corrective action wherever found necessary.

With a view to fulfill the objective of ensuring quality in implementation, particularly in the context of large public funds being spent under all the programmes of the Department the Monitoring Committees are constituted.

Regular monthly review meetings are being held through Gramsat and Video conferencing and along with this, constant feedback and suggestions are taken and incorporated for the proper implementation of the programmes.

Work Plan for DoRD for the Financial Year 2012-13 was prepared with due consultation of all stakeholders. As desired by Chief Secretary Odisha, the work plan was drawn up taking into account the annual budget provisions and past performance of respective areas of work. The Chief Engineers were asked to draw up similar month wise and head of expenditure wise financial and physical plans for all the divisions to enable field functionaries to appreciate the purpose and benefit of Results Framework Approach. We propose to continue this in current financial year.

Public Information System

Information, Education and Communication (IEC) plays a vital role in creating awareness, mobilizing people and making the development participatory through advocacy and by transferring knowledge, skills and techniques to the people. Moreover, IEC plays two most important roles – informative and persuasive and as such is crucial for bringing about requisite social mobilization and facilitating participatory development.

The following strategy that has been adopted by the Department would be continued to ensure maximum benefits out of the programmes of the Department.

ODISHA RIGHT TO PUBLIC SERVICES ACT- 2012 – REPAIR OF HAND PUMP

Delivery of important services in a time bound manner is the hallmark of Good Governance. Government of Odisha has time and again initiated steps for improving the service delivery to its citizen. Keeping with the ethos of a Welfare State, Government of Odisha has passed a landmark legislation "Odisha Right to Public Services Act, 2012" that guarantees the delivery of public services in a time bound manner. With the passing of Right to Public Services Act, Government of Odisha has taken another strong step to bring efficiency, accountability and transparency in delivery of the public services. Time period of services (Repair of Hand Pump Tubewells) has been prescribed as detailed below:

- (i) 7 days of Minor Repair
- (ii) 14 days of Major Repair(except replacement)
- (iii) 28 days for replacement.

- Designated Officer .. Junior Engineer-II, RWSS
- Appellate Authority .. Assistant Engineer, RWSS
- Revisional Authority .. Block Development Officer.

All the Tubewells belonging to RWSS organisation are being painted in number. Any person who wants to repair the tubewells may apply to the Designated Officer (DO) by giving the details of tubewell in a plain paper along with his address, and DO shall repair the said tubewell within 7 days.

APPEAL : Any person whose application is rejected or not provided the service within given time limit may within 30 days from the date of receipt of order of rejection of expiry of given time limit prefer an appeal before the Appellate Authority. Appellate Authority may within a period of 30 days from the date of filing of appeal by order, direct the Designated Officer to provide the service within the time limit mentioned in the order.

REVISION: Any person aggrieved by the order of Appellate Authority or in case of non-disposal of the appeal in time may within 30 days from the date of that order, prefer a revision. Revision within 30 days.

Revisional Authority may impose penalty within the designated officer appellate authority and the subordinate staff ₹5000/ or ₹250/ per each day of delay shall be proportioned to be decided by the revisional authority. Public holidays shall not be included in the given time limit. This is an act of the Govt. to provide service within the given time.

Sanjog Initiative

Sanitation is essential to ensure a better quality of life among all sections of people in rural and urban areas. 80% of common diseases are caused by lack of sanitation and personal hygiene practices. Total Sanitation Campaign (TSC) now termed as Nirmal Bharat Abhijan (NBA) does not limit itself to safe disposal of human excreta; it forms a comprehensive concept that includes safe disposal of solid and liquid waste, food hygiene, domestic and personal hygiene. NBA in Odisha is being implemented in all the 30 districts of the State. The Programme is “community-led” and “people-centered” with increased stress on awareness creation and demand generation from people for sanitary facilities in households, schools, anganwadis centers for cleaner environment. The present Operational Guideline and booklet on Technology Options are developed to guide district as well as field functionaries and core team members in the smooth implementation of the NBA programme. This has been necessitated because of low coverage of IHL construction and less involvement of Panchayati Raj Institutions specifically Gram Panchayats in the program.

The Sarpanch should monitor the progress of the household, school and anganwadi sanitation in the GP. He /she will be supported by a team of AWWs, ASHA, SEM and village motivators /Swachhata Doot and Bharat Nirman Volunteers, to make household visits, and assess the participation of the households, installation of complete and usable toilets,

technologically appropriate and fitted correctly to ensure best benefits to the community. An appropriate superstructure should also be done to render the toilet usable immediately. The completed toilets will be verified by a two member team consisting of SEM and AWW, AWW and ASHA or the SEM and ASHA. The implementing agency, SHGs, the AWWs, ASHA, and Sarpanch will continue to advocate the use of toilets after the installation is complete.

They should also emphasize the importance of other associated hygiene practices, hand washing with soap after defecation and before handling food, safe disposal of child fecal, safe disposal of waste water and solid waste, cleanliness around hand pumps, clean tube well platforms etc. 284 Gram Panchayats have been awarded Nirmal Gram Puraskar for achieving total sanitation and open defecation free environment by HE President of India

E-initiatives

Efficiency of delivery is increasingly becoming the focus of governmental programmes. This is both on account of an explicit recognition of sub-optimal achievements in reaching the targeted beneficiaries in many of the schemes as well as in curbing wasteful expenditure. Realizing this, new tools, particularly application of modern technology are being resorted to in achieving governance and delivery efficiency.

As per section 4 of Right to Information Act, 2005 every public authority shall maintain all its records duly catalogued and indexed in a manner and the form which facilitates the right to information under this Act and ensure that all records that are appropriate to be computerized are, within a reasonable time and subject to availability of resources, computerized and connected through a network all over the country on different systems so that access to such records is facilitated. The Act U/S 4-4 further says that all materials shall be disseminated taking into consideration the cost effectiveness, local language and the most effective method of communication in that local area and the information should be easily accessible, to the extent possible in electronic format with the Central Public Information Officer or State Public Information Officer, as the case may be, available free or at such cost of the medium or the print cost price as may be prescribed.

The e-initiatives of RD department are meant to answer the above need and convert this threat into an opportunity to automate the processes that can be done so using latest technology platforms. E-Dispatch, IoTMS, e-Procurement, e-Nirman, LMS, OMMAS,

IMISWAMIS and OSWAS are major steps, taken. In addition to the above the website of RD Department is maintained and updated regularly.

Road Ahead

Rural Development Department is in charge of construction and maintenance of rural roads and water supply. We have got plan to connect habitations with population 250 and above in 18 IAP districts and habitations with population 500 & above in plain areas and 250 and above in schedule area for balance 12 Non IAP districts in phased manner. Till 31.03.2012, 7308 habitations above 250 populations have been provided connectivity under PMGSY. During 2012-13, approx. 500 habitations are going to be provided with all weather connectivity. Out of such habitations, connectivity have been provided to 418 unconnected habitations till end of December 2012. Similarly we have less than 2% rural house hold with tap-water in their household. 74 lakh rural household require 3-taps (kitchen bathroom and toilet) in their households to enjoy water security at household level. Sanitation coverage among BPL is encouraging but the same among APL is not so. This may require more intensive and extensive IEC campaign for times ahead.

INTRODUCTION

The concept of rural development has changed significantly during the last 3 decades. Until the 1970s, rural development was synonymous with agricultural development and, hence, focused on increasing agricultural production. This focus seems to have been driven primarily by the interests of industrialization to extract surpluses from the agriculture sector to reinforce industrialization. Four major factors appear to have influenced the change: increased concerns about the persistent and deepening of rural poverty; changing views on the meaning of the concept of development itself; emergence of a more diversified rural economy in which rural non-farm enterprises play an increasingly important role; and increased recognition of the importance of reducing the non-income dimensions of poverty to achieve sustainable improvements in the socio-economic well-being of the poor.

The establishment of the Millennium Development Goals has significantly reinforced the concerns about non-income poverty. With the paradigm shifts in economic development from growth to broadly defined “development,” the concept of rural development has begun to be used in a broader sense. The concept now encompasses “concerns that go well beyond improvements in growth, income, and output. The concerns include an assessment of changes in the quality of life, broadly defined to include improvement in health and nutrition, education, environmentally safe living conditions, and reduction in gender and income inequalities.” Today there seems to be a universal consensus that the ultimate objective of rural development is to improve the quality of life of rural people. This makes it essential to go beyond the income-related factors such as prices, production, and productivity to a range of non-income factors that influence quality of life and hence inclusiveness. Inclusive rural development is a more specific concept than the concept of rural development

Rural upliftment requires strong commitment, patience and perseverance. It is a challenging but interesting task. The Govt. can not by itself provide the required services/comforts without the cooperation of the all stake-holde` Physical connectivity like construction of roads and bridges and providing adequate safe drinking water as well as sanitation services to our rural population is indeed a mission and not a mere administrative function. With this concept, R.D. Department was created on 1st July, 1990 to look after sectors like construction of rural roads, buildings construction & maintenance of rural water supply projects and implementation of sanitation programmes to enhance the quality of life of rural population of the State.

Work Plan for DoRD for the Financial Year 2012-13 is prepared with due consultation of all stakeholders. As desired by Chief Secretary Odisha, the work plan was drawn up taking into account the annual budget provisions and past performance of respective areas of work. The Chief Engineers were asked to draw up similar month wise and head of expenditure wise financial and physical plans for all the divisions to enable field functionaries to appreciate the purpose and benefit of Results Framework Approach. We propose to continue this in current financial year.

The Rural Development Department in its present form consists of organisations namely (i) Rural Works (R.W.) (ii) Rural Water Supply & Sanitation (RWS&S) and (iii) Odisha State Water & Sanitation Mission (OSWSM).

Organisational Setup:

The Deptt. have 13 sections. Two sections namely (1) Budget and (2) PMGSY are headed by a F.A-cum-Addl. Secretary, four sections like (1) RWS&S (Establishment) (2) RWS&S (Scheme) (3) Legal Cell (4) Computer Cell are being managed by Joint Secretary, 6 sections namely (1) RW (Establishment) (2) RW (Scheme) (3) Office Establishment (4) Coordination (5) Bill and Cas (6) DAK Section are headed by Deputy Secretary and RTI Section is headed by AFA-cum-Under Secretary. One Under Secretary is in the Department to help the Deputy Secretary.

The Department has a huge field formation with 6 Chief Engineers at Heads of Deptt level (3 Chief Engineers in Rural Works Organization and three in Rural Water Supply and Sanitation Organization), 20 circles headed by S.Es at Circle level and 92 Divisions headed by Executive Engineers at District level and 404 Sub-Divisions headed by Asst. Engineers at Sub-Division level, 628 Sections headed by Junior Engineers at Section level who look after the functioning of this Department. This is in addition to 314 JEs recently engaged for O&M and sanitation work in each Panchayat Samiti. There are two Agencies namely (i) Odisha State Rural Road Agency (OSRRA) to monitor the PMGSY works and (ii) Odisha State Water & Sanitation Mission (OSWSM) to monitor/execute the Nirmal Bharat Abiyan (NBA) programme.

Principal Secretary is the Chief Executive Officer to monitor the work of the Department.

Funding

The activities of the DoRD are supported by financial outlays in the Non-Plan and Plan Budget of the State Govt. Besides the grants received from the Central Govt through ministry of Rural Development for implementation of National Rural Drinking Water project on the sharing basis 50:50 in Coverage, Operation & Maintenance and Water Quality programme. Further Govt. of India have provided 100% funds for implementation of Pradhan Mantri Gram Sadak Yojana for construction of all-weather connectivity to all unconnected habitations in rural area of the State having more than or equal to 1000 population in plain areas and 500 or more in scheduled areas and the funds released by the Govt. of India under PMGSY are not routed through state Govt. Budget and the same is directly released to the implementing agency i.e. OSRRA (Odisha State Rural Road Agency). In order to address the Rural sanitation needs through community empowerment, the centrally sponsored "Nirmal Bharat Abhiyan" (NBA) previously known as Total Sanitation Campaign" (TSC) is being implemented in all the 30 districts of the State. Government of India directly releases funds to the Odisha State Water & Sanitation Mission (OSWSM) without being routed through State Govt. budget and the State Govt. releases funds as matching state share to the missions after making appropriate provision in the state budget. The entire operation under this campaign is being looked after by the OSWSM of RD Department and the District Water and Sanitation Missions.

The Demand as reported in iOTMS is as follows:

The details are given below:

A. STATE PLAN

(i) R.W Organisation

A total outlay of `73968.00 lakh has been proposed under the roads & bridge sector/building sector of Rural Works Organisation Schemes to be implemented as follows.

1) Construction of R.D.Deptt. Building-R.W (` 1250.00 lakh)

A sum of ` 1250.00 lakh has been proposed for the year 2013-14 for construction of office building for different office of Rural Development Department.

2) R.W Residential Building (` 1000.00lakh)

A sum of ` 1000.00 lakhs has been proposed for construction of residential building under Rural Development Department for the year 2013-14.

3) Rural Roads and Bridges (NABARD Assisted Project) (` 21000.00 lakh)

A sum of ` 21000.00 lakh has been proposed in the year 2013-14for construction of 102 bridges & 22 roads under NABARD.

4) PMGSY (Grant to OSRRA) (` 0.01 lakh)

A Token Provision of ` 0.01 lakh has been provided towards construction of bridges sanctioned by MoRD, GoI on PMGSY roads as State Govt. Share.

5) CWA (Constituency Wise Allotment) (` 2840.00 lakh)

` 20.00 lakh has been provided for each Assembly constituency (except five urban constituencies) in the budget for the year 2013-14 for improvement of Rural Roads.

6) Completion of incomplete roads & bridges of R.I.D.F & Other Schemes.
(` 6700.00 lakh)

A sum of ` 6700.00 lakh has been proposed for completion of incomplete roads and bridges under different trenches of RIDF & other schemes for the year 2013-14.

7) Survey Expenses (` 400.00 lakh)

` 400.00 lakh has been proposed for survey and investigation and preparation of detailed project report including designs through outsourcing/ department for execution of bridges and roads for the year 2013-14.

8) Survey equipment (` 30.00 Lakh)

A sum of ` 30.00 lakhs have been proposed for procurement of survey equipments to carry on survey & Investigation for roads, bridges and buildings during 2013-14.

9) Land acquisition charges (` 79.99 lakh)

A sum of ` 79.99 lakh has been proposed for the year 2013-14towards land acquisition for different rural roads and bridges.

10) Decretal dues (` 320.00 lakh)

After settlement of the court cases, Govt. needs to pay decretal dues as and when necessary Provision of ` 320.00 lakh has been proposed for the year 2013-14.

- 11) Technical Training Personnel & MIS (capacity Building) (₹ 50.00 lakhs)**
₹ 50.00 lakhs has been proposed for technical training of engineering personnel for the year 2013-14.
- 12) PMGSY (Tender Premium) (₹ 4000.00 lakh)**
A sum of ₹ 4000.00 lakh has been proposed to meet the extra cost towards high tender premium of PMGSY works for the year 2013-14.
- 13) Biju Setu Yojana (₹ 15000.00 lakh)**
₹ 15000.00 lakh has been proposed for construction of bridges on rural roads under Biju Setu Yojana during 2013-14.
- 14) One time ACA. (₹ 7067.00 lakh)**
There is a budget provision of ₹ 7067.00 lakh during 2013-14 for improvement of RD roads connecting important tourist places and economic importance.
- 15) Improvement of existing RD roads. (₹ 12000.00 lakh)**
There is a provision of ₹ 12000.00 lakhs for improvement of 87 nos existing R.D. Roads. During 2013-14. During 2013-14
- 16) Incentive for early completion of Major Projects. (₹ 50.00 lakh)**
There is a proposal of ₹ 50.00 lakhs towards incentive to contractors for early completion of completion of Major Projects.
- 17) Special Programme for KBK dist. (SCA). (₹ 2181.00 lakh)**
There is a proposal for ₹ 2181.00 lakhs for improvement of 64 nos. of arterial road in KBK dist during 2013-14.

(ii) Rural Water supply & Sanitation.

The availability of safe drinking water plays a pivotal role in the health and well being of the people. The rural water supply and sanitation organisation which is functioning under the Rural Development Department, primarily aims at providing safe drinking water to the rural people of the state. From the year 2009-10, rural water supply is carried out as per the new policy of GOI i.e. National Rural Drinking Water Program (NRDWP). The goal of the program is to provide every individual in rural area with adequate water for drinking, cooking and other domestic basic needs on a sustainable basis. This basic requirement should meet certain minimum water quality standards and be readily and conveniently accessible at all times and in all situations. There is a paradigm shift in measuring coverage from the conventional trend in terms of liters per capita per day norms to ensure drinking water security for all in the community. To meet the emerging challenges in the rural drinking water sector relating to availability, sustainability and quality the components under the program are NRDWP(coverage), NRDWP (Sustainability), NRDWP (Water quality), NRDWP (Natural calamity) & NRDWP (Support) funds available for the purpose of operation and maintenance.

To meet the above needs an amount of ` 26000.00 lakh has been provided under State Plan as against anticipated GoI allocation of ` 26243.25 lakh for the above schemes for the year 2013-14.

NRDWP: ` 26243.25 Lakh

(Anticipated allocation by GOI)

(SS OF NRDWP) SP: ` 24000.00 Lakh

(RIDF – Rural WaterSupply) SP:- ` 1000.00 Lakh

Target has been fixed to take up 2200 PWS schemes (1100 PWS under coverage, 550 PWS under water quality and 550 PWS under sustainability) and 35000 spot sources (700 under water quality and 34300 under coverage) during the year-2013-14.

2. Machinery and equipments:

(SP: ` 100.00 Lakh)

An amount of ` 100.00 lakh under State plan is proposed in the budget for Repairs & Carriages of inspection vehicles as well as Special Repair to Departmental Rigs.

3.Capacity building:

(SP: ` 500.00 Lakh)

i. Survey& Investigation:

An amount of ` 500.00 lakh is proposed in the budget for Survey & Investigation towards Source finding and preparation of schemes for new rural PWS Schemes to be taken up in the State.

4. Construction of building-RWSS

(SP: ` 300.00 lakh)

A sum of ` 300.00 lakh has been proposed for the year 2013-14 for construction of newly created office buildings for different offices of RWSS Organisation. The Amount includes ` 100.00 lakh for Upgradation of Indira Gandhi Training Centre (IGTC) Palasuni, Bhubaneswar.

5. Residential Building- RWSS

(SP: ` 100.00 lakh)

` 100.00 lakh has been proposed for construction of residential building under RWSS.Organisation for the year 2013-14.

(iii) Rural Sanitation.

S.S. ` 5599.00 lakh

C.S. (not routed through State Govt. Budget)

In order to address the rural sanitation needs through community empowerment, the centrally sponsored Nrmal Bharat Abhiyan (NBA) previously known as Total Sanitation Campaign(TSC) is being implemented in all the 30 districts of the State. The entire operation under this campaign is being looked after by “Orissa State Water & Sanitation Mission (OSWSM)” of RD Department and the District Water and Sanitation Missions (DWSMs). Government of India directly releases funds to the District Missions without being routed through State Govt. budget and the State Govt. releases funds as matching State share to the District Missions after making appropriate provision in the State budget. In the Annual Plan for the year 2013-14an amount of ` 5599.00 lakh has been proposed as state Share.

PRADHAN MANTRI GRAM SADAK YOJANA (PMGSY)

PMGSY, a fully funded Central Govt. Scheme, is being implemented from 2000-01. Funds are received from GoI without being routed through State Govt. Budget. This programme aims at providing all-weather connectivity to all unconnected habitations in rural areas of the State having more than or equal to 1000 population in plain areas and 500 or more in scheduled areas. Subsequently, GoI has relaxed norms to take up projects to unconnected habitations upto population 250 and above in 18 IAP districts (Bolangir, Deogarh, Gajapati, Ganjam, Jajpur, Kalahandi, Keonjhar, Koraput, Malkangiri, Mayurbhanj, Nowrangpur, Nayagarh, Nuapada Kandhamal, Rayagada, Sambalpur, Sonapur & Sundargarh). Further, for balance 12 no. of Non-IAP districts (Angul, Balasore, Bargarh, Bhadrak, Boudh, Cuttack, Dhenkanal, Jagatsinghpur, Jharsuguda, Kendrapara, Khurda & Puri) unconnected habitations with population 500 above area being included in this programme in phased manner. State Govt. is providing funds for maintenance of such completed PMGSY projects for 5 years. Besides, State Govt. is also providing fund to meet the extra tender premium beyond the sanctioned amount.

Since inception of PMGSY Programme in 2000-01, GoI has sanctioned projects worth ₹ 15370 crore for construction of 10518 roads with a length of 41260 Km. in different phases of the programme in the State. By this time, GoI has released an amount of ₹ 9629.55 crore and out of the same an amount of ₹ 9281.50 crore has been utilized by construction of 6645 roads with length of 24563.52 Km. Further, GoI has sanctioned projects worth ₹ 947.89 crore for construction of 511 roads in IAP districts for a length of 2046.30 Km. under Phase-XII (Batch-II) recently. Tender for the above road proposals is in process.

It has been programmed to construct 3000 Km. of road length by utilizing ₹ 1500 crore during 2012-13. Till end of Dec'12, ₹ 749.48 crore has already been utilized by constructing 1482.89 Km. of roads.

Further, during 2013-14, it has been programmed to construct 5000 Km. of roads with an expenditure of ₹ 2000 crore.

B. NON- PLAN

(I) RURAL WORKS ORGANISATION:

A total outlay amounting to ₹ 85786.33 lakh has been proposed under Non-Plan grant in Rural Works Organization during 2013-14.

Finance Commission Award

Under 13th Finance Commission Award, provision of ₹ 2700.00 lakh for PMGSY roads and ₹ 7600.00 lakh for R.D. roads has been provided for maintenance of R.D. roads and 5 year completed PMGSY roads respectively.

Maintenance of Roads and Bridges:

₹ 41668.88 lakh has been made for repair, maintenance, improvement, widening of R.D. roads and bridges.

Maintenance of Rural Buildings:

₹ 21258.62 lakh has been proposed for residential and non-residential buildings and 30 years old and 50 years old High School Buildings borne in the books of R.D. Department.

(II) RURAL WATER SUPPLY AND SANITATION:

• Maintenance of Water Supply and Sanitary installations	- ₹ 506.92 Lakh
• Direction and Administration	- ₹ 4406.61 lakh
• Machinery and Equipment	- ₹ 1222.88lakh
• RWSS M & R, Wages Work Charged Salaries etc.	- ₹ 5069.58 lakh
• Suspense	- ₹ 0.01 lakh
• Other Expenses	- ₹ 5.25 lakh
• Sanitary Technicians' Training	- ₹ 7.30 lakh
• Maintenance of Water Supply and Sanitary installations	- ₹ 309.55 Lakh
• Apprenticeship Training	- ₹ 8.00 lakh
Total	- ₹ 11536.10 lakh

(III) SECRETARIAT ESTABLISHMENT - ₹ 487.20 LAKH

2. RURAL DRINKING WATER SUPPLY (R.W.S & S Organization)

The role of drinking water for individual's survival, reducing illness, enhancing economic growth and improving peoples' quality of life has acquired prominence in the process of the development agenda in recent years. The 10th Plan accorded topmost priority to provision of stipulated quantity of safe drinking water to "Not Covered" (NC) habitations, followed by coverage of "Partially Covered" (PC) and the quality affected habitations (having contaminated water). In previous years, the habitations were mostly covered by installation of hand pump tube wells and sanitary wells. But it is found that these sources do not attend to the desired level of sustainability. Hence it is decided that desired goal can be achieved by providing water to rural habitations through Piped Water Supply (PWS) schemes. The State Government has a clear mandate to cover all uncovered rural habitations and Government & Government aided schools. As on 31.3.12, there are 1,41,928 habitations (74,009-FC+67,919-PC) have been provided with drinking water facility through 3,16,281 spot sources (hand pump Tube Well and Sanitary Wells) and 7,693 Piped Water Supply projects commissioned in the State.

National Rural Drinking Water Programme

National Rural Drinking Water Programme (NRDWP) is being implemented w.e.f. 1.4.2009. Under this programme, provision of drinking water supply to the rural population is made through hand pump tube wells and piped water supply schemes. As per the new guidelines under NRDWP, there has been a shift in approach of coverage which aims at household level water security. The State Government provides a matching share of Central Assistance released for implementation of NRDWP scheme. Under the modified NRDWP programme, the drinking water supply projects are implemented with the following broad components:

- Coverage - 47% Priority has been given to provide safe drinking water to "Not Covered (NC)" habitations followed by coverage of "Partially Covered (PC)" habitations. (matching share 50:50)
- Water Quality - 20% To provide safe alternative sources of drinking water supply in quality affected habitations except for capital investment priority has been given for Fluoride affected habitations followed by Iron & salinity problems. (Matching share - 50:50)
- Sustainability (Swajaladhara mode) - 10% To encourage community participation for sustainability of water supply sources and systems, these schemes are implemented in broad Swajaladhara principle. (No matching share is required from State but contribution from village community is the essence.)
- Support activities - 5% Communication and capacity development (CCDU), Management Information System (MIS) and Computerisation are to be taken up on priority.
- Water quality Monitoring & Surveillance -3% Services of Asha, Angawandi workers, School Teachers, GP members, Social workers etc. will continue to be utilized for Surveillance programme. Monitoring is to be done by entering the test result of all sources tested by the Labs. The habitation and household data must be collected by two village level members i.e. VWSC members selected in the Gram Sabha and fully accountable to the Panchayat. They will also authenticate the test results of field test kits used in the village.
- Operation and Maintenance - 15% Government of India has provided 15% of funds to the State Govt. for operation and maintenance of existing rural water supply system. (matching State share - 50:50)

Rural Water Quality Monitoring and Surveillance

Govt. has made significant interventions to improve the availability of drinking water in rural areas. Activities relating to water quality were limited to testing of water sources at the time of commissioning the PWS projects and provision of alternative water supply through submission projects for areas where occurrence of Fluoride, salinity and Iron in ground water is beyond the permissible limit. The above programme would be implemented at three levels consisting of the State level, District level and grass root level.

- **Water Quality Problem Mitigation**

- As a long term sustainable measure 21 PWS projects taking reservoir / river as drinking water sources have been proposed at an estimated cost of ` 265.09 Crores.
- Out of the above, 4 Projects (Nuamalpada, Amodi, Koligaon, and Thelkodungri), at an estimated cost of ` 20.32 Crores are taken up for which full funding has been proposed in 2012-13.
- Out of the above, the Nuamalpada and Amodi PWS Projects have already been sanctioned and the work is under progress. For Koligaon & Thelkodungri, sources have been completed and tender for balance work is in process.
- Out of remaining 17 projects, the following 7 projects (Pipalchandi, Patara, Khalipani, Ichhapur, Krishan, Krishna, Dharanimal and Palasad) at an approximate cost of ` 178.02 Crores are proposed to be taken up in phased manner with assistance of RIDF (NABARD) for which action is being taken for preparation of DPR.
- Tender for consultancy service for Ichhapur, Khaliapani & Patara PWS projects have been received and under scrutiny. Balance four nos. namely; Pipalachandi, Krishna, Dharanimal and Palsada alongwith Khalana, Litiguda, Chhotadarlipada, Bargaon, Chandel, Dhankasar & Bhaludunguri tender is being invited for preparation of DPR.

3. ODISHASTATE WATER & SANITATION MISSION (OSWSM) Nirmal Bharat Abhiyan (NBA)

Total Sanitation Campaign (TSC) was launched as a Millennium Development Goal by Govt. of India in December 1999. The campaign views the sanitation problem holistically and looks at important tools and approaches that create demand for sanitation. It is an initiative to eradicate the age old practice of open defecation in country side. Encouraged by the success of Nirmal Gram Puraskar in different parts of the Country, Govt. of India has renamed TSC as Nirmal Bharat Abhiyan (NBA) with effect from 1st April, 2012. This initiative is unique for its vision of comprehensive sanitation coverage of entire rural community, all rural schools, anganwadies and public institutions through saturation approach latest by 2022 or earlier. The benefit under NBA is extended to IAPL (Identified APLs) covering all SC/STs, small and marginal farmers, landless labourers with homestead land, differently abled and women headed households along with all BPL households.

The unit cost of household toilets has been increased from `625/- (1999) to `5500/- (2012-13) out of which Government of India provides `3200/- towards its share along with state matching share of `1400/-. The beneficiary contribution for IHL is `900/- in shape of cash/kind/labour. IHHL construction cost under NBA has been raised to `10000/- in convergence with MGNREGS under which `4500/- is available through convergence with Panchayati Raj Department. The unit cost of toilets in Anganwadi Centre has also been revised from `5000/- to `8000/- (`5600/- GoI + `2400/- GoO) and School toilet from `20000/- to `35000/- (`24500/- GoI + `10500/- GoO) w.e.f. June 2010.

Objective:

- To Improve general quality of life in the rural areas by improving health & hygiene, ensuring economic development and over all environmental sanitation enhancing individual & collective self esteem and restoration human dignity.
- Women and children are the key stakeholders of the programme integrating the entire village for development through active participation of each and every family in promotion of sanitation.
- Involvement of PR Institutions in promotion of sustainable sanitation facilities is the focal point.
- School and AWC toilets are an integral part of NBA expected to be completed by March 2013.
- Community managed environmental sanitation with solid & liquid waste management.

Rural Sanitation & Funding:

In order to address the Rural Sanitary needs through community empowerment, the centrally sponsored “Nirmal Bharat Abhiyan” (NBA) is being implemented in all the 30 districts of the State. Government of India directly releases funds to the State Mission without being routed through State Budget and the State Government releases funds as Matching State Share to the District Water & Sanitation Missions after making appropriate provision in the State Budget. The entire operation under this campaign is being looked after by “Odisha State Water & Sanitation Mission” (OSWSM) of R.D. Department and the “District Water & Sanitation Missions” (DWSMs). State Government has made a budget provision of `2500.00 lakh towards matching State Share for the year 2012-13. In the Annual Plan for the year 2013-14 an amount of `5599.00 lakh has been proposed as Matching State Share.

Nirmal Gram Puraskar

In order to achieve desirable impact in disease prevention as well as for ensuring minimum standard of living to the entire rural population, it is essential that every household in any particular area has access to sanitation facilities and also to adopt hygienic practices. To promote such full coverage as well as to ensure total stoppage of the practice of open defecation and to maintain cleanliness, the Govt. of India have launched the Nirmal Gram Puraskar (NGP) from October, 2003. The NGP is awarded to Gram Panchayat, Block and Districts where there is no open defecation, access of toilets in all households as well as institutions like Schools, Anganwadi centers etc. So far 284 Gram Panchayats of the State have been bestowed with Nirmal Gram Puraskar at national level.

CHAPTER-II

Outcome Budget for 2013-14

The exercise is primarily meant for converting financial outlays into measurable and monitorable outcome. It is a performance measurement tool that helps in better service delivery, decision making, evaluating programme performance and results & improving programme effectiveness.

The Outcome Budget is also aimed at changing the outlook of the agencies entrusted with the responsibility of programme execution and implementation. The idea is to make the programme implementing agencies more result oriented by shifting the focus from “Outlays” to “Outcomes”.

It is a performance measurement tool that helps in better service delivery, decision-making, evaluating programme performance and results, communicating programme goals and improving program effectiveness.

The scheme-wise details, wherever necessary of the Outcome Budget for 2013-14 are indicated in the attached statement.

Koraput village sets hygiene example

Satyanarayan Pattnaik, TNN | 2013-03-02

KORAPUT: Marking a social success for others to emulate, a village in Koraput district has become totally free of open defecation with each of its 45 families constructing toilets in their homes. Since the past two years, around 220 tribal villagers of the non-descript Bondaguda village under Similiguda block in the district have been using toilets after the village committee banned open defecation. "All the 45 Kandh families have toilets of their own now. There is strict prohibition of open defecation in the village," said Naranga Pujari, president of Bondaguda Mahila Mandal

Nestled at the foothills of Deomali hill with numerous streams nourishing its lush farmlands, the village situated at a distance of about 45 km from here, has shown a marked decrease in the incidence of diseases since open defecation stopped. "Since we started using toilets not a single case of diarrhoea or malaria has been reported at our village," said Juruko Pujari, a village woman.

However, it was not easy to inculcate the toilet culture in the village. It took a series of awareness camps organized by the district administration at the village to make the villagers conscious about the ill-effects of defecating in the open.

"Initially, the tribals were reluctant to construct toilets at their homes but when they were made to realize through street plays and posters how they were suffering from various diseases like diarrhoea and malaria due to defecating in the open, their mindset gradually changed," said Debasish Pattnaik, coordinator of district water and sanitary mission. The tribals were provided training in constructing toilets and ₹ 2,200 was given by the administration to each of the 31 BPL families of the village to build toilets. "As the rest of the 14 families at our village don't have BPL cards, they were not provided with the fund for constructing toilets. So we pooled all the fund of the 31 families and donated our labour to ensure that all the 45 families get a toilet from the fund meant for 31 families," said Pujari.

The villagers are now motivating people in neighbouring villages of Jhimitiguda, Pipalguda and Dalaiguda to use toilets too. "Bondaguda is the first village of the district which has been declared 'open defecation free'. It has set an example for others to follow. Now we aim to make the entire Similiguda block 'open defecation free' in the next few months," said Koraput collector Sachin Jadhav.

The village also boasts of another reform by restricting consumption of liquor to only Fridays and special occasions like pujas and marriages. "The villagers are allowed to consume liquor only on Friday as the haat (weekly market) sits on that day. Moreover, villagers are not allowed to create nuisance after consuming liquor. If anyone is found consuming liquor on any other day and creating disturbance at the village, a fine of ₹ 50 is imposed on him," said Sanjeev Sekhar Pujari, a villager. "We have also restricted the use of cigarettes, bidis and chewing tobacco at the village," he added.

Continuing on the progressive path, the villagers have started yet another praiseworthy practice of collecting ₹ 5 each month, which go towards creating a common fund pool to be used in times of emergency like taking a patient to the hospital, purchasing medicines, etc. "A village meeting is held once a month, attended by at least one member from each family. All community decisions are taken at the meeting," said Kosai Pujari, another villager.

STATE PLAN (2013-14)

Rural Water Supply & Sanitation

in TRS

Sl. No	Name of the Schemes/Programme	Financial Outlay	Boad objective	Quantifiable/Deliverable Physical Outputs	Project Outcome	Processes/Timelines	Remarks/Risk Factors
1	2	3	4	5	6	7	8
1	National Rural Drinking Water Programme (NRDWP)	2400000-State Share of NRDWP, 100000 – RIDF – Rural Water Supply 2624325–(Anticipated Central Share not routed through State Budget)	Providing safe drinking water to rural public	Availability of safe drinking water / Coverage of 10000 rural habitations, through 35000 spot sources &1200 PWS Schemes	2400000 State Share of NRDWP, 100000 RIDF – Rural Water Supply 2624325 (Anticipated Central Share not routed through State Budget)	12 months	Availability of potential Source with quality water, electricity and Govt. land.
2	State Plan – ME – R/C	10000		POL of Vehicles and Special Repair to Departmental Rigs.	10000	12 months

CHAPTER-III

Reform Measures and Policy Initiatives

R.D. Department has taken many e-initiatives to monitor and maintain transparency in the works being implemented by the Department. The provision of basic public services being provided through electronic mode are:

(I) Website:

The information relating to R.D. Department is being uploaded to the State Govt. website i.e. <http://www.rdodisha.in/index.htm>. The website of the department acts as an index of all activities relating to R.D. Department. Further, links have been provided to all other e-activities undertaken by this Department. The information on Pradhan Mantri Gram Sadak Yojana (PMGSY), Drinking Water Supply and Nirmal Bharat Abhiyan (NBA) is being monitored online. The letters dispatched through e-Dispatch by the Department are also being webhosted. The information coming under Right to Information Act is also being updated and available in the Department website.

(ii) e-Desptch:

Starting from the R.D. Department at Secretariat, an electronic integrated platform for dispatching letters is in use up to Division level since 2009. All letters are web-hosted for public view for transparency, quick transmission and easy access.

(iii) Integrated Management Information System (IMIS):

A web-based system (<http://indiawater.gov.in/imisweb/>) for management & monitoring of drinking water supply system has come into force with effect from 1st April, 2009. Officials as well as public can know every detail of drinking water sources available in their habitation, the cost of the project, year of installation etc.

(iv) Online Monitoring and Management of Accounts System (OMMAS):

To make it transparent and proper monitoring of both physical and financial progress, of PMGSY work, C-DAC, Govt. of India have developed a web-based software for online monitoring and management namely OMMAS. The URL of OMMAS site is <http://www.pmgys.org/>. By accessing this site, the public can see the details of roads taken up under PMGSY, it's executing agency, the cost of the roads, the length of roads and it's physical & financial progress.

(v) Nirmal Bharat Abhiyan (NBA):

The information on NBA is also being monitored online. The URL of the NBA website is <http://tsc.gov.in/tsc/NBA/NBAHome.aspx>. The details of Individual Household Latrines, Anganwadi Toilets, Village Sanitary Complex constructed under TSC are available in the website. OSWSM has its own website as <http://oswsm.com>

(vi) Integrated Grievance Redressal System (IGRS):

An IGRS named as Sanjog Helpline (www.sanjoghelpline.in) is an IT solution which informs about the grievance of a common man to the right authority in real time via SMS, email & FAX. A toll-free number i.e. 155335/18003456770 has been provided for the public to register their complaints. IGRS is activated and operated towards the goal for smooth redressal of public

grievances on Rural Water Supply and Sanitation (RWSS) and Pradhan Mantri Gram Sadak Yojana (PMGSY).

(vii) e-Procurement:

It is carrying out traditional tendering process in an electronic form (through internet). It connects the procuring organization with the bidders through electronic exchange of tenders. It is a management and reform program in the procurement field.

e-Procurement and iOTMS is done with a software application that includes features for supplier management and complex auctions. Here in the electronic tendering process both the Govt. and the contractors will be benefited.

(viii) WAMIS:

Works and Accounting Management Information System (WAMIS), a web-based software, is being developed by C-DAC, Pune. It is a Division Automation System integrated with MIS features.

WAMIS has 5 modules such as :

- 1) Accounting Management System (AMS)
- 2) Works Management System (WMS)
- 3) Budget Management System (BMS),
- 4) Billing Module, and
- 5) Integration with AG for online submission of Monthly Accounts.

By using this software Divisions are generating their Monthly Accounts and started submitting these to AG. Not only R.D. Deptt, but also all engineering departments of the State like, Works, Water Resources and H&UD Departments are now using WAMIS.

(ix) CPSMS

Central Plan Scheme Monitoring System, an web application for online management information and decision support system for the Plan Schemes of Government of India has been in use in the Department. The Central Sponsored Schemes like PMGSY, NRDWP and TSC have been registered in this system.

(x) OSWAS

Odisha State Workflow Automation System, an e-filing system has been implemented in Rural Development Department since January, 2012. Now all files are being processed through OSWAS, which not only eases the movement of files but also tracking of Daks and files has become much easier. This makes the Department a Less Paper Office.

(x) e-NIRMAN

An Online Project Monitoring system (e-Nirman) is being used by the Department since December, 2011 to track and trace the Physical and financial progress of different projects undertaken under different important schemes like BSY, NABARD assisted projects etc.. The online application has the facility to integrate all construction activities like forecasting, tender processing, bill processing of different works like Roads, Buildings and Bridges. The application is accessible through <http://www.rdodisha.in/e-Nirman.asp>.

• New schemes introduced.

From the year 2007-08 the State Govt. have provided funds under major head-5054 under State Plan for grant to Odisha State Rural Road Agency (OSRRA) towards high tender premium and construction of bridge beyond 50 mtr for PMGSY work and under major head-3054 under

Non-Plan sector towards routine maintenance of the PMGSY work which have already been completed earlier.

Earlier, this Department have executed PWS, Tube Well & Sanitary wells for providing safe drinking water to the rural habitation under ARWSP scheme which is subsequently GoI change by giving re-name as NRDWP by the GoI.

- **Change in internal processes of the Department in relation to administration of the scheme.**

No internal processes of the Department in relation to administration of the scheme have been changed.

- **Change of financing pattern and Fund flow mechanism.**

Only in NRDWP scheme GoI have provided funds to the implementing agency directly (i.e. CE, RWS&S) through Bank Account and the State Govt. is also provided state matching contribution to the implementing agency through Administrative Department. The Administrative Department draws the state matching share and deposits in the bank account of implementing agency.

- **Policy reform if any**

The R.D. Department has executed the PWS, Tube Well & Sanitary Wells for providing safe drinking water to rural habitation. After execution of the project the same has been transferred to Gram Panchayats for maintenance of projects. Now dedicated JEs have been posted in each block for O&M and sanitation work. We propose to go for EPC based procurement and slowly go for zero stock & store.

PMGSY programme aims at providing all weather connectivity to all unconnected habitation in the rural areas of the State having more than of equal to 1000 habitations in plain areas and 500 or more in schedule area which has been relaxed by GoI from 500 to 250 habitations for selection of PMGSY road projects in such areas.

- **Internal Audit of PMGSY works**

Works and accounts of PMGSY works are normally audited by A.G. & empanelled Chartered Accountant firms as statutory audit. In order to ensure both accuracy in accounts and efficiency in the operation of financing of State agencies, MoRD in GoI has decided to make internal audit of SRRDAs and PIUs under PMGSY mandatory SRRDA will appoint internal auditors as a management aid to ensure the true and fair record of account. Accordingly, internal audit of PMGSY work in the State is being operationalised by OSRRA with effect from 2012-13 for which a Steering Committee is constituted at Govt. level. Internal audit is to be conducted half yearly basis. The audit report will be uploaded in OMMAS site.

- **Change in the composition of beneficiaries, if any**

Not required.

CHAPTER-VI

Gender and SC/ST Budgeting

As per the Plan ceiling furnished by the P&C Department, during the financial year 2013-14, the provision made under Transport Sector (rural roads and bridges) is `667.88 crore out of which TASP provision is `153.00 crore and `113.21 crore for SCSP component for implementation of schemes in scheduled areas. Accordingly, the Department has formulated project list for construction of the roads and bridges in the scheduled areas to provide good all-weather roads.

The screenshot displays the official website of the Rural Development Department, Government of Odisha. At the top, a banner features three images: a training session on the 'Odisha Right to Public Services Act, 2012', a ribbon-cutting ceremony, and a bridge. The website header includes the department's name, the Hon'ble Chief Minister's name (Shri Naveen Patnaik), and a navigation menu with links to Home, About Us, The State, Guidelines, Achievements, Service Delivery, Photo Gallery, and Tenders.

The main content area is divided into several sections:

- NEWS & MEDIA:** A news item dated 22-02-2013 reports on the inauguration of the Media and Entertainment National Conclave-2013 at Hotel Mayfair by Hon'ble Chief Minister Shri Naveen Patnaik.
- About Us:** A section detailing the department's history, stating it was created on 1st July 1990 to deal with Minor Irrigation, Lift Irrigation, Rural Road, Rural Water Supply, and Sanitation sectors.
- Service Delivery:** Three main categories are listed:
 - Rural Works:** Includes links for Roads, Buildings, Biju Setu Yojana, and OSRRA.
 - Rural Water Supply:** Includes links for Tube Wells & Sanitary Wells, Piped Water Supply, Habitation, and Vision-2017.
 - Rural Sanitation:** Includes links for Nirmal Bharat Abhiyan, Odisha Water & Sanitation Mission, and Faq.
- Sanjog Helpline:** A green box providing contact information for queries.
- e-Despatch Odisha:** A link for digital document delivery.
- Important Links:** A section for quick access to key resources.

The browser interface shows the URL <http://www.rdoodisha.in/index.htm> and the system tray at the bottom indicates the date as 01-03-2013 and the time as 12:53.
