

Government of Odisha

OUTCOME BUDGET 2012-13

Rural Development Department

Sl. No.	CONTENTS		Page No.
1.	EXECUTIVE SUMMARY		3-8
2.	CHAPTER-I	Introduction	9-23
3.	CHAPTER-II	Outcome Budget, 2012-13 Statement (Plan & Non-Plan)	24-109
4.	CHAPTER-III	Reform Measures & Policy Initiatives	110-112
5.	CHAPTER-IV	Past performance of programmes and schemes	113-116
6.	CHAPTER- V	Financial Review	117-122
7.	CHAPTER-VI	Gender and SC/ST Budgeting	123

EXECUTIVE SUMMARY

The Outcome Budget of Rural Development Department broadly indicates physical dimensions of the financial outlays reflecting the expected intermediate output. The Outcome budget will be a tool to monitor not just the immediate physical "outputs" that are more readily measurable but also the "outcomes" which are the end objectives.

2. The Outcome Budget 2012-13 broadly consists of the following chapters:

- **Chapter-I:** Brief introduction of the functions, organizational set up, list of major programmes/schemes implemented by the Department, its mandate, goals and policy frame work.
- **Chapter-II:** Tabular format(s)/statements indicating the details of financial outlays, projected physical outputs and projected outcomes for 2012-13 under Plan and Non-Plan.
- **Chapter-III:** The details of reform measures and policy initiatives taken by the Department during the course of the year.
- **Chapter-IV:** Write-up on the past performance of the year 2011-12.
- **Chapter-V:** Actual of the year preceding the previous year, Budget Estimates and Revised Estimates of the previous year, Budget Estimates of the Current Financial year.
- **Chapter-VI:** Highlights of the outlays provided for the schemes benefiting Women, ST and SC groups along with the corresponding physical output.

Monitoring Mechanism of Rural Development department

The establishment of the Millennium Development Goals has significantly reinforced the concerns about non-income poverty. With the paradigm shifts in economic development from growth to broadly defined “development,” the concept of rural development has begun to be used in a broader sense. The concept now encompasses “concerns that go well beyond improvements in growth, income, and output. Connectivity – physical like roads, water and sanitation services to our people in rural areas is not an administration but a mission.

Road transport is vital for the economic development and social integration of the country. Easy accessibility, flexibility of operations, door-to-door service and reliability have earned road transport an increasingly higher share of both passenger and freight traffic vis-à-vis other transport modes. Transport sector accounts for a share of 6.4 per cent in India’s Gross Domestic Product (GDP). The Road Transport Sector has grown significantly during the past five decades. Road Transport has deep linkages with the rest of the economy and a strong multiplier effect. Transport is essentially a derived demand depending upon the size and structure of the economy and the demographic profile of the population. Greater the share of commodity-producing sectors like agriculture and manufacturing, higher is the demand for transport. Orissa’s surge in growth and expansion in public spending in the past decade has created new possibilities for its social protection system. Social protection strategy must aim at mitigating water poverty in rural areas. The Government is firmly committed to the goal of providing safe drinking water and sanitation facilities to the entire population of the State. The Government is equally committed to the objective of ensuring source and system sustainability. Despite the efforts put forth in the past, there is a growing concern over the widening gap between the expectations of the people and the achievements. Paucity of funds, over-exploitation of water resources, degradation of water recharge structures, competing demand on the available water resources, depleting water availability due to continuous failure of monsoon are some of the factors that cause concern on the supply front. In addition, on the demand side, factors like growing urbanization increase in population, changing life styles, tariff structures which do not reflect the scarcity and economic value of water, inadequate institutional and legislative framework also increase.

There is an inbuilt monitoring mechanism in the guild lines of each scheme of the Department so as to ensure that the objectives are achieved by their implementation.

The Deptt. has 14 sections. 4 sections namely (i) Budget (2) FA Cell (3) Accounts and (4) OSRRA Cell headed by a F.A-cum-Addl. Secretary and 10 sections namely (1) RW (Establishment) (2) RWS&S (Establishment) (3) RW (Scheme) (4) RWS&S (Scheme) (5) Office Establishment (6) Legal Cell (7) Sanitation (8) Computer Cell (9) Diary and Distribution (10) Issue & Dispatch. are being managed by two Deputy Secretaries. Besides one AFA-cum-Under Secretary and two Under Secretaries are in the Department to help both FA and Deputy Secretaries respectively.

The Department has a huge field formation with 5 Chief Engineers at Heads of Deptt level (3 Chief Engineers in Rural Works Organization, one in Rural Water Supply and Sanitation Organization and one in Odisha State Water & Sanitation Mission), 19 circles headed by S.Es at Circle level and 89 Divisions headed by Executive Engineers at District level and 404 Sub-Divisions headed by Asst. Engineers at Sub-Division level, 628 Sections headed by Junior Engineers at Section level who looks after the functioning of this Department. This is in addition to 314 JEs recently engaged for O&M and sanitation work in each Panchayat Samiti. There are two Agencies namely (i) Odisha State Rural Road Agency (OSRRA) to monitor the PMGSY works and (ii) Odisha State Water & Sanitation Mission (OSWSM) to monitor/execute the Total Sanitation Campaign (TSC) programme. Apart from continuous monitoring through periodical progress reports received from the Districts depicting both the financial and physical progress of the programmes, the Department also emphasizes on E-Governance. All the Executive Engineers of the Divisions have to take action to ensure that Monthly Progress Reports compiled is submitted on-line.

Furnishing of statement of expenditure, Utilization Certificates, Audited Accounts and other requisite reports are submitted for the release of subsequent installments.

The officer dealing with the implementation of the programmes visits regularly to ensure that the programmes are being implemented satisfactorily.

Officers visit their assigned districts at regular intervals and the important observations of such teams are shared with the Department advising them to take appropriate corrective measures, wherever shortcomings are noticed.

A Performance Review Committee under the chairmanship of Commissioner cum Secretary reviews the performance of various programmes being implemented by the districts and recommends corrective action wherever found necessary.

With a view to fulfilling the objective of ensuring quality in implementation, particularly in the context of large public funds being spent under all the programmes of the Department the Monitoring Committees are constituted.

Regular monthly review meetings are held through Gramsat and Video conferencing and along with this constant feedback and suggestions are taken and incorporated for the proper implementation of the programmes.

Work Plan for DoRD for the Financial Year 2011-12 was prepared with due consultation of all stake holders. As desired by Chief Secretary Odisha , the work plan was drawn up taking into account the annual budget provisions and past performance of respective areas of work. The Chief Engineers were asked to draw up similar month wise and head of expenditure wise financial and physical plans for all the divisions to enable field functionaries to appreciate the purpose and benefit of Results Framework Approach. We propose to continue this in current financial year.

Public Information System

Information, Education and Communication (IEC) plays a vital role in creating awareness, mobilizing people and making the development participatory through advocacy and by transferring knowledge, skills and techniques to the people. Moreover, IEC plays two most important roles – informative and persuasive and as such is crucial for bringing about requisite social mobilization and facilitating participatory development.

The following strategy that has been adopted by the Department would be continued to ensure maximum benefits out of the programmes of the Department.

Sanjog Initiative

Sanitation is essential to ensure a better quality of life among all sections of people in rural and urban areas. 80% of common diseases are caused by lack of sanitation and personal hygiene practices. Total Sanitation Campaign (TSC) does not limit itself to safe disposal of human excreta; it forms a comprehensive concept that includes safe disposal of solid and liquid waste, food hygiene, domestic and personal hygiene. TSC in Odisha is being implemented in all the 30 districts of the State. The Programme is “community-led” and “people-centered” with increased stress on awareness creation and demand generation from people for sanitary facilities in households, schools, anganwadis centers for cleaner environment. The present Operational Guideline and booklet on Technology Options are developed to guide district as well as field functionaries and core team members in the

smooth implementation of the TSC programme. This has been necessitated because of low coverage of IHL construction and less involvement of Panchayati Raj Institutions specifically Gram Panchayats in the program.

The Sarpanch will monitor the progress of the household, school and anganwadi sanitation in the GP. He /she will be supported by a team of AWWs, ASHA, SEM and village motivators to make household visits, and assess the participation of the households, installation of complete and usable toilets, technologically appropriate and fitted correctly to ensure best benefits to the community. An appropriate superstructure should also be done to render the toilet usable immediately. The completed toilets will be verified by a two member team consisting of SEM and AWW, AWW and ASHA or the SEM and ASHA. The implementing agency, SHGs, the AWWs, ASHA, and Sarpanch will continue to advocate the use of toilets after the installation is complete.

They should also emphasize the importance of other associated hygiene practices, hand washing with soap after defecation and before handling food, safe disposal of child fecal, safe disposal of waste water and solid waste, cleanliness around hand pumps, clean tube well platforms etc. 236 Gram Panchayats have been awarded Nirmal Gram Puraskar for achieving total sanitation and open defecation free environment by HE President of India

E-initiatives

Efficiency of delivery is increasingly becoming the focus of governmental programmes. This is both on account of an explicit recognition of sub-optimal achievements in reaching the targeted beneficiaries in many of the schemes as well as in curbing wasteful expenditure. Realizing this, new tools, particularly application of modern technology are being resorted to in achieving governance and delivery efficiency.

As per section 4 of Right to Information Act, 2005 every public authority shall maintain all its records duly catalogued and indexed in a manner and the form which facilitates the right to information under this Act and ensure that all records that are appropriate to be computerized are, within a reasonable time and subject to availability of resources, computerized and connected through a network all over the country on different systems so that access to such records is facilitated. The Act U/S 4-4 further says that all materials shall be disseminated taking into consideration the cost effectiveness, local language and the most effective method of communication in that local area and the information should be easily accessible, to the extent possible in electronic format with the

Central Public Information Officer or State Public Information Officer, as the case may be, available free or at such cost of the medium or the print cost price as may be prescribed.

The e-initiatives of RD department were meant to answer the above need and convert this threat into an opportunity to automate the processes that can be done so using latest technology platforms. E-Dispatch, iOTMS, e-Procurement and EPC in water supply WAMIS and OSWAS were major steps, taken. In addition to the above the website of RD Department are maintained and updated regularly.

Road Ahead

Rural Development Department is in charge of construction and maintenance of rural roads and water supply. We have got plan to connect habitations with population 250 and above in 18 IAP districts and habitations with population 500 & above in plain areas and 250 and above in schedule area for balance 12 Non IAP districts in phased manner. Till 31.03.2011, 6684 no. of habitations above 250 populations have been provided connectivity under PMGSY. During 2011-12, approx. 600 no. of habitations are going to be provided with all weather connectivity. Similarly we have less than 2% rural house hold with tap-water in their household. 74 lakh rural household require 3-taps (kitchen bathroom and toilet) in their households to enjoy water security at household level. Sanitation coverage among BPL is encouraging but the same among APL is not so. This may require more intensive and extensive IEC campaign for times ahead.

Introduction

The concept of rural development has changed significantly during the last 3 decades. Until the 1970s, rural development was synonymous with agricultural development and, hence, focused on increasing agricultural production. This focus seems to have been driven primarily by the interests of industrialization to extract surpluses from the agriculture sector to reinforce industrialization. Four major factors appear to have influenced the change: increased concerns about the persistent and deepening of rural poverty; changing views on the meaning of the concept of development itself; emergence of a more diversified rural economy in which rural non-farm enterprises play an increasingly important role; and increased recognition of the importance of reducing the non-income dimensions of poverty to achieve sustainable improvements in the socio-economic well-being of the poor.

The establishment of the Millennium Development Goals has significantly reinforced the concerns about non-income poverty. With the paradigm shifts in economic development from growth to broadly defined “development,” the concept of rural development has begun to be used in a broader sense. The concept now encompasses “concerns that go well beyond improvements in growth, income, and output. The concerns include an assessment of changes in the quality of life, broadly defined to include improvement in health and nutrition, education, environmentally safe living conditions, and reduction in gender and income inequalities.” Today there seems to be a universal consensus that the ultimate objective of rural development is to improve the quality of life of rural people. This makes it essential to go beyond the income-related factors such as prices, production, and productivity to a range of non-income factors that influence quality of life and hence inclusiveness. Inclusive rural development is a more specific concept than the concept of rural development

Rural upliftment requires strong commitment, patience and perseverance. It is a challenging but interesting task. The Govt. can not by itself provide the required services/comforts without the cooperation of the all stake-holders. Physical connectivity like construction of roads and bridges and providing adequate safe drinking water as well as sanitation services to our rural population is indeed a mission and not a mere administrative function. With this concept, R.D. Department was created on 1st July, 1990 to look after sectors like construction of rural roads, buildings construction & maintenance of rural water

supply projects and implementation of sanitation programmes to enhance the quality of life of rural population of the State.

Work Plan for DoRD for the Financial Year 2011-12 was prepared with due consultation of all stake holders. As desired by Chief Secretary Odisha , the work plan was drawn up taking into account the annual budget provisions and past performance of respective areas of work. The Chief Engineers were asked to draw up similar month wise and head of expenditure wise financial and physical plans for all the divisions to enable field functionaries to appreciate the purpose and benefit of Results Framework Approach. We propose to continue this in current financial year.

The Rural Development Department in its present form consists of organisations namely (I) Rural Works (R.W.) (ii) Rural Water Supply & Sanitation (RWS&S) and (iii) Odisha State Water & Sanitation Mission (SOWS).

Organisational Setup:

The Department has 14 sections. 4 sections namely (I) Budget (2) FA Cell (3) Accounts and (4) OSRRA headed by a F.A-cum-Additional Secretary and 10 sections (1) RW(Est.) (2) RW (Scheme) (3)DW(Est.) (4) DW (Scheme) (5) Office Establishment (6) Legal Cell, (7) Sanitation (8) Co-ordination (9) Computer Cell (10)Diary and Distribution are being looked after two Deputy Secretaries, Besides one AFA-cum-Under Secretary and two Under Secretaries are in the Department to help both FA and Deputy Secretaries respectively.

The Department has a huge field formation with 5 Chief Engineers at Heads of Deptt level (3 Chief Engineers in Rural Works Organisation, one in Rural Water Supply and Sanitation Organisation and one in Odisha State Water & Sanitation Mission), 18 circles headed by S.Es at Circle level and 89 Divisions headed by Executive Engineers at District level and 404 Sub-Divisions headed by Asst. Engineers at Sub-Division level, 628 Sections headed by Junior Engineers at Section level who looks after the functioning of this Department. There are two Agencies namely (I) Odisha State Rural Road Agency (OSRRA) to monitor the PMGSY works and (ii) Odisha State Water & Sanitation Mission (OSWSM) to monitor/execute the Total Sanitation Campaign (TSC) programme.

Principal Secretary is the Chief Executive Officer to monitor the work of the Department.

Funding

The activities of the DoRD, are supported by financial outlays in the Non-Plan and plan Budget of the state govt. Besides the grants received from the Central Govt through ministry of Rural Development for implementation of National Rural Drinking Water project on the sharing basis 50:50 in Coverage, Operation & Maintenance and Water Quality programme. Further Govt. of India have provided 100% funds for implementation of Pradhan Mantri Gram Sadak Yojana for construction of all-weather connectivity to all unconnected habitations in rural area of the State having more than or equal to 1000 population in plain areas and 500 or more in scheduled areas and the funds released by the Govt. of India under PMGSY are not routed through state Govt. Budget and the same is directly released to the implementing agency i.e. OSRRA (Odisha State Rural Road Agency). In order to address the Rural Sanitary needs through community empowerment, the centrally sponsored “Total Sanitation Campaign” (TSC) is being implemented in all the 30 districts of the State. Government of India directly releases funds to the missions without being routed through State Govt. budget and the State Govt. releases funds as matching state share to the missions after making appropriate provision in the state budget. The entire operation under this campaign is being looked after by “Odisha State Water & Sanitation Mission” of RD Department and the District Water and Sanitation Mission.

The Demand as reported in iOTMS is as follows:

	Allotment Id	Scheme	Chart of Account	Budget 2012-13 ₹

The details are given below:

A. State Plan

(I) RW Organisation

(₹61750.00 lakh)

A total outlay ₹61750.00 lakh have been proposed under the roads & bridge sector of Rural Works Organisation Schemes to be implemented as follows.

- 1) **Construction of building-R.W** (₹1200.00 lakh)
A sum of ₹1200.00 lakh have been proposed for the year 2012-13 for construction of office building for different office of Rural Development Department.
- 2) **R.W Residential Building** (₹1050.00 lakh)
₹1050.00 lakh have been proposed for construction of residential building under Rural Development Department for the year 2012-13.
- 3) **Rural Roads and Bridges (NABARD Assisted Project)** (₹ 19500.00 lakh)
A sum of ₹19500.00 lakh have been proposed in the year 2012-13 for construction of 166 bridges & 21 roads under NABARD.
- 4) **PMGSY bridges (State share for completion of bridges on PMGSY roads through OSRRA)** (₹3500.00 Lakh)
A sum of ₹3500.00 lakh have been provided towards construction of bridges sanctioned by MoRD, GoI on PMGSY roads as State Govt. Share.
- 5) **CWA (Constituency Wise Allotment)** (₹ 2840.00 lakh)
₹20.00 lakh have been provided for each Assembly constituency (except five urban constituencies) in the budget for the year 2012-13.
- 6) **Completion of incomplete roads & bridges under different tranches of R.I.D.F. and other sectors** (₹2300.00 lakh)
A sum of ₹2300.00 lakh have been proposed for completion of incomplete roads and bridges under different tranches of RIDF & other schemes for the year 2012-13.
- 7) **Survey Expenses & Bridge project Report (Capacity Building)** (₹450.00 lakh)
₹450.00 lakh have been proposed for survey and investigation and preparation of detailed project report including designs through outsourcing/ department for execution of bridges and roads for the year 2012-13.
- 8) **Survey Equipment** (₹500.00 Lakh)
To carry on survey and investigation for roads, bridges, buildings for procurement of survey equipments provision of ₹500.00 lakh have been proposed for the year 2012-13.
- 9) **Land Acquisition Charges** (₹30.00 lakh)
A sum of ₹30.00 lakh have been proposed for the year 2012-13 towards land acquisition for different rural roads and bridges.
- 10) **Decretal dues** (₹20.00 lakh)
After settlement of the court cases, Govt. needs to pay decretal dues as and when necessary Provision of ₹20.00 lakh have been proposed for the year 2012-13 .
- 11) **Technical Training Personnel &MIS (capacity Building)** (₹25.00 lakh)
₹25.00 lakh have been proposed for technical training of engineering personnel for the year 2012-13.

12) Differential cost of PMGSY roads over approved cost by GOI (₹5500.00 lakh)

A sum of ₹5500.00 lakh have been proposed to meet the extra cost towards high tender premium of PMGSY works for the year 2012-13.

13) Construction of bridges under Biju Setu Yojana (₹14000.00 lakh)

₹14000.00 lakh have been proposed for construction of bridges on rural roads under Biju Setu Yojana during 2012-13.

14) One time ACA. (₹5000.00 lakh)

This is a new scheme introduced for R.D. Department during 2012-13 for improvement of RD roads connecting important tourist places and economic importance. There is a budget provision of ₹5000.00 lakh during 2012-13 for the purpose.

15) Improvement of existing RD roads. (₹8000.00 lakh)

There is a provision of ₹8000.00 lakh for improvement of existing R.D. Roads.

**(ii) Rural Water supply & Sanitation. (NRDWP: ₹22290.00 Lakh -sanctioned by GOI)
(SS OF NRDWP SP: ₹19500.00 Lakh)**

The availability of safe drinking water plays a pivotal role in the health and well being of the people. The rural water supply and sanitation organisation which is functioning under the Rural Development Department, primarily aims at providing safe drinking water to the rural people of the state. From the year 2009-10, rural water supply is carried out as per the new policy of GOI i.e. National Rural Drinking Water Program (NRDWP). The goal of the program is to provide every individual in rural area with adequate water for drinking, cooking and other domestic basic needs on a sustainable basic. This basis requirement should meet certain minimum water quality standards and be readily and conveniently accessible at all times and in all situations. There is a paradigm shift in measuring coverage from the conventional trend in terms of liters per capita per day norms to ensure drinking water security for all in the community. To meet the emerging challenges in the rural drinking water sector relating to availability, sustainability and quality the components under the program are NRDWP(coverage), NRDWP (Sustainability), NRDWP (Water quality), NRDWP (Natural calamity) & NRDWP (Support) funds available for the purpose of operation and maintenance.

To meet the above needs an amount of ₹19500.00 lakh has been provided under State Plan as against anticipated GoI allocation of ₹22290.00 lakh for the above schemes for the year

2012-13 Target has been fixed to take up 1200 PWS schemes (700 PWS under

coverage, 250 PWS under water quality and 250 PWS under sustainability) and 15000 spot sources (700 under water quality and 14,300 under coverage) during the year-2012-13.

C. Rural Sanitation.

S.S. ₹2500.00 lakh
TSC: ₹11000.00 lakh (Sanctioned by GoI)

In order to address the Rural Sanitary needs through community empowerment, the centrally sponsored “Total Sanitation Campaign” (TSC) is being implemented in all the 30 districts of the State. The entire operation under this campaign is being looked after by “Odisha State Water & Sanitation Mission (OSWSM)” of RD Department and the District Water and Sanitation Missions (DWSMs). Government of India directly releases funds to the District Missions without being routed through State Govt. budget and the State Govt. releases funds as matching State share to the District Missions after making appropriate provision in the State budget. In the Annual Plan for the year 2012-13 an amount of ₹2500.00 lakh has been proposed as state Share.

PRADHAN MANTRI GRAM SADAK YOJANA (PMGSY)

PMGSY, a fully funded Central Govt. Scheme, is being implemented from 2000-01. Funds are received from GoI without being routed through State Govt. Budget. This programme aims at providing all-weather connectivity to all unconnected habitations in rural areas of the State having more than or equal to 1000 population in plain areas and 500 or more in scheduled areas. Subsequently, GoI has relaxed norms to take up projects to unconnected habitations up to population 250 and above in 18 no. IAP districts (Bolangir, Deogarh, Gajapati, Ganjam, Jajpur, Kalahandi, Keonjhar, Koraput, Malkangiri, Mayurbhanj, Nowrangpur, Nayagarh, Nuapada Kandhamal, Rayagada, Sambalpur, Sonapur & Sundargarh). Further, for balance 12 no. of Non-IAP districts (Angul, Balasore, Bargarh, Bhadrak, Boudh, Cuttack, Dhenkanal, Jagatsinghpur, Jharsuguda, Kendrapara, Khurda & Puri) unconnected habitations with population 500 above area being included in this programme in phased manner. State Govt. is providing funds for maintenance of such completed PMGSY projects for 5 years. Besides, State Govt. is also providing fund to meet the extra tender premium beyond the sanctioned amount.

Since inception of PMGSY Programme in 2000-01 to 2011-12, Government of India has sanctioned ₹ 12741.90 crore in different phases for construction no of 9184 no. of roads with a length of 36070.91 Km in the State. Till 31.01.2012, Government of India

has released an amount of ₹ 8981.55 crore and an amount of ₹ **8232.02 crore has been utilised by constructing 5786 no. roads with length of 22216.12 Km.** The tender for 681 no. of roads in IAP districts a length of 2645.57 Km with a cost of ₹ 1007.55 crore which was sanctioned on 04.01.2012 have been invited. Also project proposals of 284 no. of roads covering a length of 1052 Km in Non-IAP districts with a cost of ₹ 472.75 crore under ADB RRSP-Trench-I has been sanctioned and action is being taken to invite the said tenders shortly after obtaining necessary approval from ADB.

During 2011-12, ₹ 935.79 crore has already been spent by end of 01/2012 and 2302 Km of roads have been completed. It has been programmed to construct 3000 Km of road length by utilizing ₹ 1700 crore during 2012-13.

B. NON- PLAN

(i) Rural Works Organisation:

A total outlay amounting to T₹s.7535416 have been proposed under Non-Plan grant in Rural Works Organization during 2012-13.

Finance Commission Award

Under 13th Finance Commission Award provision of T₹s.210000 for PMGSY roads and T₹s.710000 for R.D. roads have been proposed for maintenance of R.D. roads and 5 year completed PMGSY road.

Maintenance of Roads and Bridges:

T₹3623380 have been proposed for repair, maintenance, improvement, widening of R.D. roads and bridges.

Maintenance of Rural Buildings:

T₹s1800360 have been proposed for residential and non-residential buildings and 30 years old and 50 years old High School Buildings borne in the books of R.D. Department.

2. RURAL DRINKING WATER SUPPLY (R.W.S & S Organization)

The role of drinking water for individual's survival, reducing illness, enhancing economic growth and improving peoples' quality of life has acquired prominence in the process of the development agenda in recent years. The 10th Plan accorded topmost priority to

provision of stipulated quantity of safe drinking water to "Not Covered" (NC) habitations, followed by coverage of "Partially Covered" (PC) and the quality affected habitations (having contaminated water). In previous years, the habitations were mostly covered by installation of hand pump tube wells and sanitary wells. But it is found that these sources do not attend to the desired level of sustainability. Hence it is decided that desired goal can be achieved by providing water to rural habitations through Piped Water Supply (PWS) schemes. The State Government has a clear mandate to cover all uncovered rural habitations and Government & Government aided schools. As on 31.3.11, there are 1,41,928 habitations (72329-FC+69599-PC) have been provided with drinking water facility through 2,99,486 spot sources (hand pump Tube Well and Sanitary Wells) and 6,843 Piped Water Supply projects commissioned in the State.

National Rural Drinking Water Programme

National Rural Drinking Water Programme (NRDWP) is being implemented w.e.f. 1.4.2009. Under this programme, provision of drinking water supply to the rural population is made through hand pump tube wells and piped water supply schemes. As per the new guidelines under NRDWP, there has been a shift in approach of coverage which aims at household level water security. The State Government provides a matching share of Central Assistance released for implementation of NRDWP scheme. Under the modified NRDWP programme, the drinking water supply projects are implemented with the following broad components:

- Coverage - 42% Priority has been given to provide safe drinking water to "Not Covered (NC)" habitations followed by coverage of "Partially Covered (PC)" habitations. (matching share 50:50)
- Water Quality - 20% To provide safe alternative sources of drinking water supply in quality affected habitations except for capital investment priority has been given for Fluoride affected habitations followed by Iron & salinity problems. (Matching share - 50:50)
- Sustainability (Swajaladhara mode) - 20% To encourage community participation for sustainability of water supply sources and systems, these schemes are implemented in broad Swajaladhara principle. (No matching share is required from State but contribution from village community is the essence.)

- Support activities - 5% Communication and capacity development (CCDU), Management Information System (MIS) and Computerisation are to be taken up on priority.
- Water quality Monitoring & Surveillance –3% Services of Asha, Anganwadi workers, School Teachers, GP members, Social workers etc. will continue to be utilized for Surveillance programme. Monitoring is to be done by entering the test result of all sources tested by the Labs. The habitation and household data must be collected by two village level members i.e. VWSC members selected in the Gram Sabha and fully accountable to the Panchayat. They will also authenticate the test results of field test kits used in the village.
- Operation and Maintenance - 10% Government of India has provided 10% of funds to the State Govt. for operation and maintenance of existing rural water supply system. (matching State share - 50:50)

Rural Water Quality Monitoring and Surveillance

The Govt. has made significant interventions to improve the availability of drinking water in rural areas. Activities relating to water quality were limited to testing of water sources at the time of commissioning the PWS projects and provision of alternative water supply through sub-mission projects for areas where occurrence of Fluoride, salinity and Iron in ground water is beyond the permissible limit. The above programme would be implemented at three levels consisting of the State level, District level and grass root level.

- **Water Quality Problem Mitigation**

As a long term measure 21 Number of PWS projects taking reservoir / river as drinking water sources have been proposed at an estimated cost of ₹ 265.09 Crore. Out of remaining 21 projects, 7 projects at an approximate cost of ₹178.02 Crore are proposed to be taken up in phased manner with assistance of **RIDF (NABARD)** for which action is being taken for preparation of DPR.

As a part of scientific solution to availability of safe drinking water in the Fluoride affected habitations of Nuapada Districts, information were collected for each habitation as regard to availability of drinking water sources, quality and quantity of water available in the driest period of the year and traditional water use practice of the native people. Water quality test results of all water sources in an around the habitations (open well-community and private, tube well, pond, water bodies and other major and minor drainages) have been done. Short listing of 100% Fluoride affected habitations of each Block has been done. The Fluoride Task Force advised the field functionaries to find out the cost effective local solution

in all the Fluoride affected habitations. Field visits in different phases were conducted by the members of the Task Force with an objective to examine the feasibility of alternative sources of drinking water for both medium and long term solution to the problem faced by the people. The short term measures like dilution in open wells have been taken to provide safe drinking water to the people.

3. TOTAL SANITATION CAMPAIGN (OSWSM)

Total Sanitation Campaign (TSC) was launched as a Millennium Development Goal by Govt. of India in December 1999. The campaign views the sanitation problem holistically and looks at important tools and approaches that create demand for sanitation. It is an initiative to eradicate the age old practice of open defecation in country side. The unit cost of household toilets has been increased from ₹625/- (1999) to ₹ 3500/- (2011-12). Government of India provides ₹2200/- towards its share whereas State Govt. provides ₹1000/- as matching State share and the beneficiary contribution is ₹300/- per Individual Household Latrine. Similarly the unit cost of toilets in school and Anganwadi centers has been enhanced to ₹ 35000/ and ₹ 8000/ w.e.f. June 2010. Completion of TSC has been extended from March 2012 to March 2017.

Objective:

- To improve general quality of life in the rural areas by improving health & hygiene, ensuring economic development and over all environmental sanitation enhancing individual & collective self esteem and restoration human dignity.
- Women and children are the key stakeholders of the programme integrating the entire village for development through active participation of each and every family in promotion of sanitation.
- Involvement of PR Institutions in promotion of sustainable sanitation facilities is the focal point.
- School and AWC toilets are an integral part of TSC expected to be completed by June 2012.
- Community managed environmental sanitation with solid & liquid waste management.

Rural Sanitation & Funding:

In order to address the Rural Sanitary needs through community empowerment, the Centrally Sponsored Programme “Total Sanitation Campaign” (TSC) is being implemented in all the 30 Districts in a phased manner from 1999-2000 to 2005-06. Government of India directly releases funds to the State Mission without being routed through State Budget and the State Government releases funds as Matching State Share to the District Water & Sanitation Missions after making appropriate provision in the State Budget. The entire operation under this campaign is being looked after by “Odisha State Water & Sanitation

Mission” (OSWSM) of R.D. Department and the “District Water & Sanitation Missions” (DWSMs). State Government have made a budget provision of ₹s.200000 towards matching State Share for the year 2011-12. In the Annual Plan for the year 2012-13 an amount of ₹s.250000 have been proposed as Matching State Share.

Nirmal Gram Puraskar

In order to achieve desirable impact in disease prevention as well as for ensuring minimum standard of living to the entire rural population, it is essential that every household in any particular area has access to sanitation facilities and also to adopt hygienic practices. To promote such full coverage as well as to ensure total stoppage of the practice of open defecation and to maintain cleanliness, the Govt. of India have launched the Nirmal Gram Puraskar (NGP) from October, 2003. The NGP is awarded to Gram Panchayat, Block and Districts where there is no open defecation, access of toilets in all households as well as institutions like Schools, Anganwadi centers etc. So far 236 Gram Panchayats of the State have been bestowed with Nirmal Gram Puraskar at national level. During the year 2011-12 total 48 Gram Panchayats from the State have been nominated for Nirmal Gram Puraskar.

CHAPTER-II

Outcome Budget for 2012-13

The exercise is primarily meant for converting financial outlays into measurable and monitorable outcome. It is a performance measurement tool that helps in better service delivery, decision making, evaluating programme performance and results & improving programme effectiveness.

The Outcome Budget is also aimed at changing the outlook of the agencies entrusted with the responsibility of programme execution and implementation. The idea is to make the programme implementing agencies more result oriented by shifting the focus from “Outlays” to “Outcomes”.

It is a performance measurement tool that helps in better service delivery, decision-making, evaluating programme performance and results, communicating programme goals and improving program effectiveness.

The scheme-wise details, wherever necessary of the Outcome Budget for 2012-13 are indicated in the attached statement.

STATE PLAN (2012-13)

(₹ In Thousand)

Sl. No	Name of the Schemes/ Programme	Financial Outlay	Broad objective	Quantifiable/ Deliverable Physical Outputs	Project Outcome	Processes/ Timelines	Remarks/Risk Factors
1	2	3	4	5	6	7	8
RWSS ORGANISATION							
1	National Rural Drinking Water Programme (NRDWP)	195,00,00-State Share of NRDWP, 222,90,00 (Anticipated Central Share not routed through State Budget)	Provide safe drinking water to rural population of the state on a sustainable basis and meet the challenges relating to availability, coverage, sustainability and water quality.	Availability of safe drinking water / Coverage of 9116 rural habitations, through 15000 spot sources & 1200 PWS Schemes	Availability of Safe drinking water on sustainable basis	Executed by the Chief Engineer, RWS&S and field functionaries	Availability of spot source with quality water, electricity and Govt. land.
2	Total Sanitation Campaign	25,00,00 (State share of CSP)	To create an open defecation free country side where solid and liquid waste is disposed of and used for better livelihood	1203061 numbers of Individual Household Latrines	Improve quality of life in Rural Odisha through better Sanitation & Water Supply	Participatory approach and completion by March 2017 as one of the Millennium Development Goals implemented through 30 DWSMs under OSWSM	
	Total Social Services Sector	195,00,00 (State Plan) 222,90,00 (NRDWP-Central Share) 25,00,00 (State Share of CSP)					

RURAL WORKS ORGANISATION							
1	Construction of Non-Residential and Residential buildings of R.D. Department	225000	Construction of new and ongoing office building and residential buildings of Rural R.D. Department	65 new Res. Buildings and 84 Non-Res. Buildings.	Better working condition and living condition for the officials working in Rural Works Organizations.	12 months	Availability of Land, Non response tenders
2	i. Survey expenses ii. Survey equipment iii. Technical training of personnel TOTAL	i. 45000 ii. 50000 iii. 2500 97500	i. Preparation of project reports ii & iii . Capacity building	To prepare DP₹ for 200 bridge projects and to procure survey equipments for 50 civil divisions	Survey and investigation & conducting technical seminars, workshops, procurement of modern survey equipments for efficient & effective implementation of the proj.	12months	-
3	Minimum Needs Programme- Constituency-Wise allocation (CWA)	284000	Improve critical roads in the rural area for better connectivity to the rural habitations	Rural roads in 142 Assembly Constituency in the State (excepting 5 urban assembly constituencies)	All-weather roads to rural habitations in 142 constituencies of the State for better connectivity to rural habitation	12 months Implemented through Chief Engineer RW-I and field functionaries.	The proposals are furnished by Hon'ble MLAs,
4	Construction of Bridges under Biju Setu Yojana	1400000	Construction of bridges on rural roads	Completion of 42 bridges	To improve rural connectivity	Through tender. 9 months to 30 months	Land acquisition difficult site in certain parts
5	Improvement of existing R.D roads	800000	To improve rural connectivity	Improvement of 67 R.D. roads	Improvement of riding quality	12 months,	
6	Completion of incomplete roads & bridges under different tranches of RIDF & other schemes	230000	Completion of incomplete roads and bridges	Completion of 16 Bridges and 27 Road works	Improve rural connectivity	12 months Implemented through Chief Engineer RW-I and field functionaries.	Time consuming tender process.

7	Rural Infrastructure Development Fund	1950000	Improve road infrastructure	Completion of 33 Bridges & 8 road projects	To improve rural connectivity	11 months to 30 months	Limited no. of Bridge contractors in the State, & delay in land acquisition.
8	PMGSY (Tender Premium)	550000	To implement PMGSY Schemes in the Sate	-	To award the works to suitable agencies	-	Large number of non response tenders.
9	Completion of Bridges on PMGSY Roads	350000	Construction of bridges on PMGSY roads	30 bridges	Improving Rural Connectivity	11 months to 24 months	Limited Bridge contractors in the State
10	One time ACA	500000	To improve rural roads having tourism and economic importance	55 nos. of rural roads	Improving riding quality of roads	12 months	-
11	Incentive to the Contractors	8500	Timely completion of projects	-	Completion of projects ahead of scheduled time	-	-
12	Payment of decretal dues	2000	To clear the liability of contractors as per code disposal	-	-	-	-
13	Land acquisition charges	3000	Completion of projects in time	-	To facilitate acquisition of private land required for road & bridge projects	-	-
	Total :	6400000					

List of R.W. Buildings (Non-Residential) for the year 2012-13

State Plan

(₹ in TRS)

Abstract showing Financial Outlay and Corresponding physical output / No. of Beneficiaries of important sectors			
Sl. No	Name of the Schemes/Programme	Financial Outlay	Physical Outputs / Number of Beneficiaries
1	2	3	4
1	National Rural Drinking Water Programme (NRDWP)	19,00,000 (State Share of CSP) 22,53,680 (Central Share not routed through State Budget)	5494 habitation, 5453 schools, 44 sub-division level water testing laboratories
2	Rural Water Supply Programme – Pipe Water Supply Schemes (PWS) to mitigate Water Quality Problem	200000	4 Mega Pipe Water Supply Schemes
3	Total Sanitation Campaign	200000 (State Share of CSP) CS-700000 (not routed through State Budget.) 100000 (Community Share)	7056648- Individual House hold latrine, 70663 School Toilets, 25160 Anganawadi Center Toilets
	Total Social Services Sector	1910000	
4	4059-2148/ 4216-2148-Construction of Non-Residential and Residential buildings of Rural Work Organization.	225000	84 Nos. of Non-Residential Buildings and 65 Nos. of Residential Buildings.
5	5054-0906-Minimum Needs Programme-Constituency-Wise allocation (CWA)	284000	145 Km. of roads
6	5054-1230-37158-Completion of incomplete Road & Bridges	230000	Completion of 21 Nos. of Rural Roads and 7 Nos. of Bridges
7	(5054-2161-37107) RIDF	1950000	Completion of 33 No. of Bridges and 8 No. of Roads.
8	Completion of bridges on PMGSY roads (5054-1077-42023)	350000	Completion of 30 no. of Bridges
9	Improvement of existing R D Roads (5054-1230-37247)	800000	Improvement of 67 no. roads
10	Biju Setu Yojana (5054-1230-37257)	1400000	200 bridges to be taken up, 42 nos. will be completed.
11	One time ACA (5054-2006-37107)	500000	To take up 44 nos. road projects

NON PLAN (2012-13)

Sl. No.	Name of the Schemes/ Programme	Financial Outlay /(Non-Salary Deliverable outputs)	Broad objective of the Scheme	Quantifiable/Deliverable Physical Outputs	Project Outcome	Processes/ Timelines	Remarks/Risk Factors
1	2	3	4	5	6	7	8
<u>RURAL WORKS ORGANISATION</u>							
1	Repair, Maintenance of Non-Residential Building	1160910	Maintenance of Office Buildings in Rural Areas	Cannot be assessed being repair work	Improve the working condition of officials in Rural areas.	12 months	Physical output could not be quantified as these are operation and maintenance works.
2	Repair and renovation of old Govt. High School and College Buildings (I) above 30 years (ii) above 50 years	150000 100000	Improvement of Educational infrastructure	I. To maintain approx. 200 nos. old High School & College ensure better quality education in rural areas. Buildings which are 30 years ii. Maintenance of E.I. & PH works of 506 nos. of High School Buildings	To ensure better quality education in rural areas	12 months	Cannot be assessed being repair work -
3	Repair and maintenance of Residential buildings	389450	Maintenance of Government Residential Buildings	Cannot be assessed being repair work	Improvement of living condition of officials working in rural areas.	12 months	Physical output could not be quantified as these are operation and maintenance works.
4	Repair and Maintenance of Rural Roads and Bridges	3623380	Up keeping the rural road infrastructure	Cannot be assessed being repair nature of work	Better connectivity and smooth traffic in rural areas	12 months	Physical output could not be quantified as these are operation and maintenance works.
5.	Maintenance of roads & bridges under 13 th FC Award	920000	Repair & Maintenance of RD & PMGSY roads & CD works	3600 Km.	Up keeping the rural road infrastructure	12 months	-
6	Grant to OSRRA for maintenance of PMGSY Roads.	400000	Maintenance of PMGSY Roads.	Cannot be assessed being repair work	Up keeping the rural road infrastructure	12 months	Physical output could not be quantified as these are operation and maintenance works.

CHAPTER-III

Reform Measures and Policy Initiatives

R.D. Department has taken many e-initiatives to monitor and maintain transparency in the works being implemented by the Department. The provision of basic public services being provided through electronic mode are:

(I) Website:

The information relating to R.D. Department is being uploaded to the State Govt. website i.e. <http://www.orissa.gov.in/RD/index.htm>. The website of the department acts as an index of all activities relating to R.D. Department. Further, links have been provided to all other e-activities undertaken by this Department. Information on Pradhan Mantri Gram Sadak Yojana (PMGSY), Drinking Water Supply and Total Sanitation Campaign (TSC) is being monitored online. The letters dispatched through e-Dispatch by the Department are also being webhosted. The information coming under Right to Information Act is also being updated and available in the Department website.

(ii) e-Desptch:

Starting from the R.D. Department at Secretariat, an electronic integrated platform for dispatching letters is in use up to Division level since 2009. All letters are web-hosted for public view for transparency, quick transmission and easy access.

(iii) Integrated Management Information System (IMIS):

A web-based system (<http://indiawater.gov.in/imisweb/>) for management & monitoring of drinking water supply system has come into force with effect from 1st April, 2009. Officials as well as public can know every detail of drinking water sources available in their habitation, the cost of the project, year of installation etc.

(iv) Online Monitoring and Management of Accounts System (OMMAS):

To make it transparent and proper monitoring of both physical and financial progress, of PMGSY work, C-DAC, Govt. of India have developed a web-based software for online monitoring and management namely OMMAS. The URL of OMMAS site is <http://www.pmgysy.org/>. By accessing this site, the public can see the details of roads taken up under PMGSY, it's executing agency, the cost of the roads, the length of roads and it's physical & financial progress.

(v) Total Sanitation Campaign (TSC):

The information on TSC is also being monitored online. The URL of the TSC website is <http://ddws.gov.in/crspnet/crspmain.aspx>. The details of Individual Household Latrines, Anganwadi Toilets, Village Sanitary Complex constructed under TSC are available in the website.

(vi) Integrated Grievance Redressal System (IGRS):

An IGRS named as Sanjog Helpline (www.sanjoghelpline.in) is an IT solution which informs about the grievance of a common man to the right authority in real time via SMS, email & FAX. A toll-free number i.e. 155335/18003456770 has been provided for the public to register their complaints. IGRS is activated and operated towards the goal for smooth redressal of public

grievances on Rural Water Supply and Sanitation (RWSS) and Pradhan Mantri Gram Sadak Yojana (PMGSY).

(vii) e-Procurement:

It is carrying out traditional tendering process in an electronic form (through internet). It connects the procuring organization with the bidders through electronic exchange of tenders. It is a management and reform program in the procurement field.

e-Procurement and iOTMS is done with a software application that includes features for supplier management and complex auctions. Here in the electronic tendering process both the Govt. and the contractors will be benefited.

(viii) WAMIS:

Works and Accounting Management Information System (WAMIS), a web-based software, is being developed by C-DAC, Pune. It is a Division Automation System integrated with MIS features.

WAMIS has 5 modules such as :

- 1) Accounting Management System (AMS)
- 2) Works Management System (WMS)
- 3) Budget Management System (BMS),
- 4) Billing Module, and
- 5) Integration with AG for online submission of Monthly Accounts.

By using this software Divisions are generating their Monthly Accounts and started submitting these to AG. After successful implementation by RD Deptt, it is proposed to be used by all engineering departments in the State like, Works, Water Resources and H&UD Departments.

After implementation of WAMIS, there will be no work remaining inaccessible to public. All the information can be accessed at GP level through Common Service Centers (CSC). At CSC, the citizens can also register their complaints through Sanjog helpline by accessing the website <http://sanjoghelpline.in/>.

(ix) CPSMS

Central Plan Scheme Monitoring System, an web application for online management information and decision support system for the Plan Schemes of Government of India has been in use in the Department. The Central Sponsored Schemes like PMGSY, NRDWP and TSC have been registered in this system.

(x) OSWAS

Odisha State Works Automation System, an e-filing system has been implemented in Rural Development Department since January, 2012. Now all files are being processed through OSWAS, which not only eases the movement of files but also tracking of Daks and files has become much easier. This makes the Department a Less Paper Office.

• **New schemes introduced.**

From the year 2007-08 the State Govt. have provided funds under major head-5054 under State Plan for grant to Odisha State Rural Road Agency (OSRRA) towards high tender premium and construction of bridge beyond 50 mtr for PMGSY work and under major head-3054 under Non-Plan sector towards routine maintenance of the PMGSY work which have already been completed earlier.

Earlier, this Department have executed PWS, Tube Well & Sanitary wells for providing safe drinking water to the rural habitation under ARWSP scheme which is subsequently GoI change by giving re-name as NRDWP by the GoI.

- **Change in internal processes of the Department in relation to administration of the scheme.**

No internal processes of the Department in relation to administration of the scheme have been changed.

- **Change of financing pattern and Fund flow mechanism.**

Only in NRDWP scheme GoI have provided funds to the implementing agency directly (i.e. CE, RWS&S) through Bank Account and the State Govt. is also provided state matching contribution to the implementing agency through Administrative Department. The Administrative Department draws the state matching share and deposits in the bank account of implementing agency.

- **Policy reform if any**

The R.D. Department has executed the PWS, Tube Well & Sanitary Wells for providing safe drinking water to rural habitation. After execution of the project the same has been transferred to Gram Panchayats for maintenance of projects. Now dedicated JEs have been posted in each block for O&M and sanitation work. We propose to go for EPC based procurement and slowly go for zero stock & store.

PMGSY programme aims at providing all weather connectivity to all unconnected habitation in the rural areas of the State having more than of equal to 1000 habitations in plain areas and 500 or more in schedule area which has been relaxed by GoI from 500 to 250 habitations for selection of PMGSY road projects in such areas.

- **Internal Audit of PMGSY works**

Works and accounts of PMGSY works are normally audited by A.G. & empanelled Chartered Accountant firms as statutory audit. In order to ensure both accuracy in accounts and efficiency in the operation of financing of State agencies, MoRD in GoI has decided to make internal audit of SRRDAs and PIUs under PMGSY mandatory SRRDA will appoint internal auditors as a management aid to ensure the true and fair record of account. Accordingly, internal audit of PMGSY work in the State is being operationalised by OSRRA with effect from 2012-13 for which a Steering Committee is constituted at Govt. level. Internal audit is to be conducted half yearly basis. The audit report will be uploaded in OMMAS site.

- **Change in the composition of beneficiaries, if any**

Not required.

CHAPTER-IV

CHAPTER-VI

Gender and SC/ST Budgeting

As per the Plan ceiling furnished by the P&C Department, during the financial year 2012-13, the provision made under Transport Sector (rural roads and bridges) is ₹617.50 crore out of which TASP provision is ₹123.95 crore and ₹91.61 crore for SCSP component for implementation of RIDF MNP scheme in scheduled areas. Accordingly, the Department has formulated project list for construction of the roads and bridges in the scheduled areas to provide good all-weather roads.

Similarly, in social service sector, an amount of ₹195.00 crore is provided out of which ₹44.85 crore is for TASP and ₹33.15 crore for SCSP component for providing safe drinking water and construction of toilets in scheduled areas.
