

Government of Odisha

OUTCOME BUDGET 2014-15

Rural Development Department

Sl. No.	CONTENTS		Page No.
1.	EXECUTIVE SUMMARY		I-VII
2.	CHAPTER-I	Introduction	1-15
3.	CHAPTER-II	Outcome Budget, 2014-15 Statement (Plan & Non-Plan)	16-119
4.	CHAPTER-III	Reform Measures & Policy Initiatives	120-122
5.	CHAPTER-IV	Past performance of programmes and schemes	123-129
6.	CHAPTER- V	Financial Review	130-137
7.	CHAPTER-VI	Gender and SC/ST Budgeting	138

EXECUTIVE SUMMARY

The Outcome Budget of Rural Development Department broadly indicates physical dimensions of the financial outlays reflecting the expected intermediate output. The Outcome Budget is a tool to monitor not just the immediate physical "outputs" that are more readily measurable but also the "outcomes" which are the end objectives.

2. The Outcome Budget 2014-15 broadly consists of the following chapters:

- **Chapter-I:** Brief introduction of the functions, organizational set up, list of major programmes/schemes implemented by the Department, its mandate, goals and policy frame work.
- **Chapter-II:** Tabular format(s)/statements indicating the details of financial outlays, projected physical outputs and projected outcomes for 2014-15 under Plan and Non-Plan.
- **Chapter-III:** The details of reform measures and policy initiatives taken by the Department during the course of the year.
- **Chapter-IV:** Write-up on the past performance of the year 2012-13 and 2013-14 (up to March-2014)
- **Chapter-V:** Actuals of the year preceding the previous year, Budget Estimates and Revised Estimates of the previous year, Budget Estimates of the Current Financial year.
- **Chapter-VI:** Highlights of the outlays provided for the schemes benefiting Women, ST and SC groups along with the corresponding physical output.

Monitoring Mechanism of Rural Development department

The establishment of the Millennium Development Goals has significantly reinforced the concerns about non-income poverty. With the paradigm shift in economic development from growth to broadly defined “development,” the concept of rural development has begun to be used in a broad sense. The concept now encompasses “concerns that go well beyond improvement in growth, income and output. Connectivity – physical like roads, water and sanitation services to our people in rural areas is not an administration but a mission.

Road transport is vital for the economic development and social integration of the country. Easy accessibility, flexibility of operations, door-to-door service and reliability have earned road transport an increasingly higher share of both passenger and freight traffic vis-à-vis other transport modes. Transport sector accounts for a share of 6.4 percent in India’s Gross Domestic Product (GDP). The Road Transport Sector has grown significantly during the past five decades. Road Transport has deep linkages with the rest of the economy and a strong multiplier effect. Transport is essentially a derived demand depending upon the size and structure of the economy and the demographic profile of the population. Greater the share of commodity-producing sectors like agriculture and manufacturing, higher is the demand for transport. Orissa’s surge in growth and expansion in public spending in the past decade has created new possibilities for its social protection system. Social protection strategy must aim at mitigating water poverty in rural areas. The Government is firmly committed to the goal of providing safe drinking water and sanitation facilities to the entire population of the State. The Government is equally committed to the objective of ensuring source and system sustainability. Despite the efforts put forth in the past, there is a growing concern over the widening gap between the expectations of the people and the achievements. Paucity of funds, over-exploitation of water resources, degradation of water recharge structures, competing demand on the available water resources, depleting water availability due to continuous failure of monsoon are some of the factors that cause concern on the supply front.

There is an inbuilt monitoring mechanism in the guidelines of each scheme of the Department so as to ensure that the objectives are achieved by their implementation.

The Deptt. have 13 Sections. Two sections namely (1) Budget and (2) PMGSY are headed by a F.A-cum-Addl. Secretary, seven sections like (1) RWS&S (Field

Establishment) (2) RWS&S (Scheme) (3) Bill and Cash (4) Office Establishment (5) Coordination (6) RTI/PMU and (7) DAK Section are being managed by one Additional Secretary, 2 sections namely (1) RW (Establishment) and (2) RW (Scheme) are being managed by one Joint Secretary, Computer Cell is being look after by Deputy secretary. Legal Cell is headed by Law Officer. That apart, there are two Under Secretaries and one AFA-cum-Under Secretary to assist FA-cum-AS and Addl. Secretaries in discharging the official duties.

The Department has a huge field formation with 2 EICs, 6 Chief Engineers at Heads of Dept. level (1 EIC and 3 Chief Engineers in Rural Works Organization, 1 EIC and 3 Chief Engineers in Rural Water Supply and Sanitation Organization), 23 circles headed by S.Es at Circle level (15-RW + 8 - RWS&S) and 89 Divisions headed by Executive Engineers at District level (53-RW and 36-RWS&S) and 404 Sub-Divisions headed by Asst. Executive Engineers (AEE) at Sub-Division level, 628 Sections headed by AEs & JEs who are looking after the functioning of this Department. This is in addition to 314 JEs recently engaged for O&M and sanitation work in each Panchayat Samiti. There are two Agencies namely (i) Odisha State Rural Road Agency (OSRRA)- chaired by Hon'ble Minister RD, to monitor the PMGSY works and (ii) Odisha State Water & Sanitation Mission (OSWSM)- chaired by the Chief Secretary, to monitor/execute the Nirmal Bharat Abhiyan (previously known as Total Sanitation Campaign (TSC) programme). Apart from continuous monitoring through periodical progress reports received from the Districts depicting both the financial and physical progress of the programmes, the Department also emphasizes on E-Governance. Emphasis is being given on both quality and quantity of physical progress. For effective monitoring of quality of works for non-PMGSY works Third Party Quality Monitoring System is being established. Project Monitoring Units are being set up for monitoring the physical progress of works of both RWS&S and RW organisations. To monitor the physical progress of each project, provision has been made in WAMIS for uploading the geo-tagged photographs of works. This system will facilitate the high level officers to monitor both the physical as well as financial progress of projects.

Furnishing of statement of expenditure, Utilization Certificates, Audited Accounts and other requisite reports are submitted for the release of subsequent installments.

The officer dealing with the implementation of the programmes visits regularly the site to ensure that the programmes are being implemented satisfactorily.

Officers visit their assigned districts at regular intervals and the important observations of such teams are shared with the Department advising them to take appropriate corrective measures, wherever shortcomings are noticed.

A Performance Review Committee under the chairmanship of Principal Secretary reviews the performance of various programmes being implemented by the districts and recommends corrective action wherever found necessary.

With a view to fulfilling the objective of ensuring quality in implementation, particularly in the context of large public funds being spent under all the programmes of the Department the Monitoring Committees are constituted.

Regular monthly review meetings are held through Gramsat and Video conferencing and along with this constant feedback and suggestions are taken and incorporated for the proper implementation of the programmes.

Work Plan for DoRD for the Financial Year 2013-14 was prepared with due consultation of all stake holders. The work plan was drawn up taking into account the annual budget provisions and past performance of respective areas of work. The Chief Engineers were asked to draw up similar month wise and head of expenditure wise financial and physical plans for all the divisions to enable field functionaries to appreciate the purpose and benefit of Results Framework Approach. Evaluation has been made basing on the scheme-wise weightage provided to physical targets. It is found that during the financial year 2013-14, the achievement was about 93%. The RFD for the year 2014-15 is also prepared and submitted to P&C Department.

Public Information System

Information, Education and Communication (IEC) plays a vital role in creating awareness, mobilizing people and making the development participatory through advocacy and by transferring knowledge, skills and techniques to the people. Moreover, IEC plays two most important roles – informative and persuasive and as such is crucial for bringing about requisite social mobilization and facilitating participatory development.

The following strategy that has been adopted by the Department would be continued to ensure maximum benefits out of the programmes of the Department.

Odisha Right To Public Services Act 2012 – Repair of Handpump

Delivery of important services in a time bound manner is the hallmark of Good Governance. Government of Odisha has time and again initiated steps for improving the service delivery to its citizen. Keeping with the ethos of a Welfare State, Government of Odisha has passed a landmark legislation "Odisha Right to Public Services Act, 2012" that guarantees the delivery of public services in a time bound manner. With the passing of Right to Public Services Act, Government of Odisha has taken another strong step to bring efficiency, accountability and transparency in delivery of the public services. Time period of services (Repair of Hand Pump Tubewells) has been prescribed as detailed below:

- (i) 7 days of Minor Repair
- (ii) 14 days of Major Repair(except replacement)
- (iii) 28 days for replacement.

- Designated Officer .. Junior Engineer-II, RWSS
- Appellate Authority .. Assistant Engineer, RWSS
- Revisional Authority .. Block Development Officer.

All the Tubewells belonging to RWSS organisation are being painted in number Any person who wants to repair the tubewells may apply to the Designated Officer (DO) by giving the details of tubewell in a plain paper along with his address, and DO shall repair the said tubewell within 7 days.

APPEAL : Any person whose application is rejected or not provided the service within given time limit may within 30 days from the date of receipt of order of rejection of expiry of given time limit prefer an appeal before the Appellate Authority. Appellate Authority may within a period of 30 days from the date of filing of appeal by order, direct the Designated Officer to provide the service within the time limit mentioned in the order.

REVISION: Any person aggrieved by the order of Appellate Authority or in case of non-disposal of the appeal in time may within 30 days from the date of that order, prefer a revision. Revision with 30 days.

Revisional Authority may impose penalty within the designated officer appellate authority and the subordinate staff `5000/ or `250/ per each day of delay shall be

proportioned to be decided by the revisional authority. Public holidays shall not be included in the given time limit. This is an act of the Government to provide service within the given time.

Sanjog Initiative

Sanitation is essential to ensure a better quality of life among all sections of people in rural and urban areas. 80% of common diseases are caused by lack of sanitation and personal hygiene practices. Total Sanitation Campaign (TSC) does not limit itself to safe disposal of human excreta; it forms a comprehensive concept that includes safe disposal of solid and liquid waste, food hygiene, domestic and personal hygiene. TSC in Odisha is being implemented in all the 30 districts of the State. The Programme is “community-led” and “people-centered” with increased stress on awareness creation and demand generation from people for sanitary facilities in households, schools, anganwadis centers for cleaner environment. The present Operational Guidelines and booklet on Technology Options are developed to guide district as well as field functionaries and core team members in smooth implementation of the TSC programme. This is necessary because of low coverage of IHL construction and less involvement of Panchayati Raj Institutions specifically Gram Panchayats in the program.

The Sarpanch will monitor the progress of the household, school and anganwadi sanitation in the GP. He /she will be supported by a team of AWWs, ASHA, SEM and village motivators to make household visits, and assess the participation of the households, installation of complete and usable toilets, technologically appropriate and fitted correctly to ensure best benefits to the community. An appropriate superstructure should also be done to render the toilet usable immediately. The completed toilets will be verified by a two member team consisting of SEM and AWW, AWW and ASHA or the SEM and ASHA. The implementing agency, SHGs, the AWWs, ASHA, and Sarpanch will continue to advocate the use of toilets after the installation is complete.

They should also emphasize the importance of other associated hygiene practices, hand washing with soap after defecation and before handling food, safe disposal of child fecal, safe disposal of waste water and solid waste, cleanliness around hand pumps, clean tube well platforms etc. Nirmal Gram Puraskar has been awarded to 236 Gram Panchayats for achieving total sanitation and open defecation free environment by HE President of India

E-initiatives

Efficiency of delivery is increasingly becoming the focus of governmental programmes. This is both on account of an explicit recognition of sub-optimal achievements in reaching the targeted beneficiaries in many of the schemes as well as in curbing wasteful expenditure. Realizing this, new tools, particularly application of modern technology are being resorted to in achieving governance and delivery efficiency.

As per section 4 of Right to Information Act, 2005 every public authority shall maintain all its records duly catalogued and indexed in a manner and the form which facilitates the right to information under this Act and ensure that all records that are appropriate to be computerized are, within a reasonable time and subject to availability of resources, computerized and connected through a network all over the country on different systems so that access to such records is facilitated. The Act U/S 4-4 further says that all materials shall be disseminated taking into consideration the cost effectiveness, local language and the most effective method of communication in that local area and the information should be easily accessible, to the extent possible in electronic format with the Central Public Information Officer or State Public Information Officer, as the case may be, available free or at such cost of the medium or the print cost price as may be prescribed.

The e-initiatives of RD department were meant to answer the above need and convert this threat into an opportunity to automate the processes that can be done so using latest technology platforms. E-Dispatch, iOTMS, e-Procurement, LMS, OMMAS, IMIS, WAMIS and OSWAS were major steps, taken. In addition to the above the website of RD Department are maintained and updated regularly.

Road Ahead

Rural Development Department is in charge of construction and maintenance of rural roads and water supply. We have got plan to connect habitations with population 250 and above in 18 IAP districts and habitations with population 500 and above in plain areas and 250 and above in scheduled area for balance 12 Non IAP districts in a phased manner. Till 31.03.2014, 7308 habitations above 250 populations have been provided connectivity under PMGSY. During 2013-14, approx. 500 habitations are going to be provided with all-weather connectivity. Out of such habitations, connectivity has been provided to 418 unconnected habitations till end of

December 2012. Similarly we have less than 2% rural house hold with tap-water in their household. 74 lakh rural households require 3-taps (kitchen, bathroom and toilet) in their households to enjoy water security at household level. Sanitation coverage among BPL is encouraging but the same among APL is not so. This may require more intensive and extensive IEC campaign for times ahead.

CHAPTER-I

INTRODUCTION

The concept of rural development has changed significantly during the last 3 decades. Until the 1970s, rural development was synonymous with agricultural development and, hence, focused on increasing agricultural production. This focus seems to have been driven primarily by the interests of industrialization to extract surpluses from the agriculture sector to reinforce industrialization. Four major factors appear to have influenced the change: increased concerns about the persistent and deepening of rural poverty; changing views on the meaning of the concept of development itself; emergence of a more diversified rural economy in which rural non-farm enterprises play an increasingly important role; and increased recognition of the importance of reducing the non-income dimensions of poverty to achieve sustainable improvements in the socio-economic well-being of the poor.

The establishment of the Millennium Development Goals has significantly reinforced the concerns about non-income poverty. With the paradigm shifts in economic development from growth to broadly defined “development,” the concept of rural development has begun to be used in a broader sense. The concept now encompasses “concerns that go well beyond improvements in growth, income, and output. The concerns include an assessment of changes in the quality of life, broadly defined to include improvement in health and nutrition, education, environmentally safe living conditions, and reduction in gender and income inequalities.” Today there seems to be a universal consensus that the ultimate objective of rural development is to improve the quality of life of rural people. This makes it essential to go beyond the income-related factors such as prices, production, and productivity to a range of non-income factors that influence quality of life and hence inclusiveness. Inclusive rural development is a more specific concept than the concept of rural development.

Rural upliftment requires strong commitment, patience and perseverance. It is a challenging but interesting task. The Govt. can not by itself provide the required services/comforts without the cooperation of the all stake-holde` Physical connectivity like construction of roads and bridges and providing adequate safe drinking water as well as sanitation services to our rural population is indeed a mission and not a mere administrative function. With this concept, R.D. Department was created on 1st July, 1990 to look after sectors like construction of rural roads, buildings construction & maintenance of rural water

supply projects and implementation of sanitation programmes to enhance the quality of life of rural population of the State.

Work Plan for DoRD for the Financial Year 2014-15 is prepared with due consultation of all stake holders. The work plan was drawn up taking into account the annual budget provisions and past performance in respective areas of work. The Chief Engineers were asked to draw up similar month wise and head-wise financial and physical plans for all the divisions to enable field functionaries to appreciate the purpose and benefit of Results Framework Approach. We propose to continue this in current financial year.

The Rural Development Department in its present form consists of two organisations namely (i) Rural Works (R.W.) (ii) Rural Water Supply & Sanitation (RWS&S).

Organisational Setup:

The Deptt. have 13 Sections. Two sections namely (1) Budget and (2) PMGSY are headed by a F.A-cum-Addl. Secretary, seven sections like (1) RWS&S (Field Establishment) (2) RWS&S (Scheme) (3) Bill and Cash (4) Office Establishment (5) Coordination (6) RTI/PMU and (7) DAK Section are being managed by one Additional Secretary, 2 sections namely (1) RW (Establishment) and (2) RW (Scheme) are being managed by one Joint Secretary, Computer Cell is being look after by Deputy secretary. Legal Cell is headed by Law Officer. That apart, there are two Under Secretaries and one AFA-cum-Under Secretary to assist FA-cum-AS and Addl. Secretaries in discharging the official duties.

The Department has a huge field formation with 2 EICs, 6 Chief Engineers at Heads of Dept. level (1 EIC and 3 Chief Engineers in Rural Works Organization, 1 EIC and 3 Chief Engineers in Rural Water Supply and Sanitation Organization), 23 circles headed by S.Es at Circle level (15-RW + 8 - RWS&S) and 89 Divisions headed by Executive Engineers at District level (53-RW and 36-RWS&S) and 404 Sub-Divisions headed by Asst. Executive Engineers (AEE) at Sub-Division level, 628 Sections headed by AEs & JEs who are looking after the functioning of this Department. This is in addition to 314 JEs recently engaged for O&M and sanitation work in each Panchayat Samiti. There are two Agencies namely (i) Odisha State Rural Road Agency (OSRRA) to monitor the PMGSY works and (ii) Odisha State Water & Sanitation Mission (OSWSM) to monitor/execute the Nirmal Bharat Abiyan (NBA) programme.

Principal Secretary is the Chief Executive Officer to monitor the work of the Department.

Funding

The activities of the DoRD are supported by financial outlays in the Plan and Non-Plan Budget of the State Govt. Besides the grants received from the Central Govt through Ministry of Rural Development for implementation of National Rural Drinking Water project on the sharing basis 50:50 in Coverage, Operation & Maintenance and Water Quality programme. Further Govt. of India have provided 100% funds for implementation of Pradhan Mantri Gram Sadak Yojana for construction of all-weather connectivity to all unconnected habitations in rural area of the State having more than or equal to The existing PMGSY scheme aims for providing connectivity to the unconnected habitations of 500 + population in general area and 250 + population in 18 IAP districts & upto 100+ population in 38 LWE blocks.

The funds were previously released by the Govt. of India under PMGSY and NRDWP not routed through state Govt. Budget and the same is directly released to the implementing agency i.e. OSRRA (Odisha State Rural Road Agency). This year the Govt. of India has decided to route the fund under State Plan of the State Govt. In order to address the Rural Sanitation needs through community empowerment, the centrally sponsored "Nirmal Bharat Abhiyan" (NBA) previously known as "Total Sanitation Campaign" (TSC) is being implemented in all the 30 districts of the State. Government of India directly releases funds to the Odisha State Water & Sanitation Mission (OSWSM) without being routed through State Govt. budget and the State Govt. releases funds as matching state share to the missions after making appropriate provision in the state budget. The entire operation under this campaign is being looked after by the OSWSM of RD Department and the District Water and Sanitation Missions.

The Demand as reported in iOTMS is as follows:

(` in TRS)

The details are as follows:

A. STATE PLAN

(i) R.W Organisation

A total outlay of `291290.01 lakh has been proposed under the roads & bridge sector/building sector of Rural Works Organisation Schemes to be implemented as follows.

1) Construction of Non-Residential Buildings of R.W. Organisation. (` 1300.00 lakh)

A sum of ` 1300.00 lakh has been proposed for the year 2014-15 for construction of office building for different office of Rural Development Department.

2) Construction of Residential Buildings of R.W. Organisation (` 1200.00lakh)

A sum of ` 1200.00 lakhs has been proposed for construction of residential building under Rural Development Department for the year 2014-15.

3) Rural Roads and Bridges (NABARD Assisted Project) (` 41000.00 lakh)

A sum of ` 41000.00 lakh has been proposed in the year 2014-15 for completion of 46 bridges & 13 roads under NABARD scheme.

4) Road Works (PMGSY) (` 180000.01 lakh)

A sum of ` 180000.01 lakhs has been proposed for construction of roads & bridges. There is a Central Share of Rs.170000.00 lakh under the above scheme & State's share of Rs.10000.00 lakh towards State share of construction of bridges, tender premium & labour escalation etc. for the year 2014-15.

5) CWA (Constituency Wise Allotment) (` 2840.00 lakh)

`20.00 lakh has been provided for each Assembly constituency (except five urban constituencies) in the budget for the year 2014-15 for improvement of Rural Roads.

6) Completion of incomplete roads & bridges under different tranches of R.I.D.F & Other Schemes. (₹ 7000.00 lakh)

A sum of ₹ 7000.00 lakh has been proposed for completion of incomplete roads and bridges under different tranches of RIDF & other schemes for the year 2014-15.

7) Capacity Building(Resource & Infrastructure Development) (₹ 800.00 lakh)

A sum of ₹ 800.00 lakh has been proposed under capacity building for Survey Expenses, Survey Equipment, Tech. Training, Consultancy charges-PMU & Quality Monitoring important roads, bridges & building projects, DPR preparation, Computerisation of offices, WAMIS, GIS exposure visit inside/outside country etc. for the year 2014-15.

8) Land acquisition charges (₹ 50.00 lakh)

A sum of ₹ 50.00 lakh has been proposed for the year 2014-15 towards land acquisition for different rural roads and bridges.

9) Decretal dues (₹ 50.00 lakh)

After settlement of the court cases, Govt. needs to pay decretal dues as and when necessary Provision of ₹ 50.00 lakh has been proposed for the year 2014-15.

10) Biju Setu Yojana (₹ 16300.00 lakh)

₹ 16300.00 lakh has been proposed for construction of bridges on rural roads under Biju Setu Yojana during 2014-15.

11) One time ACA. (₹ 7000.00 lakh)

There is a budget provision of ₹ 7000.00 lakh during 2014-15 for improvement of RD roads connecting important tourist places and economic importance.

12) Improvement of existing RD roads. (₹ 5700.00 lakh)

There is a provision of ₹ 5700.00 lakhs for improvement of existing R.D. Roads. during 2014-15.

13) Incentive for early completion of Major Projects. (₹ 50.00 lakh)

There is a proposal of ₹ 50.00 lakhs towards incentive to contractors for early completion of Major Projects during 2014-15.

14) Special Programme for KBK dist. (SCA). (₹ 8500.00 lakh)

There is a proposal of ₹ 8500.00 lakhs for improvement of road in KBK dist during 2014-15.

15) Construction of Bailey Bridges. (₹ 4400.00 lakh)

There is a proposal of ₹ 4400.00 lakhs for construction of 103 nos of Bailey Bridges in inaccessible areas IAP districts during 2014-15.

16) Mukhya Mantri Sadak Yojana. (₹ 15000.00 lakh)

There is a proposal of ₹ 15000.00 lakhs for improvement of important RD roads during 2014-15. This is new scheme introduced for construction/improvement of rural roads. The modalities of the scheme is being finalized.

17) Development of Rural road connectivity. (₹ 100.00 lakh)

There is a proposal of ₹ 100.00 lakhs for development of rural road connectivity during 2014-15. This is new scheme introduced for construction/improvement of rural roads. The modalities of the scheme is being finalized

(ii) Rural Water Supply

The availability of safe drinking water is an important role in the health and wellbeing of the people. Rural Development Department is the nodal department for providing safe drinking water in rural population.

1. NRDWP

(SP: ` 44078.00 lakh)

The rural water supply and sanitation organisation is functioning under the Rural Development Department primarily aims at providing safe drinking water to the rural people of the state. From the year 2009-10, rural water supply is carried out as per the new guideline of GOI i.e. National Rural Drinking Water Programme (NRDWP). The goal of the programme is to provide every rural person with adequate water for drinking, cooking and other domestic basic needs on a sustainable basis. There is a paradigm shift in coverage from habitation to household. To meet the emerging challenges in the rural drinking water sector relating to availability of sustainable and qualitative drinking water supply, the components covered under the program are NRDWP-Coverage, Sustainability, Water quality, operation & maintenance and Support activities. The proposed fund includes provision to address water quality related issues in the fluoride affected districts particularly Nuapada.

To meet the above needs, an amount of Rs.44078.00 lakhs under State Plan in the Budget for the year 2014-15 is available against anticipated GoI allocation of Rs.22000.00.

Target has been fixed to take up 2845 PWS schemes (2296 PWS under coverage, 549 PWS under water quality) and 30000 spot sources under coverage during the year-2014-15.

2. Capacity Building:

(SP: `700.00 lakh)

An amount of Rs.700.00 lakh is available in the Budget for capacity building. The scope of the works include survey & investigation, Source finding and preparation of detailed project reports for new rural PWS Schemes, Procurement of Survey Equipments, training, Exposure visit inside and outside India, consultancy charges, PMU establishment charges, quality monitoring, computerisation, WAMIS & GIS etc.

3. Construction of Non-residential Buildings of RWSS Org. (SP: `500.00 lakh)

A sum of Rs.500.00 lakh is available for the year 2014-15 for construction of newly created Non-Residential Buildings of RWSS Organisation and Govt residential buildings for RWSS staffs.

4. Construction of Residential Buildings of RWSS Org. (SP: `600.00 lakh)

A sum of Rs.600.00 lakh is available for the year 2014-15 for construction of newly created Residential Buildings of RWSS Organisation and Govt residential buildings for RWSS staffs.

5. Rural Water Supply

(SP: `5000.00 lakh)

A sum of Rs.5000.00Lakh has been allocated under state Plan to cover PWS projects as well as spot sources in villages and habitations where it is not possible to cover those locations under NRDWP. State specific projects can be taken up to meet the demand of public on priority basis.

6. RIDF:

(SP: Rs.1000.00 lakh)

As a long term sustainable measure, to mitigate the presence of Fluoride and Chloride in drinking water in the district of Nuapada and Puri , 7 Number of PWS projects taking reservoirs / rivers as drinking water sources in Nuapada district and one Mega PWS Scheme in Puri district have been proposed under RIDF assistance . Similarly 2 numbers of Aug. Schemes in Bolangir district are also proposed under RIDF. Hence total ten numbers of schemes are under RIDF assistance at an estimated cost of Rs.200.22Crores.

The work for PWS to 59 villages of Bramhagiri Block in the district of Puri has already been started while seven schemes in Nuapada district are under process for preparation of DPR

(iii) Rural Sanitation.

S.S. `4000.00 lakh

C.S. `6000.00 lakh

In order to address the rural sanitation needs through community empowerment, the centrally sponsored Nrmal Bharat Abhiyan (NBA) previously known as Total Sanitation Campaign(TSC) is being implemented in all the 30 districts of the State. The entire operation under this campaign is being looked after by “Orissa State Water & Sanitation Mission (OSWSM)” of RD Department and the District Water and Sanitation Missions (DWSMs). In the Annual Plan for the year 2014-15an amount of 6000.00 lakh towards Central share and `4000.00 lakh has been proposed as State Share.

B. NON- PLAN

(I) RURAL WORKS ORGANISATON:

A total outlay amounting to `101209.70 lakh has been proposed under Non-Plan grant in Rural Works Organization during 2014-15.

Finance Commission Award

Under 13th Finance Commission Award, provision of `4376.57 lakh for PMGSY roads and `9237.87lakh for R.D. roads has been provided for maintenance of R.D. roads and 5 year completed PMGSY roads respectively.

Maintenance of Roads and Bridges:

`47880.21 lakh has been proposed for repair, maintenance, improvement, widening of R.D. roads and bridges during 2014-15.

Maintenance of Rural Buildings:

`23677.66 lakh has been proposed during 2014-15 maintenance of residential and non-residential buildings including `3400.00 lakh for maintenance of 30 years old and `100.00 lakh for maintenance of 50 years old High School Buildings borne in the books of R.D. Department.

(II) RURAL WATER SUPPLY AND SANITATION:

• Office Building -	
Maintenance of Water Supply and Sanitary installations	- ` 510.87 Lakh
• Direction and Administration	- ` 4567.18 lakh
• Machinery and Equipment	- ` 1222.89 lakh
• RWSS M & R, WagesWork Charged Salaries etc.	- ` 5133.18 lakh
• Suspense	- ` 0.01 lakh
• Other Expenses	- ` 5.25 lakh
• Sanitary Technitians' Training	- ` 7.30 lakh
• Res. Bld.-	
Maintenance of Water Supply and Sanitary installations	- ` 309.55 Lakh
• Apprenticeship Taining	- ` 9.00 lakh
Total	- ` 11765.23 lakh

(III)SECRETARIAT ESTABLISHMENT - `582.23LAKH

2. RURAL DRINKING WATER SUPPLY (R.W.S & S Organization)

The role of drinking water for individual's survival, reducing illness, enhancing economic growth and improving peoples' quality of life has acquired prominence in the process of the development agenda in recent years. The 10th Plan accorded topmost priority to provision of stipulated quantity of safe drinking water to "Not Covered" (NC) habitations, followed by coverage of "Partially Covered" (PC) and the quality affected habitations (having contaminated water). In previous years, the habitations were mostly covered by installation of hand pump tube wells and sanitary wells. But it is found that these sources do not attend to the desired level of sustainability. Hence it is decided that desired goal can be achieved by providing water to rural habitations through Piped Water Supply (PWS) schemes. The State Government has a clear mandate to cover all uncovered rural habitations and Government & Government aided schools. As on 31.3.14, there are 1, 57,296 habitations (102110-FC+48466-PC+6564-WQ) have been provided with drinking water facility through 3,80,469 spot sources (hand pump Tube Well and Sanitary Wells) and 9458 Piped Water Supply projects commissioned in the State.

National Rural Drinking Water Programme

National Rural Drinking Water Programme (NRDWP) is being implemented w.e.f. 1.4.2009. Under this programme, provision of drinking water supply to the rural population is made through hand pump tube wells and piped water supply schemes. As per the new guidelines under NRDWP, there has been a shift in approach of coverage which aims at household level water security. The State Government provides a matching share of Central Assistance released for implementation of NRDWP scheme. Under the modified NRDWP programme, the drinking water supply projects are implemented with the following broad components:

- Coverage - 47% - Priority has been given to provide safe drinking water to "Not Covered (NC)" habitations followed by coverage of "Partially Covered (PC)" habitations. (matching share 50:50)
- Water Quality - 20% - To provide safe alternative sources of drinking water supply in quality affected habitations except for capital investment priority has been given for Fluoride affected habitations followed by Iron & salinity problems. (Matching share - 50:50)
- Sustainability (Swajaladhara mode) - 10% - To encourage community participation for sustainability of water supply sources and systems, these schemes are implemented in broad Swajaladhara principle. (No matching share is required from State but contribution from village community is the essence.)

- Support activities - 5% Communication and capacity development (CCDU), Management Information System (MIS) and Computerisation are to be taken up on priority.
- Water quality Monitoring & Surveillance – 3% Services of Asha, Angawandi workers, School Teachers, GP members, Social workers etc. will continue to be utilized for Surveillance programme. Monitoring is to be done by entering the test result of all sources tested by the Labs. The habitation and household data must be collected by two village level members i.e. VWSC members selected in the Gram Sabha and fully accountable to the Panchayat. They will also authenticate the test results of field test kits used in the village.
- Operation and Maintenance - 15% Government of India has provided 15% of funds to the State Govt. for operation and maintenance of existing rural water supply system. (matching State share - 50:50)

Rural Water Quality Monitoring and Surveillance

Govt. has made significant interventions to improve the availability of drinking water in rural areas. Activities relating to water quality were limited to testing of water sources at the time of commissioning the PWS projects and provision of alternative water supply through sub-mission projects for areas where occurrence of Fluoride, salinity and Iron in ground water is beyond the permissible limit. The above programme would be implemented at three levels consisting of the State level, District level and grass root level.

• Water Quality Problem Mitigation

- As a long term sustainable measure 21 PWS projects taking reservoir / river as drinking water sources have been proposed at an estimated cost of `265.09 Crores. Now 21 Schemes have been reduced to 16 covering equal number of habitations as before due to merger of several schemes by adopting gravity flow wherever possible.
- Out of the above, 4 Projects (Nuamalpada, Amodi, Koligaon, and Thelkodungri), at an estimated cost of `20.32 Crores are taken up under NRDWP.
- Out of the above, the Nuamalpada and Amodi PWS Projects sanctioned are under progress. For Koligaon & Thelkodungri, sources have been completed and tender for balance work is in process.
- Out of remaining 12 projects, the following 6 projects (Pipalchandi, Patara, Khalipani, Ichhapur, Krishan, and Dharanimal & Palasad) at an approximate cost of `178.02 Crores are proposed to be taken up in phased manner with assistance of RIDF (NABARD) for which action is being taken for preparation of DPR.
- Tender for consultancy service for balance 6 projects such as (1) Gudvella, Ranipur Chandel, Dhanksar & Bhaludunguri, (2) Kusumjore (3) Khalna, (4) Chota darlipada (5) Litiguda (6) Bergaon are under progress so as to prepare DPR.

3. ODISHA STATE WATER & SANITATION MISSION (OSWSM)

Nirmal Bharat Abhiyan (NBA)

Total Sanitation Campaign (TSC) was launched as a Millennium Development Goal by Govt. of India in December 1999. The campaign views the sanitation problem holistically and looks at important tools and approaches that create demand for sanitation. It is an initiative to eradicate the age old practice of open defecation in country side. Encouraged by the success of Nirmal Gram Puraskar in different parts of the Country, Govt. of India has renamed TSC as Nirmal Bharat Abhiyan (NBA) with effect from 1st April, 2012. This initiative is unique for its vision of comprehensive sanitation coverage of entire rural community, all rural schools, anganwadies and public institutions through saturation approach latest by 2022 or earlier. The benefit under NBA is extended to IAPL (Identified APLs) covering all SC/STs, small and marginal farmers, landless labourers with homestead land, differently abled and women headed households along with all BPL households.

The unit cost of household toilets has been increased from `625/- (1999) to `5500/- (2012-13) out of which Government of India provides `3200/- towards its share along with state matching share of `1400/-. The beneficiary contribution for IHL is `900/- in shape of cash/kind/labour. IHL construction cost under NBA has been raised to `10000/- in convergence with MGNREGS under which `4500/- is available through convergence with Panchayati Raj Department. The unit cost of toilets in Anganwadi Centre has also been revised from `5000/- to `8000/- (`5600/- GoI + `2400/- GoO) and School toilet from `20000/- to `35000/- (`24500/- GoI + `10500/- GoO) w.e.f. June 2010.

Objective:

- To Improve general quality of life in the rural areas by improving health & hygiene, ensuring economic development and over all environmental sanitation enhancing individual & collective self esteem and restoration human dignity.
- Women and children are the key stakeholders of the programme integrating the entire village for development through active participation of each and every family in promotion of sanitation.
- Involvement of PR Institutions in promotion of sustainable sanitation facilities is the focal point.
- School and AWC toilets are an integral part of NBA expected to be completed by March 2013.

- Community managed environmental sanitation with solid & liquid waste management.

Rural Sanitation & Funding:

In order to address the Rural Sanitary needs through community empowerment, the centrally sponsored “Nirmal Bharat Abhiyan” (NBA) is being implemented in all the 30 districts of the State. Government of India directly releases funds to the State Mission without being routed through State Budget and the State Government releases funds as Matching State Share to the District Water & Sanitation Missions after making appropriate provision in the State Budget. This year the Govt. of India has decided to root the fund under State Plan of the State Govt. The entire operation under this campaign is being looked after by “Odisha State Water & Sanitation Mission” (OSWSM) of R.D. Department and the “District Water & Sanitation Missions” (DWSMs). State Government has made a budget provision of `5599.00 lakh towards matching State Share for the year 2013-14. In the Annual Plan for the year 2014-15 an amount of `4000.00 lakh has been proposed as Matching State Share.

Nirmal Gram Puraskar

In order to achieve desirable impact in disease prevention as well as for ensuring minimum standard of living to the entire rural population, it is essential that every household in any particular area has access to sanitation facilities and also to adopt hygienic practices. To promote such full coverage as well as to ensure total stoppage of the practice of open defecation and to maintain cleanliness, the Govt. of India have launched the Nirmal Gram Puraskar (NGP) from October, 2003. The NGP is awarded to Gram Panchayat, Block and Districts where there is no open defecation, access of toilets in all households as well as institutions like Schools, Anganwadi centers etc. So far 284 Gram Panchayats of the State have been bestowed with Nirmal Gram Puraskar at national level. During the year 2013 State has submitted proposals of 32 G.Ps to GoI with recommendation for consideration of NGP Award.

CHAPTER-II

Outcome Budget for 2014-15

The exercise is primarily meant for converting financial outlays into measurable and monitorable outcome. It is a performance measurement tool that helps in better service delivery, decision making, evaluating programme performance and results and improving programme effectiveness.

The Outcome Budget is also aimed at changing the outlook of the agencies entrusted with the responsibility of programme execution and implementation. The idea is to make the programme implementing agencies more result oriented by shifting the focus from “Outlays” to “Outcomes”.

It is a performance measurement tool that helps in better service delivery, decision-making, evaluating programme performance and results, communicating programme goals and improving program effectiveness.

The scheme-wise details, wherever necessary of the Outcome Budget for 2014-15 are indicated in the attached statement.

Koraput village sets hygiene example

Satyanarayan Pattnaik, TNN | 2013-03-02

KORAPUT: Marking a social success for others to emulate, a village in Koraput district has become totally free of open defecation with each of its 45 families constructing toilets in their homes. Since the past two years, around 220 tribal villagers of the non-descript Bondaguda village under Similiguda block in the district have been using toilets after the village committee banned open defecation. "All the 45 Kandh families have toilets of their own now. There is strict prohibition of open defecation in the village," said Naranga Pujari, president of Bondaguda Mahila Mandal

Nestled at the foothills of Deomali hill with numerous streams nourishing its lush farmlands, the village situated at a distance of about 45 km from here, has shown a marked decrease in the incidence of diseases since open defecation stopped. "Since we started using toilets not a single case of diarrhoea or malaria has been reported at our village," said Juruko Pujari, a village woman.

However, it was not easy to inculcate the toilet culture in the village. It took a series of awareness camps organized by the district administration at the village to make the villagers conscious about the ill-effects of defecating in the open.

"Initially, the tribals were reluctant to construct toilets at their homes but when they were made to realize through street plays and posters how they were suffering from various diseases like diarrhoea and malaria due to defecating in the open, their mindset gradually changed," said Debasish Patnaik, coordinator of district water and sanitary mission. The tribals were provided training in constructing toilets and ₹2,200 was given by the administration to each of the 31 BPL families of the village to build toilets. "As the rest of the 14 families at our village don't have BPL cards, they were not provided with the fund for constructing toilets. So we pooled all the fund of the 31 families and donated our labour to ensure that all the 45 families get a toilet from the fund meant for 31 families," said Pujari.

The villagers are now motivating people in neighbouring villages of Jhimitiguda, Pipalguda and Dalaiguda to use toilets too. "Bondaguda is the first village of the district which has been declared 'open defecation free'. It has set an example for others to follow. Now we aim to make the entire Similiguda block 'open defecation free' in the next few months," said Koraput collector Sachin Jadhav. The village also boasts of another reform by restricting consumption of liquor to only Fridays and special occasions like pujas and marriages. "The villagers are allowed to consume liquor only on Friday as the haat (weekly market) sits on that day. Moreover, villagers are not allowed to create nuisance after consuming liquor. If anyone is found consuming liquor on any other day and creating disturbance at the village, a fine of ₹50 is imposed on him," said Sanjeev Sekhar Pujari, a villager. "We have also restricted the use of cigarettes, bidis and chewing tobacco at the village," he added.

Continuing on the progressive path, the villagers have started yet another praiseworthy practice of collecting ₹5 each month, which go towards creating a common fund pool to be used in times of emergency like taking a patient to the hospital, purchasing medicines, etc. "A village meeting is held once a month, attended by at least one member from each family. All community decisions are taken at the meeting," said Kosai Pujari, another villager.

STATE PLAN (2014-15)

Rural Water Supply & Sanitation

` in TRS

Sl. No	Name of the Schemes/Programme	Financial Outlay	Broad objective	Quantifiable/Deliverable Physical Outputs	Project Outcome	Processes/Timelines	Remarks/Risk Factors
1	2	3	4	5	6	7	8
1	National Rural Drinking Water Programme (NRDWP) and State Plan	2200000-State Share of NRDWP, 100000 – RIDF – Rural Water Supply 2207800–(Anticipated Central Share)	Providing safe drinking water to rural public	Availability of safe drinking water / Coverage of 11000 rural habitations, through 30000 spot sources & 1300 PWS Schemes & 1000 Solar Powered PWS Schemes	Supply of potable drinking water to the rural population of the State.	12 months	Availability of potential Source with quality water, electricity and Govt. land.
2	Rural Water Supply	500000	Providing safe drinking water to rural public		Supply of potable drinking water to the rural population of the State.	12 months	
3	State Plan – Capacity Building	70000	Development human resources	Survey & Investigation work including Source finding of 1254 PWS schemes proposed to be taken up in 2014-15	Provide training to Officials, establishment of PMUs, Technological advancement, survey expences, preparation of DPRs	12 months	
4	State Plan – Building Programme (Both Res. & Non-Res)	110000	Better working conditions and living condition for the officials.	Construction and completion of Departmental Office Building and Residential Building (Including `1.00 crore for Improvement of IGTC Palasuni)	Construction of new and ongoing office/res. bld for RWSS organisation. And instalment of PH infrastrucutre in RWS&S buildings.	12 months	
	Total Social Services Sector	2980000 (State Plan) 2207800 (NRDWP-Central Share)			2980000 (State Plan) 2207800 (NRDWP-Central Share)		

STATE PLAN (2014-15)

RURAL WORKS ORGANISATION(in TRS)

Sl. No	Name of the Schemes/ Programme	Financial Outlay	Broad objective	Quantifiable/ Deliverable Physical Outputs	Project Outcome	Processes/ Timelines	Remarks/Risk Factors
1	2	3	4	5	6	7	8
1	Construction of Non-Residential and Residential buildings of R.D. Department	250000	Construction of new and ongoing office building and residential buildings of Rural R.D. Department	228 new Res. Buildings and 114 Non-Res. Buildings.	Better working condition and living condition for the officials working in Rural Works Organizations.	12 months	Availability of Land, Non response tenders
2	Capacity Building (Resources & Infrastructure Development)	80000	Survey Expenses, Survey Equipment, Tech. Training, Consultancy charges-PMU & Quality Monitoring important roads, bridges & building, DPR preparation, Computerisation of offices, WAMIS, GIS exposure visit inside/outside country etc.	Not quantifiable	Survey and investigation & conducting technical seminars, workshops, procurement of modern survey equipments	12months	-
3	Minimum Needs Programme-Constituency-Wise allocation (CWA)	284000	All-weather roads to rural habitations in 142 constituencies of the State.	Rural roads in 142 Assembly Constituency in the State	Improve critical roads in the rural area for better connectivity to the rural habitations	12 months Implemented through Chief Engineer RW-I and field functionaries.	The proposals are furnished by Hon'ble MLAs,
4	Construction of Bridges under Biju Setu Yojana	1630000	Construction of bridges on rural roads	Completion of 149 bridges	To improve rural connectivity	Through tender. 9 months to 30 months	Land acquisition difficult site in certain parts
5	Improvement of existing R.D roads	570000	To improve rural connectivity	Completion of 42 nos of RD roads	Improvement of riding quality	12 months	

Sl. No	Name of the Schemes/ Programme	Financial Outlay	Broad objective	Quantifiable/ Deliverable Physical Outputs	Project Outcome	Processes/ Timelines	Remarks/Risk Factors
1	2	3	4	5	6	7	8
6	Completion of incomplete roads & bridges under different tranches of RIDF & other schemes	700000	Completion of incomplete roads and bridges	100 km. roads	To Improve rural connectivity	12 months Implemented through Chief Engineer RW-I and field functionaries.	Time consuming tender process.
7	Rural Infrastructure Development Fund	4100000	To Improve road infrastructure	Completion of 46 Bridges & 13 road projects	To improve rural connectivity	11 months to 30 months	Limited no. of Bridge contractors in the State, & delay in land acquisition.

PRADHAN MANTRI GRAM SADAK YOJANA (PMGSY)

PMGSY programme a Govt. of India sponsored scheme aims at providing all-weather connectivity to all unconnected habitations in rural areas of the State upto population 250 and above in 18 IAP districts & 500 and above for 12 Non-IAP districts as per present norms. Accordingly, GoI has so far sanctioned projects worth `17814.25 crore for construction of 11649 nos of roads with a length of 45190.14 Km. in different phases with construction of 275 missing link bridges on PMGSY roads for providing connectivity to 16395 habitations. Till end of March'14 `11351.39crore has been incurred for construction of 28545.14 Km. of roads including 95 missing link bridges for providing connectivity to 9777 habitations.

During the year 2013-14 `1615.57 crore has been incurred by constructing 3063.22 km. of roads for providing connectivity to 1004 no. of habitations.

During the year 2014-15 it has been programmed to utilize `1800.00 crore for construction of roads of 4500 km. and bridges under the scheme. Out of such utilization `1700.00 crore will be received from MoRD, GoI and balance of Rs.100.00 crore lakhs will

be provided by the State towards construction of bridges, tender premium & labour escalation.

Outcome budget for the year 2014-15 under PMGSY programme

CHAPTER-III

Reform Measures and Policy Initiatives

R.D. Department has taken many e-initiatives to monitor and maintain transparency in the works being implemented by the Department. The provision of basic public services being provided through electronic mode are:

(I) Website:

The information relating to R.D. Department is being uploaded to the State Govt. website i.e. <http://www.rdodisha.in/index.htm>. The website of the department acts as an index of all activities relating to R.D. Department. Further, links have been provided to all other e-activities undertaken by this Department. The information on Pradhan Mantri Gram Sadak Yojana (PMGSY), Drinking Water Supply and Nirmal Bharat Abhiyan (NBA) is being monitored online. The letters dispatched through e-Dispatch by the Department are also being webhosted. The information coming under Right to Information Act is also being updated and available in the Department website.

(ii) e-Desptch:

Starting from the R.D. Department at Secretariat, an electronic integrated platform for dispatching letters is in use up to Division level since 2009. All letters are web-hosted for public view for transparency, quick transmission and easy access.

(iii) Integrated Management Information System (IMIS):

A web-based system (<http://indiawater.gov.in/imisweb/>) for management & monitoring of drinking water supply system has come into force with effect from 1st April, 2009. Officials as well as public can know every detail of drinking water sources available in their habitation, the cost of the project, year of installation etc.

(iv) Online Monitoring and Management of Accounts System (OMMAS):

To make it transparent and proper monitoring of both physical and financial progress, of PMGSY work, C-DAC, Govt. of India have developed a web-based software for online monitoring and management namely OMMAS. The URL of OMMAS site is <http://www.pmgysy.org/>. By accessing this site, the public can see the details of roads taken up under PMGSY, it's executing agency, the cost of the roads, the length of roads and it's physical & financial progress.

(v) Nirmal Bharat Abhiyan (NBA):

The information on NBA is also being monitored online. The URL of the NBA website is <http://tsc.gov.in/tsc/NBA/NBAHome.aspx>. The details of Individual Household Latrines, Anganwadi Toilets, Village Sanitary Complex constructed under TSC are available in the website. OSWSM has its own website as <http://oswsm.com>

(vi) Integrated Grievance Redressal System (IGRS):

An IGRS named as Sanjog Helpline (www.sanjoghelpline.in) is an IT solution which informs about the grievance of a common man to the right authority in real time via SMS, email & FAX. A toll-free number i.e. 155335/18003456770 has been provided for the public to register their complaints. IGRS is activated and operated towards the goal for smooth redressal of public

grievances on Rural Water Supply and Sanitation (RWSS) and Pradhan Mantri Gram Sadak Yojana (PMGSY).

(vii) e-Procurement:

It is carrying out traditional tendering process in an electronic form (through internet). It connects the procuring organization with the bidders through electronic exchange of tenders. It is a management and reform program in the procurement field.

e-Procurement and iOTMS is done with a software application that includes features for supplier management and complex auctions. Here in the electronic tendering process both the Govt. and the contractors will be benefited.

(viii) WAMIS:

Works and Accounting Management Information System (WAMIS), a web-based software, is being developed by C-DAC, Pune. It is a Division Automation System integrated with MIS features.

WAMIS has 5 modules such as :

- 1) Accounting Management System (AMS)
- 2) Works Management System (WMS)
- 3) Budget Management System (BMS),
- 4) Billing Module, and
- 5) Integration with AG for online submission of Monthly Accounts.

By using this software Divisions are generating their Monthly Accounts and started submitting these to AG. Not only R.D. Deptt, but also all engineering departments of the State like, Works, Water Resources and H&UD Departments are now using WAMIS.

(ix) CPSMS

Central Plan Scheme Monitoring System, an web application for online management information and decision support system for the Plan Schemes of Government of India has been in use in the Department. The Central Sponsored Schemes like PMGSY, NRDWP and TSC have been registered in this system.

(x) OSWAS

Odisha State Workflow Automation System, an e-filing system has been implemented in Rural Development Department since January, 2012. Now all files are being processed through OSWAS, which not only eases the movement of files but also tracking of Daks and files has become much easier. This makes the Department a Less Paper Office.

(x) e-NIRMAN

An Online Project Monitoring system (e-Nirman) is being used by the Department since December, 2011 to track and trace the Physical and financial progress of different projects undertaken under different important schemes like BSY, NABARD assisted projects etc.. The online application has the facility to integrate all construction activities like forecasting, tender processing, bill processing of different works like Roads, Buildings and Bridges. The application is accessible through <http://www.rdodisha.in/e-Nirman.asp>.

• **New schemes introduced.**

From the year 2007-08 the State Govt. have provided funds under major head-5054 under State Plan for grant to Odisha State Rural Road Agency (OSRRA) towards high tender premium and construction of bridge beyond 50 mtr for PMGSY work and under major head-3054 under

Non-Plan sector towards routine maintenance of the PMGSY work which have already been completed earlier.

Earlier, this Department have executed PWS, Tube Well & Sanitary wells for providing safe drinking water to the rural habitation under ARWSP scheme which is subsequently GoI change by giving re-name as NRDWP by the GoI.

- **Change in internal processes of the Department in relation to administration of the scheme.**

No internal processes of the Department in relation to administration of the scheme have been changed.

- **Change of financing pattern and Fund flow mechanism.**

Only in NRDWP scheme GoI have provided funds to the implementing agency directly (i.e. CE, RWS&S) through Bank Account and the State Govt. is also provided state matching contribution to the implementing agency through Administrative Department. The Administrative Department draws the state matching share and deposits in the bank account of implementing agency.

- **Policy reform if any**

The R.D. Department has executed the PWS, Tube Well & Sanitary Wells for providing safe drinking water to rural habitation. After execution of the project the same has been transferred to Gram Panchayats for maintenance of projects. Now dedicated JEs have been posted in each block for O&M and sanitation work. We propose to go for EPC based procurement and slowly go for zero stock & store.

PMGSY programme aims at providing all weather connectivity to all unconnected habitation in the rural areas of the State having more than of equal to 1000 habitations in plain areas and 500 or more in schedule area which has been relaxed by GoI from 500 to 250 habitations for selection of PMGSY road projects in such areas.

- **Internal Audit of PMGSY works**

Works and accounts of PMGSY works are normally audited by A.G. & empanelled Chartered Accountant firms as statutory audit. In order to ensure both accuracy in accounts and efficiency in the operation of financing of State agencies, MoRD in GoI has decided to make internal audit of SRRDAs and PIUs under PMGSY mandatory SRRDA will appoint internal auditors as a management aid to ensure the true and fair record of account. Accordingly, internal audit of PMGSY work in the State is being operationalised by OSRRA with effect from 2012-13 for which a Steering Committee is constituted at Govt. level. Internal audit is to be conducted half yearly basis. The audit report will be uploaded in OMMAS site.

- **Change in the composition of beneficiaries, if any**

Not required.

CHAPTER-VI

Gender and SC/ST Budgeting

As per the Plan ceiling furnished by the P&C Department, during the financial year 2014-15, the provision made under Transport Sector Schemes having General, TASP & SCP-SC components (rural roads and bridges) is `1078.40 crore out of which TASP provision is `248.03 crore and `183.33 crore for SCSP component for implementation of schemes in scheduled areas. Accordingly, the Department has formulated project list for construction of the roads and bridges in the scheduled areas to provide good all-weather roads.
