<b>2.</b>	<b>CHAPTER-I</b>	Introduction	<b>1-16</b>
<b>3.</b>	<b>CHAPTER-II</b>	Outcome Budget, 2014-15 Statement (Plan & Non-Plan)	<b>17-100</b>
<b>4.</b>	<b>CHAPTER-III</b>	Reform Measures & Policy Initiatives	<b>101-103</b>
<b>5.</b>	<b>CHAPTER-IV</b>	Past performance of programmes and schemes	<b>104-112</b>
<b>6.</b>	<b>CHAPTER- V</b>	Financial Review	<b>113-120</b>
<b>7.</b>	<b>CHAPTER-VI</b>	Gender and SC/ST Budgeting	<b>121</b>

## EXECUTIVE SUMMARY

The Outcome Budget of Rural Development Department broadly indicates physical dimensions of the financial outlays reflecting the expected intermediate output. The Outcome Budget is a tool to monitor not just the immediate physical "outputs" that are more readily measurable but also the "outcomes" which are the end objectives.

2. The Outcome Budget 2015-16 broadly consists of the following chapters:

- **Chapter-I:** Brief introduction of the functions, organizational set up, list of major programmes/schemes implemented by the Department, its mandate, goals and policy frame work.
- **Chapter-II:** Tabular format(s)/statements indicating the details of financial outlays, projected physical outputs and projected outcomes for 2015-16 under Plan and Non-Plan.
- **Chapter-III:** The details of reform measures and policy initiatives taken by the Department during the course of the year.
- **Chapter-IV:** Write-up on the past performance of the year 2013-14 and 2014-15 (up to March-2015)
- **Chapter-V:** Actuals of the year preceding the previous year, Budget Estimates and Revised Estimates of the previous year, Budget Estimates of the Current Financial year.
- **Chapter-VI:** Highlights of the outlays provided for the schemes benefiting Women, ST and SC groups along with the corresponding physical output.

## **Monitoring Mechanism of Rural Development department**

The establishment of the Millennium Development Goals has significantly reinforced the concerns about non-income poverty. With the paradigm shift in economic development from growth to broadly defined “development,” the concept of rural development has begun to be used in a broad sense. The concept now encompasses “concerns that go well beyond improvement in growth, income and output. Connectivity – physical like roads, water and sanitation services to our people in rural areas is not an administration but a mission.

Road transport is vital for the economic development and social integration of the country. Easy accessibility, flexibility of operations, door-to-door service and reliability have earned road transport an increasingly higher share of both passenger and freight traffic vis-à-vis other transport modes. Transport sector accounts for a share of 6.4 percent in India’s Gross Domestic Product (GDP). The Road Transport Sector has grown significantly during the past five decades. Road Transport has deep linkages with the rest of the economy and a strong multiplier effect. Transport is essentially a derived demand depending upon the size and structure of the economy and the demographic profile of the population. Greater the share of commodity-producing sectors like agriculture and manufacturing, higher is the demand for transport. Orissa’s surge in growth and expansion in public spending in the past decade has created new possibilities for its social protection system. Social protection strategy must aim at mitigating water poverty in rural areas. The Government is firmly committed to the goal of providing safe drinking water and sanitation facilities to the entire population of the State. The Government is equally committed to the objective of ensuring source and system sustainability. Despite the efforts put forth in the past, there is a growing concern over the widening gap between the expectations of the people and the achievements. Paucity of funds, over-exploitation of water resources, degradation of water recharge structures, competing demand on the available water resources, depleting water availability due to continuous failure of monsoon are some of the factors that cause concern on the supply front.

There is an inbuilt monitoring mechanism in the guidelines of each scheme of the Department so as to ensure that the objectives are achieved by their implementation.

The Deptt. have 13 Sections. Two sections namely (1) Budget and (2) PMGSY are headed by a F.A-cum-Addl. Secretary. Seven sections like (1) Office Establishment,

(2) RWS&S (Field Establishment), (3) RW (Establishment), (4) RW (Scheme), (5) RTI/PMU, (6) Legal Cell and (7) DAK Sections are being headed by One Additional Secretary supported by One Joint Secretary, One Deputy Secretary, One Law Officer and two Consultants. Four Sections like (1) RWS&S (Scheme), (2) Bill and Cash, (3) Coordination and (4) Computer Sections are being managed by one Deputy Secretary. That apart, there are two Under Secretaries and one AFA-cum-Under Secretary to assist Addl. Secretary and FA-cum-AS in discharging the official duties respectively.

The Department has a huge field formation with 2 EICs, 6 Chief Engineers at Heads of Dept. level (1 EIC and 4 Chief Engineers in Rural Works Organization, 1 EIC and 2 Chief Engineers in Rural Water Supply and Sanitation Organization), 23 circles headed by S.Es at Circle level (15-RW + 8-RWS&S) and 103 Divisions headed by Executive Engineers at District level ( 65-RW and 38-RWS&S) and 321 Sub-Divisions (RW- 228+ RWS&S-93) headed by Asst. Executive Engineers (AEE) at Sub-Division level, 1064 Sections (RW- 678 + RWS&S-386) headed by AEEs and AE/JEs who are looking after the functioning of this Department. This is in addition to 314 JEs recently engaged for O&M and sanitation work in each Panchayat Samiti. There are two Agencies namely (i) Odisha State Rural Road Agency (OSRRA)-chaired by Hon'ble Minister RD, to monitor the PMGSY works and (ii) Odisha State Water & Sanitation Mission (OSWSM)- chaired by the Chief Secretary, to monitor/execute the Swachha Bharat Abhiyan (Gramin) (previously known as Nirmal Bharat Abhiyan/Total Sanitation Campaign programme). Apart from continuous monitoring through periodical progress reports received from the office of EICs on both the financial and physical progress of the programmes, Principal Secretary monitors the progress of the schemes through Video Conference regularly. The Department also emphasizes on E-Governance. Emphasis is being given on both quality and quantity of physical progress. For effective monitoring of quality of works for non-PMGSY works Third Party Quality Monitoring System is being established. To monitor the physical progress of each project, provision has been made in WAMIS for uploading the geo-tagged photographs of works. This system will facilitate the high level officers to monitor both the physical as well as financial progress of projects. The Department is also planning to have a Web GIS Asset Management Information System taking all Roads, Buildings, Bridges/culverts and PWS installations with the help of C-DAC and ORSAC.

Furnishing of statement of expenditure, Utilization Certificates, Audited Accounts and other requisite reports are submitted for the release of subsequent installments.

The officer dealing with the implementation of the programmes visits regularly the site to ensure that the programmes are being implemented satisfactorily.

Officers visit their assigned districts at regular intervals and the important observations of such teams are shared with the Department advising them to take appropriate corrective measures, wherever shortcomings are noticed.

A Performance Review Committee under the chairmanship of Principal Secretary reviews the performance of various programmes being implemented by the districts and recommends corrective action wherever found necessary.

With a view to fulfilling the objective of ensuring quality in implementation, particularly in the context of large public funds being spent under all the programmes of the Department the Monitoring Committees are constituted.

Work Plan for DoRD for the Financial Year 2014-15 was prepared with due consultation of all stake holders. The work plan was drawn up taking into account the annual budget provisions and past performance of respective areas of work. The Chief Engineers were asked to draw up similar month wise and head of expenditure wise financial and physical plans for all the Divisions to enable field functionaries to appreciate the purpose and benefit of Results Framework Approach. Evaluation has been made basing on the scheme-wise weightage provided to physical targets. It is found that during the financial year 2014-15, the achievement was about 111% (excluding the funds which have not been released by GoI). The RFD for the year 2015-16 is also prepared and submitted to P&C Department.

## **Public Information System**

Information, Education and Communication (IEC) plays a vital role in creating awareness, mobilizing people and making the development participatory through advocacy and by transferring knowledge, skills and techniques to the people. Moreover, IEC plays two most important roles – informative and persuasive and as such is crucial for bringing about requisite social mobilization and facilitating participatory development.

The following strategy that has been adopted by the Department would be continued to ensure maximum benefits out of the programmes of the Department.

## **Odisha Right To Public Services Act 2012 – Repair of Handpump**

Delivery of important services in a time bound manner is the hallmark of Good Governance. Government of Odisha has time and again initiated steps for improving the service delivery to its citizen. Keeping with the ethos of a Welfare State, Government of Odisha has passed a landmark legislation "Odisha Right to Public Services Act, 2012" that guarantees the delivery of public services in a time bound manner. With the passing of Right to Public Services Act, Government of Odisha has taken another strong step to bring efficiency, accountability and transparency in delivery of the public services. Time period of services (Repair of Hand Pump Tubewells) has been prescribed as detailed below:

- (i) 7 days of Minor Repair
- (ii) 14 days of Major Repair(except replacement)
- (iii) 28 days for replacement.

- Designated Officer .. Junior Engineer-II, RWSS
- Appellate Authority .. Assistant Engineer, RWSS
- Revisional Authority .. Block Development Officer.

All the Tubewells belonging to RWSS organisation are being painted in number Any person who wants to repair the tubewells may apply to the Designated Officer (DO) by giving the details of tubewell in a plain paper along with his address, and DO shall repair the said tubewell within 7 days.

**APPEAL :** Any person whose application is rejected or not provided the service within given time limit may within 30 days from the date of receipt of order of rejection of expiry of given time limit prefer an appeal before the Appellate Authority. Appellate Authority may within a period of 30 days from the date of filing of appeal by order, direct the Designated Officer to provide the service within the time limit mentioned in the order.

**REVISION:** Any person aggrieved by the order of Appellate Authority or in case of non-disposal of the appeal in time may within 30 days from the date of that order, prefer a revision. Revision with 30 days.

Revisional Authority may impose penalty within the designated officer appellate authority and the subordinate staff `5000/ or `250/ per each day of delay shall be proportioned to be decided by the revisional authority. Public holidays shall not be included in the given time limit. This is an act of the Government to provide service within the given time.

## **Sanjog Initiative**

Sanitation is essential to ensure a better quality of life among all sections of people in rural and urban areas. 80% of common diseases are caused by lack of sanitation and personal hygiene practices. Swachha Bharat Mission (SBM)-Gramin does not limit itself to safe disposal of human excreta; it forms a comprehensive concept that includes safe disposal of solid and liquid waste, domestic and personal hygiene. SBM in Odisha is being implemented in all the 30 districts of the State. The Programme is “community-led” and “people-centered” with increased stress on awareness creation and demand generation from people for sanitary facilities in households for cleaner environment. The present Operational Guidelines and booklet on Technology Options are developed to guide district as well as field functionaries and core team members in smooth implementation of the programme. This is necessary because of low coverage of IHL construction and less involvement of Panchayati Raj Institutions specifically Gram Panchayats in the program.

The Sarpanch will monitor the progress of the household, school and anganwadi sanitation in the GP. He /she will be supported by a team of AWWs, ASHA, SEM and village motivators to make household visits, and assess the participation of the households, installation of complete and usable toilets, technologically appropriate and fitted correctly to ensure best benefits to the community. An appropriate superstructure should also be done to render the toilet usable immediately. The completed toilets will be verified by a two member team consisting of SEM and AWW, AWW and ASHA or the SEM and ASHA. The implementing agency, SHGs, the AWWs, ASHA, and Sarpanch will continue to advocate the use of toilets after the installation is complete.

They should also emphasize the importance of other associated hygiene practices, hand washing with soap after defecation and before handling food, safe disposal of child fecal, safe disposal of waste water and solid waste, cleanliness around hand pumps, clean tube well platforms etc. Nirmal Gram Puraskar has been

awarded to 236 Gram Panchayats for achieving total sanitation and open defecation free environment by HE President of India

## **E-initiatives**

Efficiency of delivery is increasingly becoming the focus of governmental programmes. This is both on account of an explicit recognition of sub-optimal achievements in reaching the targeted beneficiaries in many of the schemes as well as in curbing wasteful expenditure. Realizing this, new tools, particularly application of modern technology are being resorted to in achieving governance and delivery efficiency.

As per section 4 of Right to Information Act, 2005 every public authority shall maintain all its records duly catalogued and indexed in a manner and the form which facilitates the right to information under this Act and ensure that all records that are appropriate to be computerized are, within a reasonable time and subject to availability of resources, computerized and connected through a network all over the country on different systems so that access to such records is facilitated. The Act U/S 4-4 further says that all materials shall be disseminated taking into consideration the cost effectiveness, local language and the most effective method of communication in that local area and the information should be easily accessible, to the extent possible in electronic format with the Central Public Information Officer or State Public Information Officer, as the case may be, available free or at such cost of the medium or the print cost price as may be prescribed.

The e-initiatives of RD department were meant to answer the above need and convert this threat into an opportunity to automate the processes that can be done using latest technology platforms. e-Dispatch, iOTMS, e-Procurement, LMS, OMMAS, IMIS, WAMIS, e-Abhiyog, Sanjog Helpline and OSWAS were major steps, taken. In addition to the above the website of RD Department are maintained and updated regularly.

## **Road Ahead**

Rural Development Department is in charge of construction and maintenance of rural roads, rural Govt. buildings (both residential and non-residential) and water supply installations. We have got plan to connect habitations with population 250 and above in 18 IAP districts and habitations with population 500 & above in plain areas and 250 and above in schedule area for balance 12 Non-IAP districts in phased

manner. Till 31.03.2014, 7308 habitations above 250 populations have been provided connectivity under PMGSY. During 2014-15, approx. 500 habitations were targeted to be provided with all-weather connectivity. Out of such habitations, connectivity have been provided to 418 unconnected habitations till end of December 2014. Similarly we have less than 2% rural house hold with tap-water in their household. 74 lakh rural household require 3-taps (kitchen bathroom and toilet) in their households to enjoy water security at household level. Sanitation coverage among BPL is encouraging but the same among APL is not so. This may require more intensive and extensive IEC campaign for times ahead.

# CHAPTER-I

## INTRODUCTION

The concept of rural development has changed significantly during the last 3 decades. Until the 1970s, rural development was synonymous with agricultural development and, hence, focused on increasing agricultural production. This focus seems to have been driven primarily by the interests of industrialization to extract surpluses from the agriculture sector to reinforce industrialization. Four major factors appear to have influenced the change: increased concerns about the persistent and deepening of rural poverty; changing views on the meaning of the concept of development itself; emergence of a more diversified rural economy in which rural non-farm enterprises play an increasingly important role; and increased recognition of the importance of reducing the non-income dimensions of poverty to achieve sustainable improvements in the socio-economic well-being of the poor.

The establishment of the Millennium Development Goals has significantly reinforced the concerns about non-income poverty. With the paradigm shifts in economic development from growth to broadly defined “development,” the concept of rural development has begun to be used in a broader sense. The concept now encompasses “concerns that go well beyond improvements in growth, income, and output. The concerns include an assessment of changes in the quality of life, broadly defined to include improvement in health and nutrition, education, environmentally safe living conditions, and reduction in gender and income inequalities.” Today there seems to be a universal consensus that the ultimate objective of rural development is to improve the quality of life of rural people. This makes it essential to go beyond the income-related factors such as prices, production, and productivity to a range of non-income factors that influence quality of life and hence inclusiveness. Inclusive rural development is a more specific concept than the concept of rural development.

Rural upliftment requires strong commitment, patience and perseverance. It is a challenging but interesting task. The Govt. can not by itself provide the required services/comforts without the cooperation of the all stake-holde` Physical connectivity like construction of roads and bridges and providing adequate safe drinking water as well as sanitation services to our rural population is indeed a mission and not a mere administrative function. With this concept, R.D. Department was created on 1<sup>st</sup> July, 1990 to look after sectors like construction of rural roads, buildings construction & maintenance of rural water supply projects and implementation of sanitation programmes to enhance the quality of life of rural population of the State.

Work Plan for DoRD for the Financial Year 2014-15 is prepared with due consultation of all stake holders. The work plan was drawn up taking into account the annual budget provisions and past performance in respective areas of work. The Chief Engineers were asked to draw up similar month wise and head-wise financial and physical plans for all the divisions to enable field functionaries to appreciate the purpose and benefit of Results Framework Approach. We propose to continue this in current financial year.

The Rural Development Department in its present form consists of two organisations namely (i) Rural Works (R.W.) (ii) Rural Water Supply & Sanitation (RWS&S).

### **Organisational Setup:**

The Deptt. have 13 Sections. Two sections namely (1) Budget and (2) PMGSY are headed by a F.A-cum-Addl. Secretary. Seven sections like (1) Office Establishment, (2) RWS&S (Field Establishment), (3) RW (Establishment), (4) RW (Scheme), (5) RTI/PMU, (6) Legal Cell and (7) DAK Sections are being headed by One Additional Secretary supported by One Joint Secretary, One Deputy Secretary, One Law Officer and two Consultants. Four Sections like (1) RWS&S (Scheme), (2) Bill and Cash, (3) Coordination and (4) Computer Sections are being managed by one Deputy Secretary. That apart, there are two Under Secretaries and one AFA-cum-Under Secretary to assist Addl. Secretary and FA-cum-AS in discharging the official duties respectively.

The Department has a huge field formation with 2 EICs, 6 Chief Engineers at Heads of Dept. level (1 EIC and 4 Chief Engineers in Rural Works Organization, 1 EIC and 2 Chief Engineers in Rural Water Supply and Sanitation Organization), 23 circles headed by S.Es at Circle level (15-RW + 8-RWS&S) and 103 Divisions headed by Executive Engineers at District level ( 65-RW and 38-RWS&S) and 321 Sub-Divisions (RW- 228+ RWS&S-93) headed by Asst. Executive Engineers (AEE) at Sub-Division level, 1064 Sections (RW- 678 + RWS&S-386) headed by AEEs and AE/JEs who are looking after the functioning of this Department. This is in addition to 314 JEs recently engaged for O&M and sanitation work in each Panchayat Samiti. There are two Agencies namely (i) Odisha State Rural Road Agency (OSRRA)- chaired by Hon'ble Minister RD, to monitor the PMGSY works and (ii) Odisha State Water & Sanitation Mission (OSWSM)- chaired by the Chief Secretary, to monitor/execute the Swachha Bharat Mission (Gramin) (previously known as Nirmal Bharat Abhiyan/Total Sanitation Campaign programme).

Principal Secretary is the Chief Executive Officer to monitor the work of the Department.

## Funding

The activities of the DoRD are supported by financial outlays in the Plan and Non-Plan Budget of the State Govt. Besides the grants received from the Central Govt through ministry of Rural Development for implementation of National Rural Drinking Water project on the sharing basis 50:50 in Coverage, Operation & Maintenance and Water Quality programme. Further Govt. of India have provided 100% funds for implementation of Pradhan Mantri Gram Sadak Yojana for construction of all-weather connectivity to all unconnected habitations in rural area of the State having more than or equal to The existing PMGSY scheme aims for providing connectivity to the unconnected habitations of 500 + population in general area and 250+ population in 18 IAP districts & upto 100+ population in 38 LWE blocks.

The funds were previously released by the Govt. of India under PMGSY not routed through State Govt. Budget and the same is directly released to the implementing agency i.e. OSRRA (Odisha State Rural Road Agency). Govt. of India launched “**Swachh Bharat Mission (Gramin)**” with effect from 2nd October 2014. It aims to achieve Swachh Bharat by 2019, as a fitting tribute to the 150th Birth Anniversary of Mahatma Gandhi. The National Flagship programme of GoI for sanitation i.e. Nirmal Bharat Abhiyan has been restructured and renamed as “Swachh Bharat Mission” (Gramin). The concept of Swachh Bharat encompasses ways to access every person with sanitation facilities including toilets, solid & liquid waste disposal systems, village cleanliness and provision of adequate drinking water. In line with the national goal, Govt. of Odisha has also taken strong initiatives and strives to make Odisha Open Defecation Free (ODF) by 2019 by ensuring construction and use of Individual Household Latrine (IHHL) alongwith environmental cleanliness. Previously, to achieve the above targets, the above mission was addressed to through the centrally sponsored “Nirmal Bharat Abhiyan”(NBA) previously known as "Total Sanitation Campaign" (TSC). The SBM programme is being implemented in all the 30 districts of the State. Government of India releases funds through State Govt. budget and the State Govt. releases funds as matching state share after making appropriate provision in the state budget. The entire operation under this campaign is being looked after by the OSWSM of RD Department and the District Water and Sanitation Missions.

The Scheme-wise provision under State Plan for 2015-16 is as follows:

The details are as follows:

## A. STATE PLAN

### (i) Rural Works

A total outlay of ` 332200.00 lakh has been proposed for the year 2015-16 under the roads & bridge sector/building sector of Rural Works Organisation Schemes to be implemented as follows.

#### 1) Construction of R.D.Deptt. Building (Non-Residential) R.W ( ` 500.00 lakh)

A sum of ` 500.00 lakh has been proposed for the year 2015-16 for construction of office building for different office of Rural Development Department.

#### 2) R.W Residential Building ( ` 1200.00 lakh)

A sum of ` 1200.00 lakh has been proposed for construction of residential building under Rural Development Department for the year 2015-16.

#### 3) Rural Roads and Bridges (NABARD Assisted Project) ( ` 45000.00 lakh)

A sum of ` 45000.00 lakh has been proposed in the year 2015-16 for construction of bridges & roads under NABARD scheme.

#### 4) Road Works (PMGSY) ( ` 190000.00 lakh)

A sum of ` 190000.00 lakh has been proposed for construction of roads & bridges under this scheme during 2015-16. Out of this, ` 180000.00 lakh have been allocated as Central Share and ` .10000.00 lakh towards State Contribution to meet the cost of

construction of bridges, tender premium & labour escalation etc. The amount of State Contribution i.e. ₹ 10000.00 lakh has been provided under the scheme "Completion of incomplete roads and bridges under different tranches of RIDF & Other Schemes".

**5) CWA (Constituency Wise Allotment) ( ₹ 2840.00 lakh)**  
₹ 20.00 lakh has been provided for each Assembly constituency (except five urban constituencies) in the budget for the year 2015-16 for improvement of Rural Roads.

**6) Completion of incomplete roads & bridges under different tranches of R.I.D.F & Other Schemes. ( ₹ 12000.00 lakh)**  
A sum of ₹ 7000.00 lakh has been earmarked for completion of incomplete roads and bridges under different tranches of RIDF & other schemes and ₹ 5000.00 lakh for ongoing works of 2014-15 under onetime ACA.

**7) Capacity Building (Resource & Infrastructure Development) ( ₹ 800.00 lakh)**  
A sum of ₹ 800.00 lakh has been proposed under capacity building for Survey Expenses, Survey Equipment, Tech. Training, Consultancy charges-PMU & Quality Monitoring important roads, bridges & building projects, DPR preparation, Computerisation of offices, WAMIS, GIS exposure visit inside/outside country etc. for the year 2015-16.

**8) Land acquisition charges ( ₹ 50.00 lakh)**  
A sum of ₹ 50.00 lakh has been proposed for the year 2015-16 towards land acquisition for different rural roads and bridges.

**9) Decretal dues ( ₹ 10.00 lakh)**  
After settlement of the court cases, Govt. needs to pay decretal dues as and when necessary Provision of ₹ 10.00 lakh has been proposed for the year 2015-16.

**10) Biju Setu Yojana ( ₹ 15000.00 lakh)**  
₹ 15000.00 lakh has been proposed for construction of bridges on rural roads under Biju Setu Yojana during 2015-16.

**11) Improvement of existing RD roads. ( ₹ 5700.00 lakh)**  
There is a provision of ₹ 5700.00 lakhs for improvement of existing R.D. Roads. during 2015-16.

**12) Incentive for early completion of Major Projects. ( ₹ 300.00 lakh)**  
There is a proposal of ₹ 300.00 lakhs towards incentive to contractors for early completion of Major Projects during 2015-16.

**13) Special Programme for KBK dist. (SCA). ( ₹ 8500.00 lakh)**  
There is a proposal of ₹ 8500.00 lakhs for improvement of road in KBK dist during 2015-16.

**14) Construction of Bailey Bridges. ( ₹ 25000.00 lakh)**  
There is a proposal of ₹ 25000.00 lakhs for construction of 103 Bailey Bridges in inaccessible areas IAP districts during 2015-16.

### **15) Mukhya Mantri Sadak Yojana.**

**(` 25000.00 lakh)**

There is a proposal of ` 25000.00 lakhs for improvement of important RD roads during 2015-16. This is new scheme introduced during 2014-15 for construction/improvement of rural roads. The modalities of the scheme is being finalized.

### **16) Development of Rural road connectivity.**

**(` 300.00 lakh)**

There is a proposal of ` 300.00 lakhs for development of rural road connectivity during 2015-16. This is new scheme introduced during 2014-15 for construction/improvement of rural roads. The modalities of the scheme is being finalized

## **(ii) Rural Water Supply**

The availability of safe drinking water is an important role in the health and wellbeing of the people. Rural Development Department is the nodal department for providing safe drinking water in rural population.

### **1. NRDWP**

**(SP: ` 46910.62 lakh)**

The rural water supply and sanitation organisation is functioning under the Rural Development Department primarily aims at providing safe drinking water to the rural people of the state. From the year 2009-10, rural water supply is carried out as per the new guideline of GOI i.e. National Rural Drinking Water Programme (NRDWP). The goal of the programme is to provide every rural person with adequate water for drinking, cooking and other domestic basic needs on a sustainable basis. There is a paradigm shift in coverage from habitation to household. To meet the emerging challenges in the rural drinking water sector relating to availability of sustainable and qualitative drinking water supply, the components covered under the program are NRDWP-Coverage, Sustainability, Water quality, operation & maintenance and Support activities. The proposed fund includes provision to address water quality related issues in the fluoride affected districts particularly Nuapada.

To meet the above needs, an amount of ` .46910.62 lakh under State Plan in the Budget for the year 2015-16 is available against anticipated GoI allocation of ` .23528.00 lakh.

Target has been fixed to take up 1300 PWS and 33000 spot sources under NRDWP during the year-2015-16

### **2. Capacity Building:**

**(SP: ` 800.00 lakh)**

An amount of ` 800.00 lakh is available in the Budget for capacity building. The scope of the works include survey & investigation, Source finding and preparation of detailed project reports for new rural PWS Schemes, Procurement of Survey Equipments, training, Exposure visit inside and outside India, consultancy charges, PMU establishment charges, quality monitoring, computerisation, WAMIS & GIS etc.

### **3. Construction of Buildings of RWSS Org.**

**(SP: ` 1500.00 lakh)**

A sum of ` 500.00 lakh is available for construction of newly created office buildings and ` 1000.00 lakh for Govt. Residentail Building during the year 2015-16.

#### **4. Rural Water Supply**

**(SP: ` 10000.00 lakh)**

A sum of ` 10000.00 lakh has been allocated under state Plan to cover PWS projects as well as spot sources in villages and habitations where it is not possible to cover those locations under NRDWP. State specific projects can be taken up to meet the demand of public on priority basis.

#### **6. RIDF:**

**(SP: ` 15000.00 lakh)**

A Mega Scheme covering all the Un-Covered habitations including Fluoride affected Habitations of Nuapada District is proposed to be taken up which is duly approved in the High Power Committee with RIDF Assistance. The approximate cost of the project is ` 75245.00 Lakh.

To overcome the chloride presence in the coastal district of Puri One Mega PWS Scheme covering 59 Villages of Bramhagiri Block with an estimated cost of ` 1920.00 lakh is under Progress.

#### **(iii) Rural Sanitation.**

**S.S. ` 16670.00 lakh**

**C.S. ` 50000.00 lakh**

In order to address the rural sanitation needs through community empowerment, the centrally sponsored Swachha Bharat Mission (SBM) previously known as NBA/TSCis being implemented in all the 30 districts of the State. The entire operation under this campaign is being looked after by “Orissa State Water & Sanitation Mission (OSWSM)” of RD Department and the District Water and Sanitation Missions (DWSMs). In the Annual Plan for the year 2014-15 an amount of ` 16670.00 lakh towards State share and ` 50000.00 lakh has been proposed as state Share.

## **B. NON- PLAN**

### **(I) RURAL WORKS ORGANISATION:**

A total outlay amounting to ` **109417.05 lakh** has been proposed under Non-Plan grant in Rural Works Organization during 2015-16.

#### **Finance Commission Award**

Under 13th Finance Commission Award, provision of ` 3600 lakh and ` 8200 lakh have been made for maintenance of 5 year completed PMGSY roads and R.D. roads respectively.

#### **Maintenance of Roads and Bridges:**

` **52648.23 lakh** has been proposed for repair, maintenance, improvement/widening of R.D. roads and bridges during 2015-16.

#### **Maintenance of Rural Buildings:**

` **26059.64 lakh** has been proposed during 2015-16 maintenance of residential and non-residential buildings including ` 2300.00 lakh for maintenance of 20 years old, ` 1500.00 Lakh for 30year old and ` 50.00 lakh for maintenance of 50 years old High School Buildings borne in the books of R.D. Department.

## **(II) RURAL WATER SUPPLY AND SANITATION:**

• Office Building - Maintenance of Water Supply and Sanitary installations	-` 611.93 Lakh
• Residential Building - Maintenance of Water Supply and Sanitary installations	-` 381.18 Lakh
• Direction and Administration	-` 5538.43 lakh
• Machinery and Equipment	-` 1519.70 lakh
• RWSS M & R, Wages Work Charged Salaries etc.	-` 6544.21 lakh
• Suspense	-` 0.01 lakh
• Decretal Dues	-` 5.50 lakh
• Sanitary Technicians' Training	-` 9.69 lakh
• Labour and Employment	-` <u>11.00 lakh</u>
<b>Total</b>	-` <b>14621.65 lakh</b>

## **(III) SECRETARIAT ESTABLISHMENT - `582.23LAKH**

### **RURAL DRINKING WATER SUPPLY (R.W.S & S Organization)**

The role of drinking water for individual's survival, reducing illness, enhancing economic growth and improving peoples' quality of life has acquired prominence in the process of the development agenda in recent years. The 10<sup>th</sup> Plan accorded topmost priority to provision of stipulated quantity of safe drinking water to "Not Covered" (NC) habitations, followed by coverage of "Partially Covered" (PC) and the quality affected habitations (having contaminated water). In previous years, the habitations were mostly covered by installation of hand pump tube wells and sanitary wells. But it is found that these sources do not attend to the desired level of sustainability. Hence it is decided that desired goal can be achieved by providing water to rural habitations through Piped Water Supply (PWS) schemes. The State Government has a clear mandate to cover all uncovered rural habitations and Government & Government aided schools. As on 31.03.2015, there are 1,57,296 habitations (115830-FC+35648-PC+5818-WQ) have been provided with drinking water facility through 402590 spot sources (hand pump Tube Well and Sanitary Wells) and 9752 Piped Water Supply projects commissioned in the State.

### **National Rural Drinking Water Programme**

National Rural Drinking Water Programme (NRDWP) is being implemented w.e.f. 1.4.2009. Under this programme, provision of drinking water supply to the rural population is made through hand pump tube wells and piped water supply schemes. As per the new guidelines under NRDWP, there has been a shift in approach of coverage which aims at household level

water security. The State Government provides a matching share of Central Assistance released for implementation of NRDWP scheme. Under the modified NRDWP programme, the drinking water supply projects are implemented with the following broad components:

- Coverage - 47% Priority has been given to provide safe drinking water to "Not Covered (NC)" habitations followed by coverage of "Partially Covered (PC)" habitations. (matching share 50:50)
- Water Quality - 20% To provide safe alternative sources of drinking water supply in quality affected habitations except for capital investment priority has been given for Fluoride affected habitations followed by Iron & salinity problems. (Matching share - 50:50)
- Sustainability (Swajaladhara mode) - 10% To encourage community participation for sustainability of water supply sources and systems, these schemes are implemented in broad Swajaladhara principle. (No matching share is required from State but contribution from village community is the essence.)
- Support activities - 5% Communication and capacity development (CCDU), Management Information System (MIS) and Computerisation are to be taken up on priority.
- Water quality Monitoring & Surveillance -3% Services of Asha, Angawandi workers, School Teachers, GP members, Social workers etc. will continue to be utilized for Surveillance programme. Monitoring is to be done by entering the test result of all sources tested by the Labs. The habitation and household data must be collected by two village level members i.e. VWSC members selected in the Gram Sabha and fully accountable to the Panchayat. They will also authenticate the test results of field test kits used in the village.
- Operation and Maintenance - 15% Government of India has provided 15% of funds to the State Govt. for operation and maintenance of existing rural water supply system. (matching State share - 50:50)

## **Rural Water Quality Monitoring and Surveillance**

Govt. has made significant interventions to improve the availability of drinking water in rural areas. Activities relating to water quality were limited to testing of water sources at the time of commissioning the PWS projects and provision of alternative water supply through sub-mission projects for areas where occurrence of Fluoride, salinity and Iron in ground water is beyond the permissible limit. The above programme would be implemented at three levels consisting of the State level, District level and grass root level.

- **Water Quality Problem Mitigation**

A Mega Scheme covering all the Un-Covered habitations including Fluoride affected Habitations of Nuapada District is proposed to be taken up which is duly approved in the High Power Committee for RIDF Assistance. The approximate Cost of the project is ` .752.45 Crore.

To overcome the chloride presence in the coastal district of Puri One Mega PWS Scheme covering 59 Villages of Bramhagiri Block with an estimated cost of ` .19.20 Crore is under Progress

4 Projects ( Nuamalpada, Amodi, Koligaon, and Thelkodungri), at an estimated cost of ` 20.32 Crores are taken up under NRDWP.

## **ODISHA STATE WATER & SANITATION MISSION (OSWSM)**

### **Swachha Bharat Mission-Gramin (SBM)**

Sanitation is an important aspect of human life. Absence of proper sanitation facilities hold back poverty reduction and economic growth, thus affecting the quality of life, particularly of women and children. Provision of good sanitation facilities and a clean environment are therefore vital to improve the health of the people and reduce incidence of disease and death. The Infant Mortality Rate (IMR) & Maternal Mortality Rate (MMR) are largely attributed to poor sanitation.

To improve the sanitation status of the country, **Total Sanitation Campaign (TSC)**, a demand driven integrated National Flagship Programme on sanitation was came into force in the year 1999 with an objective to accelerate sanitation coverage by demand generation in rural areas and thereby bring about an improvement in the general quality of life of rural mass. The approach emphasized more on Information Education & Communication (IEC) and Capacity Building activities to increase awareness among the rural people about sanitation facilities. An innovative and incentive based scheme, “Nirmal Gram Puraskar” was introduced to encourage the PRIs for promotion of sanitation.

To boost the Campaign, Govt. of India renamed the campaign as **Nirmal Bharat Abhiyan” (NBA) with effect from 1<sup>st</sup> April 2012**. The campaign aimed to transform rural India into ‘Nirmal Bharat’ by adopting the ‘community led’ and ‘people centered’ strategies and community saturation approach. The provision of incentive under NBA for construction of IHHL was enhanced to ` .10,000/- (NBA- ` .4600/- + MGNREGA- ` .4500/- + Beneficiary- ` .900/-). Under NBA, the incentive for toilet construction was extended to Identified APL families too. However there were implementation difficulties in convergence of NBA with MGNREGA as funding from different sources created delays at the implementation mechanism.

So to accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, Govt. of India launched **“Swachh Bharat Mission (Gramin)”** with effect from 2nd October 2014. It aims to achieve Swachh Bharat by 2019, as a fitting tribute to the 150th Birth Anniversary of Mahatma Gandhi. The National Flagship programme of GoI for

sanitation i.e. Nirmal Bharat Abhiyan has been restructured and renamed as “Swachh Bharat Mission” (Gramin). The concept of Swachh Bharat encompasses ways to access every person with sanitation facilities including toilets, solid & liquid waste disposal systems, village cleanliness and provision of adequate drinking water. In line with the national goal, Govt. of Odisha has also taken strong initiatives and strives to make Odisha Open Defecation Free (ODF) by 2019 by ensuring construction and use of Individual Household Latrine (IHHL) alongwith environmental cleanliness.

### Major features of SBM

- ❖ Swachh Bharat Mission will have two sub-missions- Swachh Bharat Mission (Gramin) for rural areas and Swachh Bharat Mission (Urban) for urban areas.
- ❖ The Unit cost of the Individual Household Latrine has been enhanced from ` .10,000/- to ` .12,000/- so as to provide water availability, including storing, hand washing and cleaning of toilets. However no fixed amount has been kept for beneficiary contribution but it is suggested that it should be encouraged to ensure ownership of the HH.
- ❖ The entire funding for incentive for construction of IHL i.e. ` .12,000/- will be met from Swachh Bharat Mission with share of both GoI & GoO.
- ❖ The responsibility of construction of all School Toilets and Anganwadi Toilets which was rendered to R.D.Deptt. is transferred to S&ME and W&CD Deptt. respectively.
- ❖ The strategy of implementation of the sanitation programme will focus on behavior change with regard to toilet construction as well as its use.
- ❖ Emphasis on Solid & Liquid Waste Management for an amount of ` .7.00 lakh to ` .20.00 lakh as per HH (150- more than 500 HH).
- ❖ Provision of Community Sanitary Complex with an estimated cost of ` 2.00 lakh with 10% public contribution

However, to ascertain the actual number of HHs to be benefitted by SBM (G), a state wide Base Line Survey has been conducted and on-line entry of the HHs has been completed. As per the Base line data, it is determined that:-

Total No. of HHs	:	9020100
HHs having Toilet	:	1038127
Toilets to be constructed	:	7659231

Information, Education & Communication (IEC) is continued to be a very important component of the programme. It strives to bring about community wide behavior change and trigger demand for sanitation facilities in Household, School, AWC, as well as promote Community toilet and Solid & Liquid Waste Management through provision of information & awareness generation.

To generate critical mass awareness, intensive IEC activities from state to GP/village level with special focus on Inter-personal Communication (IPC) activities were implemented. A state wide IEC campaign was also organized from 2<sup>nd</sup> October to 19<sup>th</sup> November 2014 to sensitize rural mass about the importance of sanitation, construction and use of toilets, hand washing, safe drinking water etc. using different medias.

To trigger the implementation process, a no. of Community led Total Sanitation (CLTS) trainings were organized and as a result, a cadre of motivators and resource persons are created who will in turn motivate the community to adopt correct hygiene practice, construct and use toilet and make their village/GP open defecation free.

Appropriate convergence has been made with SANJOG partner Depts. like: W&CD, H&FW, PR, S&ME to make the programme success. Current year it has been targeted to construct 12 lakh IHHLs by mobilizing community through individual as well as community approach.

Swachh Bharat Mission is gaining impetus and become a movement. The state is also striving to achieve the mission and determined to make Odisha Open Defecation Free as well as clean environment by the year 2019.

### **Rural Sanitation & Funding:**

In order to address the Rural Sanitary needs through community empowerment, the centrally sponsored “Swachha Bharat Mission (Gramin)” [SBM (G)] is being implemented in all the 30 districts of the State. Government of India directly releases funds to the State Mission without being routed through State Budget and the State Government releases funds as Matching State Share to the District Water & Sanitation Missions after making appropriate provision in the State Budget. This year the Govt. of India has decided to root the fund under State Plan of the State Govt. The entire operation under this campaign is being looked after by “Odisha State Water & Sanitation Mission” (OSWSM) of R.D. Department and the “District Water & Sanitation Missions” (DWSMs). State Government has made a budget provision of ` 19493.70 lakh towards matching State Share for the year 2014-15. In the Annual Plan for the year 2015-16 an amount of ` 16670.00 lakh was provided as Matching State Share.

### **Nirmal Gram Puraskar**

In order to achieve desirable impact in disease prevention as well as for ensuring minimum standard of living to the entire rural population, it is essential that every household in any particular area has access to sanitation facilities and also to adopt hygienic practices. To promote such full coverage as well as to ensure total stoppage of the practice of open defecation and to maintain cleanliness, the Govt. of India have launched the Nirmal Gram Puraskar (NGP) from October, 2003. The NGP is awarded to Gram Panchayat, Block and Districts where there is no open defecation, access of toilets in all households as well as institutions like Schools, Anganwadi centers etc. So far 287 Gram Panchayats of the State have been bestowed with Nirmal Gram Puraskar at national level. During the year 2013 State has submitted proposals of 32 G.Ps to GoI with recommendation for consideration of NGP Award.

## **CHAPTER-II**

### **Outcome Budget for 2015-16**

The exercise is primarily meant for converting financial outlays into measurable and monitorable outcome. It is a performance measurement tool that helps in better service delivery, decision making, evaluating programme performance and results and improving programme effectiveness.

The Outcome Budget is also aimed at changing the outlook of the agencies entrusted with the responsibility of programme execution and implementation. The idea is to make the programme implementing agencies more result oriented by shifting the focus from “Outlays” to “Outcomes”.

It is a performance measurement tool that helps in better service delivery, decision-making, evaluating programme performance and results, communicating programme goals and improving program effectiveness.

The scheme-wise details, wherever necessary of the Outcome Budget for 2015-16 are indicated in the attached statement.

## STATE PLAN (2015-16)

<b>RURAL WORKS ORGANISATION</b>							
( ` in TRS)							
Sl. No	Name of the Schemes/ Programme	Financial Outlay	Broad objective	Quantifiable/ Deliverable Physical Outputs	Project Outcome	Processes/ Timelines	Remarks/ Risk Factors
1	2	3	4	5	6	7	8
1	Construction of Non- Residential and Residential buildings of R.D. Department	170000	Construction of new and ongoing office building and residential buildings of Rural R.D. Department	147 Res. Buildings & 71 Non-Res. Buildings.	Better working condition and living condition for the officials working in Rural Works Organizations.	12 months	Availability of Land, Non response tenders
2	Capacity Building (Resources & Infrastructure Development)	80000	Survey Expenses, Survey Equipment, Tech. Training, Consultancy charges- PMU & Quality Monitoring important roads, bridges & building projects, DPR preparation, Computerisation of offices, WAMIS, GIS exposure visit inside/ outside country etc.	Not quantifiable	Survey and investigation & conducting technical seminars, workshops, procurement of modern survey equipments for capacity building	12 months	---
3	Minimum Needs Programme- Constituency-Wise allocation (CWA)	284000	All-weather roads to rural habitations in 142 constituencies of the State.	Rural roads in 142 Assembly Constituency in the State	Improve critical roads in the rural area for better connectivity to the rural habitations	12 months Implemented through Chief Engineer RW- I and field functionaries.	The proposals are furnished by Hon'ble MLAs,
4	Construction of Bridges under Biju Setu Yojana	1500000	Construction of bridges on rural roads	Completion of 50 bridges	To improve of rural connectivity	Through tender 9 months to 30 months	Land acquisition, difficult site in some cases.
5	Improvement of existing R.D roads	570000	To improve rural connectivity	Completion of 42 nos of RD roads	Improving riding quality of roads	12 months	---
6	Completion of incomplete roads & bridges under different tranches of RIDF & other schemes	1200000	Completion of incomplete roads & bridges	100 km. roads	To improve of rural connectivity	12 months Implemented through Chief Engineer RW- I and field functionaries.	Time consuming tender process.
7	Rural Infrastructure Development Fund	4500000	To improve road infrastructure	Completion of 75 bridges & 18 roads	To improve of rural connectivity	11 months to 30 months	Limited no. of Bridge contractors in the State.

8	Road Work 1.(PMGSY) (5054-1077-37114) 2.Completion of incomplete roads & bridges	(1)18000000 (2)1000000	Construction of PMGSY Roads & Bridges,State share for constn of bridges,Tender Premium, Labour Escalation etc.	Construction of 3000 kms of roads & bridges	To provide rural connectivity by way of all- weather road	---	Large number of non- response tender
9	Incentive to the Contractors	30000	Timely completion of projects	Not quantifiable	Completion of projects ahead of scheduled time	---	
10	Payment of decretal dues	1000	To clear the liability of contractors as per Court disposal	Not quantifiable	---	---	---
11	Land acquisition charges	5000	Completion of projects in time	Not quantifiable	To facilitate acquisition of private land for completion of road & bridge projects	Complete	Demand Driven

## **PRADHAN MANTRI GRAM SADAK YOJANA (PMGSY)**

PMGSY programme, a Govt. of India sponsored scheme aims at providing all-weather connectivity to all unconnected habitations in rural areas of the State upto population 500 and above for 12 Non-IAP districts and 250 and above in 18 IAP districts and population 100 and above in 38 blocks of IAP districts. Accordingly, GoI has so far sanctioned projects worth `1781424.00 lakh for construction of 11649 roads with a length of 45190.14 Km. in different phases with construction of 292 missing link bridges on PMGSY roads for providing connectivity to 16392 habitations. Funds of `1194283.00 lakh has been received from MoRD, GoI. till end of January'2015, `12572.71 crore has been utilised for construction of 31320.02 Km. of roads including 96 missing link bridges for providing connectivity to 10675 habitations. Excess fund utilized has been met from State's contribution and interest amount from the programme fund received from MoRD, GoI.

During the year 2014-15, State has programmed to utilize `180000.00 lakh for construction of roads of 4500 Km. till date MoRD has provided funds of `.1051.50 Cr. By end of January'2015, `122132.00 lakh has been incurred by constructing 2774.88 Km. of roads for providing connectivity to 898 habitations.

During the year 2015-16, it has been programmed to utilize `190000.00 lakh for construction of roads of 3000 Km. Out of `190000.00 Lakh, `.1800 lakh will be received from MoRD, GoI and balance `10000.00 lakh will be provided by the State towards construction of bridges & tender premium.

**Outcome budget for the year 2015-16 under PMGSY programme  
(Roads & Bridges)**

Sl. No.	Name of the District	No. of road on-going/ to be takenup.	No. of bridges on-going/ to be takenup.	Expenditure to be made during 2014-15

4	Repair and maintenance of Rural Water Supply System including tube well and sanitary wells	280420	

## **CHAPTER-III**

# **Reform Measures and Policy Initiatives**

R.D. Department has taken many e-initiatives to monitor and maintain transparency in the works being implemented by the Department. The provision of basic public services being provided through electronic mode are:

**(i) Department Website:**

The information relating to R.D. Department is being uploaded to the State Govt. website i.e. <http://rd.odisha.gov.in/>. The website of the department acts as an index of all activities relating to R.D. Department. Links have been provided to all other e-activities undertaken by this Department. The information on important schemes undertaken by this Department like Pradhan Mantri Gram Sadak Yojana (PMGSY), Mikhya Mantri Sadak Yojana (MMSY), Drinking Water Supply and Swachh Bharat Mission (Gramin) is being updated in the website. The letters dispatched through e-Dispatch by the Department are also being webhosted.

**(ii) Online RTI**

The applications being received under Right to Information Act are being updated in the online RTI application, developed by I&PR Department.

**(iii) e-Despatch:**

Starting from the R.D. Department at Secretariat, a webbased integrated platform (<http://odisha.edespatch.in/Login.aspx>) for dispatching and receiving letters is in use up to Division level since 2009. All letters are being despatched through the e-Despatch system and placed in the Department Website for public view for transparency, quick transmission and easy access.

**(iv) Integrated Management Information System (IMIS):**

A web-based system (<http://indiawater.gov.in/imisweb/>) for management & monitoring of drinking water supply system has come into force with effect from 1<sup>st</sup> April, 2009. Officials as well as public can know every detail of drinking water sources available in their habitation, the cost of the project, year of installation etc.

**(v) Online Monitoring and Management of Accounts System (OMMAS):**

To make it transparent and proper monitoring of both physical and financial progress, of PMGSY work, C-DAC, Govt. of India have developed a web-based software for online monitoring and management namely OMMAS. The URL of OMMAS site is <http://www.pmgysy.org/>. By accessing this site, the public can see the details of roads taken up under PMGSY, its executing agency, the cost of the roads, the length of roads and its physical & financial progress.

**(vi) Swachh Bharat Mission (Gramin):**

The information on NBA is also being monitored online. The URL of the SBM website is [http://sbm.gov.in/sbm\\_new/](http://sbm.gov.in/sbm_new/). The details of Individual Household Latrines, Anganwadi Toilets, Village Sanitary Complex constructed are available in the website. OSWSM the executing agency has its own website as <http://oswsm.com>

**(vii) Integrated Grievance Redressal System (IGRS):**

An IGRS named as Sanjog Helpline (<http://www.sanjoghelpline.in>) is an IT solution which informs about the grievance of a common man to the right authority in real time via SMS and email. A toll-free number i.e. 155335/18003456770 has been provided for the public to register their complaints. IGRS is activated and operated towards the goal for smooth redressal of public grievances on Rural Water Supply and Sanitation (RWSS) and Pradhan Mantri Gram Sadak Yojana (PMGSY).

**(viii) e-Procurement:**

It is carrying out traditional tendering process in an electronic form (through internet). It connects the procuring organization with the bidders through electronic exchange of tender. It is a management and reform program in the procurement field.

e-Procurement and iOTMS/iFMS is done with a software application that includes features for supplier management and complex auctions. Here in the electronic tendering process both the Govt. and the contractors will be benefited.

**(ix) WAMIS:**

Works and Accounts Management Information System (WAMIS), a web-based application (<http://www.wamis-odisha.gov.in>), is being developed by C-DAC, Pune. It is a Division Automation System integrated with MIS features.

WAMIS has 4 modules such as :

- 1) Accounting Management System (AMS)
- 2) Works and Billing Module (WBM)
- 3) Budget Management System (BMS),
- 4) Integration with iFMS/iOTMS and AG Accounting System.

By using this application, Divisions are generating their Monthly Accounts and submitting these to AG online. Not only R.D. Deptt, but also all engineering departments of the State like Works, Water Resources and H&UD Departments are now using WAMIS. For better monitoring of physical progress of works, it provision has been made for uploading geo-tagged photographs of the works through mobile application.

**(x) Web GIS-based Asset Management System (WGAMS)-** It has been decided in a high level meeting to Develop a Comprehensive State-wide Web GIS based Asset Management System (WGAMS) focusing on long term assets managed by R.D. Departments. This will have a realtime integration with WAMIS for monitoring, management and planning of departmental works.

**(xi) CPSMS**

Central Plan Scheme Monitoring System, an web application for online management information and decision support system for the Plan Schemes of Government of India has been in use in the Department. The Central Sponsored Schemes like PMGSY, NRDWP and TSC have been registered in this system.

**(xii) OSWAS**

Odisha Secretariat Workflow Automation System, an e-filing system has been implemented in Rural Development Department since January, 2012. Now all files are being processed through OSWAS, which not only eases the movement of files but also tracking of Daks and files has become much easier. This makes the Department a Less Paper Office.

- **New schemes introduced.**

1. From the year 2007-08 the State Govt. have provided funds (major head-5054) under State Plan for grant to Odisha State Rural Road Agency (OSRRA) towards high tender premium and construction of bridge beyond 50 under PMGSY work (major head-3054) under Non-Plan sector towards routine maintenance of the PMGSY work which have already been completed earlier.
2. MMSY-There is a proposal for introducing a new scheme named Mukhya Mantri Sadak Yojana to provide connectivity to all habitations having more than 100 population. In IAP districts, the connectivity to the habitations, not covered under PMGSY i.e. habitations having less than 500 habitations and in Non-IAP it is less than 250 population.
3. NBM (Gramin)- The Centrally sponsored programme earlier known as TSC is renamed as Nirmal Bharat Mission (Gramin). This will not have convergence with PRIs like Total Sanitation Campaign.

- **Change in internal processes of the Department in relation to administration of the scheme.**

No internal processes of the Department in relation to administration of the scheme have been changed.

- **Policy reform if any**

RD Department is providing potable drinking water to rural habitations by installing PWS projects, Tube Well & Sanitary Wells. After execution of the projects, the same has been transferred to P.R. Department (Gram Panchayats) for maintenance of projects. Now dedicated JEs have been posted in each block for Operation & Maintenance and sanitation work. It has been proposed to go for EPC (Engineering Procurement and Construction) based procurement and slowly go for zero stock & store.

PMGSY programme aims at providing all weather connectivity to all unconnected habitation in the rural areas of the State having more than of equal to 1000 habitations in plain areas and 500 or more in schedule area which has been relaxed by GoI from 500 to 250 habitations for selection of PMGSY road projects in such areas.

- **Internal Audit of PMGSY works**

Works and accounts of PMGSY works are normally audited by A.G. & empanelled Chartered Accountant firms as statutory audit. In order to ensure both accuracy in accounts and efficiency in the operation of financing of State agencies, MoRD in GoI has decided to make internal audit of SRRDAs and PIUs under PMGSY mandatory SRRDA will appoint internal auditors as a management aid to ensure the true and fair record of account. Accordingly, internal audit of PMGSY work in the State is being operationalised by OSRRA with effect from 2012-13 for which a Steering Committee is constituted at Govt. level. Internal audit is to be conducted half yearly basis. The audit report will be uploaded in OMMAS site.

- **Change in the composition of beneficiaries, if any**

Not required.

## CHAPTER-VI

### Gender and SC/ST Budgeting

As per the Plan ceiling furnished by the P&C Department, during the financial year 2015-16, the provision made under Transport Sector Schemes having General, TASP & SCP-SC components (rural roads and bridges) is ` 1393.40 crore out of which TASP provision is ` 320.48 crore and ` 236.88 crore for SCSP component for implementation of schemes in scheduled areas. Accordingly, the Department has formulated project list for construction of the roads and bridges in the scheduled areas to provide good all-weather roads.

(` in TRS)

Sector	Major Head/Minor Head of Development	Resource Head	Proposed Outlay/Plan Ceiling of Annual Plan 2015-16

## Hon'ble CM inaugurates a bridge constructed under Biju Setu Yojana

## WAMIS- Geotagged photograph of a bridge and its details

The screenshot displays the WAMIS (Work and Material Information System) interface. The top navigation bar includes the URL <http://164.100.141.59/wamis/newMis/workPhotoReport.do?function=DfFyAzir6mABilhzZCS1D> and tabs for 'Odisha Government...', 'WAMIS', and 'Government Of Od...'. The main content area is titled 'Work Details' and contains the following information:

Office Name:	RURAL WORKS DIVISION, BOUDH		
Work Number :	06/03/85/21/05	Work Description :	Constn of S.B. over Budhakholi Gadagadipada and Gadagadipada nallahs at 55th 56th and 57th KM on Phiringia Gochhapada Balandapada road in the dist.of Boudh.
District :	Boudh	Taluka :	Kantamal
Head :	28/5054/SP/SS/04/789/2161/37114/000	Work Type :	Bridges
Sactioned Cost(in Rs.):	55,740,000.00	Expenditure Till Date (in Rs.):	3,172,539.00 (upto March 2015)

Below the details, there is a geotagged photograph of a bridge under construction. To the right of the photo is a satellite map showing the location. A pop-up window provides the following geotagging data:

Description	Any Other
Photo Taken Date	20/03/2015
Latitude	20.5700192
Longitude	83.83782507

The interface also features a sidebar with search and filter options, and a taskbar at the bottom showing system icons and the date 10-04-2015.
