5.	CHAPTER-IV	Past performance of prgrammes and schemes	124-134
6.	CHAPTER-V	Financial Review	135-145
7.	CHAPTER-VI	Gender and SC/ST Budgeting	146

EXECUTIVE SUMMARY

The Outcome Budget of Rural Development Department broadly indicates physical dimensions of the financial outlays reflecting the expected intermediate output. The Outcome Budget is a tool to monitor not just the immediate physical "outputs" that are more readily measurable but also the "outcomes" which are the end objectives.

2. The Outcome Budget 2016-17 broadly consists of the following chapters:

- **Chapter-I:** Brief introduction of the functions, organizational set up, list of major programmes/schemes implemented by the Department, its mandate, goals and policy frame work.
- **Chapter-II:** Tabular format(s)/statements indicating the details of financial outlays, projected physical outputs and projected outcomes for 2016-17 under Plan and Non-Plan.
- **Chapter-III:** The details of reform measures and policy initiatives taken by the Department during the course of the year.
- **Chapter-IV:** Write-up on the past performance of the year 2014-15 and 2015-16 (up to March-2016).
- **Chapter-V:** Actual of the year preceding the previous year, Budget Estimates and Revised Estimates of the previous year, Budget Estimates of the Current Financial year.
- **Chapter-VI:** Highlights of the outlays provided for the schemes benefiting Women, ST and SC groups along with the corresponding physical output.

Monitoring Mechanism of Rural Development Department

The establishment of the Millennium Development Goals has significantly reinforced the concerns about non-income poverty. With the paradigm shift in economic development from growth to broadly defined “development”, the concept of rural development has begun to be used in a broad sense. The concept now encompasses “concerns that go well beyond improvement in growth, income and output”. Connectivity – physical like roads, water and sanitation services to our people in rural areas is not an administration but a mission.

Road transport is vital for the economic development and social integration of the country. Easy accessibility, flexibility of operations, door-to-door service and reliability have earned road transport an increasingly higher share of both passenger and freight traffic vis-à-vis other transport modes. Transport sector accounts for a share of 6.4 percent in India’s Gross Domestic Product (GDP). The Road Transport Sector has grown significantly during the past five decades. Road Transport has deep linkages with the rest of the economy and a strong multiplier effect. Transport is essentially a derived demand depending upon the size and structure of the economy and the demographic profile of the population. Greater the share of commodity-producing sectors like agriculture and manufacturing, higher is the demand for transport. Orissa’s surge in growth and expansion in public spending in the past decade has created new possibilities for its social protection system. Social protection strategy must aim at mitigating water poverty in rural areas. The Government is firmly committed to the goal of providing safe drinking water and sanitation facilities to the entire population of the State. The Government is equally committed to the objective of ensuring source and system sustainability. Despite the efforts put forth in the past, there is a growing concern over the widening gap between the expectations of the people and the achievements. Paucity of funds, over-exploitation of water resources, degradation of water recharge structures, competing demand on the available water resources, depleting water availability due to continuous failure of monsoon are some of the factors that cause concern on the supply front.

There is an inbuilt monitoring mechanism in the guidelines of each scheme of the Department so as to ensure that the objectives are achieved by their implementation.

The Department has 13 Sections. Two sections namely (1) Budget and (2) PMGSY are headed by one F.A.-cum-Addl. Secretary with support of one AFA-cum-Under Secretary. Eleven sections like (1) Office Establishment, (2) RWS&S (Scheme), (3) RWS&S (Field Establishment), (4) RW (Scheme), (5) RW (Field Establishment), (6) e-Governance, (7) Legal Cell, (8) RTI/PMU, (9) Bill and Cash, (10) Coordination and (11) DAK are being headed by One Additional Secretary supported by One Joint Secretary, One Deputy Secretary, Two Under Secretaries, One Law Officer and Two Consultants.

The Department has a huge field formation with 2 EICs, 6 Chief Engineers at Heads of Dept. level (1 EIC & 4 Chief Engineers in Rural Works Organization and 1 EIC & 2 Chief Engineers in Rural Water Supply and Sanitation Organization), 23 circles headed by S.Es at Circle level (15-RW + 8-RWS&S) and 103 Divisions headed by Executive Engineers at District level (65-RW and 38-RWS&S) and 321 Sub-Divisions (RW- 228+ RWS&S-93)headed by Deputy Executive Engineer (DEE)/Asst. Executive Engineers (AEE) at Sub-Division level, 1064 Sections (RW- 678 + RWS&S-386) headed by DEEs/AEEs and AEs/JEs who are looking after the functioning of this Department. This is in addition to 314 JEs engaged for O&M and sanitation work in each Panchayat Samiti/Block. There are two Agencies namely (i) Odisha State Rural Road Agency (OSRRA)- chaired by Hon'ble Minister RD, to monitor the PMGSY works and (ii) Odisha State Water & Sanitation Mission (OSWSM) - chaired by the Chief Secretary, to monitor/execute the Swachha Bharat Abhiyan (Gramin) (previously known as Nirmal Bharat Abhiyan/Total Sanitation Campaign programme). Apart from continuous monitoring through periodical progress reports received from the office of EICs on both the financial and physical progress of the programmes, Principal Secretary monitors the progress of the schemes through Video Conference regularly. The Department also emphasizes on eGovernance. Emphasis is being given on both quality and quantity of physical progress. For effective monitoring of quality of works for non-PMGSY works Third Party Quality Monitoring System is being established. To monitor the physical progress of each project, provision has been made in WAMIS for uploading the geo-tagged photographs of works. This system will facilitate the high level officers to monitor both the physical as well as financial progress of projects. The Department is also planning to have a Web GIS Asset Management Information System taking all Roads, Buildings, Bridges/culverts and PWS installations with the help of C-DAC and ORSAC.

Furnishing of statement of expenditure, Utilization Certificates, Audited Accounts and other requisite reports are submitted for the release of subsequent installments.

The officer dealing with the implementation of the programmes visits regularly the site to ensure that the programmes are being implemented satisfactorily.

Officers visit their assigned districts at regular intervals and the important observations of such teams are shared with the Department advising them to take appropriate corrective measures, wherever shortcomings are noticed.

A Performance Review Committee under the chairmanship of Principal Secretary reviews the performance of various programmes being implemented by the districts and recommends corrective action wherever found necessary.

With a view to fulfilling the objective of ensuring quality in implementation, particularly in the context of large public funds being spent under all the programmes of the Department the Monitoring Committees are constituted.

Work Plan for DoRD for the Financial Year 2015-16 was prepared with due consultation of all stake holders. The work plan was drawn up taking into account the annual budget provisions and past performance of respective areas of work. The Chief Engineers were asked to draw up similar month wise and head of expenditure wise financial and physical plans for all the Divisions to enable field functionaries to appreciate the purpose and benefit of Results Framework Approach. Evaluation has been made basing on the scheme-wise weightage provided to physical targets. It is found that during the financial year 2015-16, the achievement was about 91.42% (State Plan-93.56%, Non-Plan-81.85%).

Public Information System

Information, Education and Communication (IEC) plays a vital role in creating awareness, mobilizing people and making the development participatory through advocacy and by transferring knowledge, skills and techniques to the people. Moreover, IEC plays two most important roles – informative and persuasive and as such is crucial for bringing about requisite social mobilization and facilitating participatory development.

The following strategy that has been adopted by the Department would be continued to ensure maximum benefits out of the programmes of the Department.

Sanjog Initiative

Sanitation is essential to ensure a better quality of life among all sections of people in rural and urban areas. 80% of common diseases are caused by lack of sanitation and personal hygiene practices. Swatchha Bharat Mission (SBM)-Gramin(G) does not limit itself to safe disposal of human excreta; it forms a comprehensive concept that includes safe disposal of solid and liquid waste, domestic and personal hygiene. SBM in Odisha is being implemented in all the 30 districts of the State. The Programme is “community-led” and “people-centered” with increased stress on awareness creation and demand generation from people for sanitary facilities in households for cleaner environment. The present Operational Guidelines and booklet on Technology Options are developed to guide district as well as field functionaries and core team members in smooth implementation of the programme. This is necessary because of low coverage of IHL construction and less involvement of Panchayati Raj Institutions specifically Gram Panchayats in the program.

The Sarpanch will monitor the progress of the household, school and anganwadi sanitation in the GP. He /she will be supported by a team of AWWs, ASHA, SEM and village motivators to make household visits, and assess the participation of the households, installation of complete and usable toilets, technologically appropriate and fitted correctly to ensure best benefits to the community. An appropriate superstructure should also be done to render the toilet usable immediately. The completed toilets will be verified by a two member team consisting of SEM and AWW, AWW and ASHA or the SEM and ASHA. The implementing agency, SHGs, the AWWs, ASHA, and Sarpanch will continue to advocate the use of toilets after the installation is complete.

They should also emphasize the importance of other associated hygiene practices, hand washing with soap after defecation and before handling food, safe disposal of child fecal, safe disposal of waste water and solid waste, cleanliness around hand pumps, clean tube well platforms etc. Nirmal Gram Puraskar has been awarded to 236 Gram Panchayats for achieving total sanitation and open defecation free environment by HE President of India

e-Initiatives

Efficiency of delivery is increasingly becoming the focus of governmental programmes. This is both on account of an explicit recognition of sub-optimal achievements in reaching the targeted beneficiaries in many of the schemes as well as in curbing wasteful

expenditure. Realizing this, new tools, particularly application of modern technology are being resorted to in achieving governance and delivery efficiency.

As per section 4 of Right to Information Act, 2005 every public authority shall maintain all its records duly catalogued and indexed in a manner and the form which facilitates the right to information under this Act and ensure that all records that are appropriate to be computerized are, within a reasonable time and subject to availability of resources, computerized and connected through a network all over the country on different systems so that access to such records is facilitated. The Act U/S 4-4 further says that all materials shall be disseminated taking into consideration the cost effectiveness, local language and the most effective method of communication in that local area and the information should be easily accessible, to the extent possible in electronic format with the Central Public Information Officer or State Public Information Officer, as the case may be, available free or at such cost of the medium or the print cost price as may be prescribed.

The e-Initiatives of RD department were meant to answer the above need and convert this threat into an opportunity to automate the processes that can be done using latest technology platforms. e-Dispatch, iOTMS, e-Procurement, LMS, OMMAS, IMIS, WAMIS, e-Abhiyog, Sanjog Helpline and OSWAS were major steps, taken. In addition to the above the website of RD Department are maintained and updated regularly.

Road Ahead

Rural Development Department is in charge of construction and maintenance of rural roads, rural Govt. buildings (both residential and non-residential) and water supply installations. We have got plan to connect habitations with population 250 and above in 18 IAP districts and habitations with population 500 & above in plain areas and 250 and above in schedule area for balance 12 Non-IAP districts in phased manner. During 2015-16, approx. 500 habitations were targeted to be provided with all-weather connectivity. Out of such habitations, connectivity has been provided to 418 unconnected habitations. Similarly we have less than 2% rural house hold with tap-water in their household. 74 lakh rural household require 3-taps (kitchen bathroom and toilet) in their households to enjoy water security at household level. Sanitation coverage among BPL is encouraging but the same among APL is not so. This may require more intensive and extensive IEC campaign for times ahead.

CHAPTER-I

INTRODUCTION

The concept of rural development has changed significantly during the last 3 decades. Until the 1970s, rural development was synonymous with agricultural development and, hence, focused on increasing agricultural production. This focus seems to have been driven primarily by the interests of industrialization to extract surpluses from the agriculture sector to reinforce industrialization. Four major factors appear to have influenced the change: increased concerns about the persistent and deepening of rural poverty; changing views on the meaning of the concept of development itself; emergence of a more diversified rural economy in which rural non-farm enterprises play an increasingly important role; and increased recognition of the importance of reducing the non-income dimensions of poverty to achieve sustainable improvements in the socio-economic well-being of the poor.

The establishment of the Millennium Development Goals has significantly reinforced the concerns about non-income poverty. With the paradigm shifts in economic development from growth to broadly defined “development,” the concept of rural development has begun to be used in a broader sense. The concept now encompasses “concerns that go well beyond improvements in growth, income, and output. The concerns include an assessment of changes in the quality of life, broadly defined to include improvement in health and nutrition, education, environmentally safe living conditions, and reduction in gender and income inequalities.” Today there seems to be a universal consensus that the ultimate objective of rural development is to improve the quality of life of rural people. This makes it essential to go beyond the income-related factors such as prices, production, and productivity to a range of non-income factors that influence quality of life and hence inclusiveness. Inclusive rural development is a more specific concept than the concept of rural development.

Rural upliftment requires strong commitment, patience and perseverance. It is a challenging but interesting task. The Govt. can not by itself provide the required services/comforts without the cooperation of the all stake-holders Physical connectivity like construction of roads and bridges and providing adequate safe drinking water as well as sanitation services to our rural population is indeed a mission and not a mere administrative function. With this concept, R.D. Department was created on 1st July, 1990 to look after sectors like construction of rural roads, buildings construction & maintenance of rural water

supply projects and implementation of sanitation programmes to enhance the quality of life of rural population of the State.

Work Plan for DoRD for the Financial Year 2015-16 is prepared with due consultation of all stake holders. The work plan was drawn up taking into account the annual budget provisions and past performance in respective areas of work. The Chief Engineers were asked to draw up similar month wise and head-wise financial and physical plans for all the divisions to enable field functionaries to appreciate the purpose and benefit of Results Framework Approach. We propose to continue this in current financial year.

The Rural Development Department in its present form consists of two organisations namely (i) Rural Works (R.W.) (ii) Rural Water Supply & Sanitation (RWS&S).

Organisational Setup:

The Department has 13 Sections. Two sections namely (1) Budget and (2) PMGSY are headed by one F.A.-cum-Addl. Secretary with support of one AFA-cum-Under Secretary. Eleven sections like (1) Office Establishment, (2) RWS&S (Scheme), (3) RWS&S (Field Establishment), (4) RW (Scheme), (5) RW (Field Establishment), (6) e-Governance, (7) Legal Cell, (8) RTI/PMU, (9) Bill and Cash, (10) Coordination and (11) DAK are being headed by One Additional Secretary supported by One Joint Secretary, One Deputy Secretary, Two Under Secretaries, One Law Officer and Two Consultants.

The Department has a huge field formation with 2 EICs, 6 Chief Engineers at Heads of Dept. level (1 EIC & 4 Chief Engineers in Rural Works Organization and 1 EIC & 2 Chief Engineers in Rural Water Supply and Sanitation Organization), 23 circles headed by S.Es at Circle level (15-RW + 8-RWS&S) and 103 Divisions headed by Executive Engineers at District level (65-RW and 38-RWS&S) and 321 Sub-Divisions (RW-228 + RWS&S-93) headed by Deputy Executive Engineers (DEE) at Sub-Division level, 1064 Sections (RW- 678 + RWS&S-386) headed by AEEs and AEs/JEs who are looking after the functioning of this Department. This is in addition to 314 JEs engaged for O&M and sanitation work in each Panchayat Samiti/Block. There are two Agencies namely (i) Odisha State Rural Road Agency (OSRRA)-chaired by Hon'ble Minister RD, to monitor the PMGSY works and (ii) Odisha State Water & Sanitation Mission (OSWSM) - chaired by the Chief Secretary, to monitor/execute the Swachha Bharat Abhiyan (Gramin) (previously known as Nirmal Bharat Abhiyan/Total Sanitation Campaign programme) Principal Secretary is the Chief Executive Officer to monitor the work of the Department.

Funding

The activities of the DoRD are supported by financial outlays in the Plan and Non-Plan Budget of the State Govt. Besides the grants received from the Central Govt through ministry of Rural Development for implementation of National Rural Drinking Water project on the sharing basis 50:50 in Coverage, Operation & Maintenance and Water Quality programme. Further Govt. of India have provided 100% funds for implementation of Pradhan Mantri Gram Sadak Yojana for construction of all-weather connectivity to all unconnected habitations in rural area of the State having more than or equal to The existing PMGSY scheme aims for providing connectivity to the unconnected habitations of 500 + population in general area and 250+ population in 18 IAP districts & upto 100+ population in 38 LWE blocks.

The funds were previously released by the Govt. of India under PMGSY not routed through State Govt. Budget and the same is directly released to the implementing agency i.e. OSRRA (Odisha State Rural Road Agency). Govt. of India launched “**Swachh Bharat Mission (Gramin)**” with effect from 2nd October 2014. It aims to achieve Swachh Bharat by 2019, as a fitting tribute to the 150th Birth Anniversary of Mahatma Gandhi. The National Flagship programme of Gol for sanitation i.e. Nirmal Bharat Abhiyan has been restructured and renamed as “Swachh Bharat Mission” (Gramin). The concept of Swachh Bharat encompasses ways to access every person with sanitation facilities including toilets, solid & liquid waste disposal systems, village cleanliness and provision of adequate drinking water. In line with the national goal, Govt. of Odisha has also taken strong initiatives and strives to make Odisha Open Defecation Free (ODF) by 2019 by ensuring construction and use of Individual Household Latrine (IHHL) alongwith environmental cleanliness. Previously, to achieve the above targets, the above mission was addressed through the centrally sponsored “Nirmal Bharat Abhiyan” (NBA) previously known as “Total Sanitation Campaign” (TSC). The SBM programme is being implemented in all the 30 districts of the State. Government of India releases funds through State Govt. budget and the State Govt. releases funds as matching state share after making appropriate provision in the state budget. The entire operation under this campaign is being looked after by the OSWSM of RD Department and the District Water and Sanitation Missions.

The Scheme-wise provision under State Plan for 2016-17

The details are as follows:

A. STATE PLAN

(i) Rural Works

A total outlay of ₹345960.00 lakh has been provided in the year 2016-17 under the roads & bridge sector/building sector of Rural Works Organisation Schemes to be implemented as follows.

1) Construction of R.D.Deptt. Buildings (Non-Residential) (₹1200.00 lakh)

A sum of ₹1200.00lakh has been provided in the year 2016-17 for construction of office buildings for different offices of Rural Development Department. With this allocation it has been proposed to take up office building for different offices such as section offices/sub-division offices/division offices/circle offices for smooth functioning of Rural Works Organisation.

2) Construction of R.D.Deptt. Buildings (Residential) (₹1300.00 lakh)

A sum of ₹1300.00lakh has been provided for construction of residential buildings under Rural Development Department during the year 2016-17. With this allocation it has been proposed to take up residential quarters for those staffs having no residential quarters

of different offices of Rural Works Organisation such as section offices/sub-division offices/division officers/circle offices.

3) Rural Roads and Bridges (NABARD Assisted Project) (₹7500.00 lakh)

A sum of ₹7500.00 lakh has been provided in the year 2016-17 for construction of bridges & roads under NABARD scheme. Through the NABARD assistance, all-weather connectivity in interior rural areas is being made.

4) Road Works (PMGSY) (₹230000.00 lakh)

A sum of ₹230000.00 lakh has been provided for construction of roads & bridges under this scheme during 2016-17. Out of this, ₹150000.00 lakh have been allocated as Central Share and ₹80000.00 lakh have been allocated as State Share. Besides this, ₹1000.00 lakh have been provided under the scheme "Completion of incomplete roads and bridges under different tranches of RIDF & Other Schemes" towards State Contribution to meet the excess cost of construction of bridges, tender premium & labour escalation etc.

5) CWA (Constituency-wise Allocation) (₹ 2840.00 lakh)

₹20.00 lakh have been provided for each Assembly constituency (except five urban constituencies) in the budget for the year 2016-17 for improvement of Rural Roads. The works are been taken up on receipt of the work proposals from Hon'ble MLAs.

6) Completion of incomplete roads & bridges under different tranches of R.I.D.F& Other Schemes. (₹7000.00 lakh)

A sum of ₹7000.00 lakh has been earmarked for completion of incomplete roads and bridges under different tranches of RIDF& other schemes during the year 2016-17. The incomplete projects taken under different schemes are being undertaken for completion.

7) Capacity Building(Resource & Infrastructure Development) (₹1000.00 lakh)

A sum of ₹1000.00 lakh has been provided under Capacity Building for Survey Expenses, Survey Equipment, Technical Training,Consultancy Charges-PMU & Quality Monitoring of important roads, bridges & building projects, DPR preparation, Computerisation of offices, WAMIS,GIS, exposure visit inside/outside country etc.during the year 2016-17.

8) Decretal dues (₹20.00 lakh)

A sum of ₹ 20.00 lakh has been provided to defray the expenses towards payment of compensation as per the award of the court during the year 2016-17.

9) Biju Setu Yojana (₹40000.00 lakh)

₹40000.00 lakh have been provided for construction of bridges on rural roads under Biju Setu Yojana during 2016-17. Biju Setu Yojana has been launched with a view to provide all-weather connectivity in rural areas. In the initial stage, Government have planned to construct 600 briedges under this scheme. The total cost of 600 bridges has been estimated to ₹2102.12 crore. This includes 436 bridges on RD roads and 164 on important PS roads. In addition to the above 600 projects, 203 new bridges have been included under BSY during 2015-16.

10) Improvement of existing RD roads. (₹5000.00 lakh)

There is a provision of ₹5000.00 lakh for improvement of existing important R.D. Roads.

11) Biju KBK Yojana. (₹4500.00 lakh)

There is a provision of ₹4500.00 lakhs for improvement of arterial roads in KBK districts during 2016-17. It has been proposed for construction/improvement of rural roads to provide better communication facilities to the tribal people in the KBK districts.

12) Construction of Bailey Bridges. (₹7000.00 lakh)

There is a provision of ₹7000.00 lakh for construction of 103 Bailey Bridges in inaccessible areas of IAP districts during 2016-17. During 2013-14, RD Deptt has taken up construction of Bailey Bridges in inaccessible areas, where construction of conventional RCC bridges is found difficult. For the purpose, two CPSUs having expertise in this are being entrusted.

13) Mukhya Mantri Sadak Yojana. (₹37500.00 lakh)

There is a provision of ₹37500.00 lakh for improvement of important RD roads under Mukhya Mantri Sadak Yojana during 2016-17. This programme was launched to provide all-weather connectivity to unconnected habitations having population from 499 to 100 in Non-IAP districts and 249 to 100 in IAP districts and left out unconnected habitations up to 100 populations those are not connected under PMGSY.

14) Development of Rural road connectivity. (₹100.00 lakh)

There is a provision of ₹100.00 lakh for development of rural road connectivity during 2016-17. This is for construction and improvement of existing RD roads.

(ii) Rural Water Supply

The availability of safe drinking water is an important role in the health and wellbeing of the people. Rural Development Department is the nodal department for providing safe drinking water in rural population.

1. NRDWP (₹51720.00 lakh)

The rural water supply and sanitation organisation is functioning under the Rural Development Department primarily aims at providing safe drinking water to the rural people of the State. From the year 2009-10, rural water supply is carried out as per the new guideline of GOI on National Rural Drinking Water Programme (NRDWP). The goal of the programme is to provide every rural person with adequate water for drinking, cooking and other domestic basic needs on a sustainable basis. There is a paradigm shift in coverage from habitation to household. To meet the emerging challenges in the rural drinking water sector relating to availability of sustainable and qualitative drinking water supply, the components covered under the program are NRDWP-Coverage, Sustainability, Water quality, operation & maintenance and Support activities. The proposed fund includes provision to address water quality related issues in the fluoride affected districts particularly Nuapada.

To meet the above needs an amount of ₹51720.00 lakh has been provided during the year 2016-17 against anticipated Gol allocation of ₹.35000.00 lakh.

Target has been fixed to take up 500 PWS schemes and 9000 spot sources under coverage during the year-2016-17.

2. Capacity building (₹2000.00 lakh)

An amount of ₹2000.00 lakh has been provided under Capacity Building in the in the year 2016-17. The scope of the works include survey & investigation, source finding and preparation of detailed project reports for new rural PWS Schemes, procurement of survey equipments, training, exposure visit inside and outside India, consultancy charges, PMU establishment charges, quality monitoring, computerisation, WAMIS & GIS etc.

3. Construction of R.D. Deptt. Buildings (₹1000.00 lakh)

A sum of ₹1000.00 lakh has been proposed in the year 2016-17 for construction of both office and residential buildings of RWSS Organisation and Govt residential buildings.

4. Rural Water Supply (₹35100.00 lakh)

A sum of ₹35100.00 lakh has been allocated under to cover PWS projects as well as spot sources in villages and habitations where it is not possible to cover those locations under NRDWP. State specific projects can be taken up to meet the demand of public on priority basis.

5. RIDF (₹10000.00 lakh)

As a long term sustainable measure, to mitigate the presence of Fluoride and Chloride in drinking water in the district of Nuapada and Puri, Rs.10000.00 lakhs have been provided during 2016-17.

One Mega PWS project covering 59 villages of Bramhagiri Block in the district of Puri with an estimated cost of ₹1920.00 lakh is under progress.

(iii) Nirmal Bharat Abhiyan (₹74043.00 lakh)

In order to address the rural sanitation needs through community empowerment, the centrally sponsored scheme “Nirmal Bharat Abhiyan”/ “Swachha Bharat Mission” (Gramin) previously known as TSC is being implemented in all the 30 districts of the State. The entire operation under this campaign is being looked after by “Orissa State Water & Sanitation Mission (OSWSM)” of RD Department and the District Water and Sanitation Missions (DWSMs). In the Annual Plan for the year 2016-17, an amount of ₹74043.00 lakh has been provided against anticipated GOI allocation of ₹48900.00 lakh.

B. NON- PLAN

(I) RURAL WORKS ORGANISATON:

A total outlay amounting to ₹107541.77 lakh has been proposed under Non-Plan for Rural Works Organization during 2016-17.

Maintenance of Roads and Bridges:

₹53448.23 lakh have been proposed for repair, maintenance and improvement/ widening of R.D. roads and bridges during 2016-17. Besides this, ₹10000.00 lakh have been provided for periodical maintenance of 5year completed PMGSY roads.

Maintenance of Buildings:

₹26059.64 lakh has been proposed during 2016-17 towards maintenance of residential and non-residential buildings including ₹2100.00 lakh for maintenance of 20 years old, ₹1400.00 Lakh for 30year old and ₹50.00 lakh for maintenance of 50 years old Govt. School and College Buildings borne in the books of R.D. Department.

(II) RURAL WATER SUPPLY AND SANITATION:

• Office Building -		
Maintenance of Water Supply and Sanitary installations	- ₹	5,50.00 lakh
• Residential Building -		
Maintenance of Water Supply and Sanitary installations	- ₹	3,60.00 lakh
• Direction and Administration	- ₹	72,76.41 lakh
• Machinery and Equipment	- ₹	1,24.08 lakh
• Maintenance and Repair	- ₹	31,54.20 lakh
• Wages / Work Charged Salaries	- ₹	97,52.21 lakh
• Suspense	- ₹	0.01 lakh
• Decretal Dues	- ₹	10.00 lakh
• Other Charges	- ₹	0.01 lakh
• Sanitary Technitians' Training	- ₹	7.23 lakh
• Labour and Employment	- ₹	<u>16.00 lakh</u>
Total	- ₹	212,50.15 lakh

(III) SECRETARIAT ESTABLISHMENT - ₹.6,21.23 LAKH

RURAL DRINKING WATER SUPPLY (RWS&S ORGANISATION)

The role of drinking water for individual's survival, reducing illness, enhancing economic growth and improving peoples' quality of life has acquired prominence in the process of the development agenda in recent years. The 10th Plan accorded topmost priority to provision of stipulated quantity of safe drinking water to "Not Covered" (NC) habitations, followed by coverage of "Partially Covered" (PC) and the quality affected habitations (having contaminated water). In previous years, the habitations were mostly covered by installation of hand pump tube wells and sanitary wells. But it is found that these sources do not attend to the desired level of sustainability. Hence it is decided that desired goal can be achieved by providing water to rural habitations through Piped Water Supply (PWS) schemes. The State Government has a clear mandate to cover all uncovered rural habitations and Government & Government aided schools. As on 31.3.2016, there are 1,57,158 habitations (129447-FC+228064-PC+4847-WQ affected) have been provided with drinking water facility through 430717 spot sources (hand pump Tube Well and Sanitary Wells) and 10228 Piped Water Supply projects commissioned in the State.

National Rural Drinking Water Programme

National Rural Drinking Water Programme (NRDWP) is being implemented w.e.f. 1.4.2009. Under this programme, provision of drinking water supply to the rural population is made through hand pump tube wells and piped water supply schemes. As per the new guidelines under NRDWP, there has been a shift in approach of coverage which aims at household level water security. The State Government provides a matching share of Central Assistance released for implementation of NRDWP scheme. Under the modified NRDWP programme, the drinking water supply projects are implemented with the following broad components:

Coverage - 47%	Priority has been given to provide safe drinking water to "Not Covered (NC)" habitations followed by coverage of "Partially Covered (PC)" habitations. (matching share 50:50)
Water Quality - 20%	To provide safe alternative sources of drinking water supply in quality affected habitations except for capital investment priority has been given for Fluoride affected habitations followed by Iron & salinity problems. (Matching share - 50:50)

Sustainability (Swajaladhara mode) - 10%	To encourage community participation for sustainability of water supply sources and systems, these schemes are implemented in broad Swajaladhara principle. (No matching share is required from State but contribution from village community is the essence.)
Support activities - 5%	Communication and capacity development (CCDU), Management Information System (MIS) and Computerisation are to be taken up on priority.
Water quality Monitoring & Surveillance –3%	Services of Asha, Angawandi workers, School Teachers, GP members, Social workers etc. will continue to be utilized for Surveillance programme. Monitoring is to be done by entering the test result of all sources tested by the Labs. The habitation and household data must be collected by two village level members i.e. VWSC members selected in the Gram Sabha and fully accountable to the Panchayat. They will also authenticate the test results of field test kits used in the village.
Operation and Maintenance - 15%	Government of India has provided 15% of funds to the State Govt. for operation and maintenance of existing rural water supply system. (matching State share - 50:50)

Rural Water Quality Monitoring and Surveillance

Govt. has made significant interventions to improve the availability of drinking water in rural areas. Activities relating to water quality were limited to testing of water sources at the time of commissioning the PWS projects and provision of alternative water supply through sub-mission projects for areas where occurrence of Fluoride, salinity and Iron in ground water is beyond the permissible limit. The above programme would be implemented at three levels consisting of the State level, District level and grass root level.

Water Quality Problem Mitigation

As a long term sustainable measure the State has taken up several Mega Piped Water Supply Schemes in the State to cater the drinking water needs as detailed below.

- Piped Water Supply Schemes covering all the uncovered habitations including Fluoride Affected Habitations of Nuapada District will be taken up.
- To overcome the situation of saline water in Brahmagiri Block of Puri District one Mega Piped Water Supply Schemes with an estimated cost ₹.19.20 Crore is under progress with RIDF Assistance.
- Seven numbers of Mega Piped Water Supply Schemes in Phase-I & Phase-II with an estimated cost of ₹.277.59 Crore & ₹.275.31 Crores respectively are being taken up with 4th

SFC funding. In Phase-I it is proposed to cover different villages of Balasore, Bhadrakh, Keonjhar, Puri & Bolangir District while Cuttack & Jagatsinghpur District are included in Phase-II.

3. ODISHA STATE WATER & SANITATION MISSION (OSWSM)

Sanitation is an important aspect of human life. Absence of proper sanitation facilities holds back poverty reduction and economic growth, thus affecting the quality of life, particularly of women and children. Provision of good sanitation facilities and a clean environment are therefore vital to improve the health of the people and reduce incidence of disease and death. The Infant Mortality Rate (IMR) & Maternal Mortality Rate (MMR) are largely attributed to poor sanitation.

To improve the sanitation status of the country, **Total Sanitation Campaign (TSC)**, a demand driven integrated National Flagship Programme on sanitation was came into force in the year **1999** with an objective to accelerate sanitation coverage by demand generation in rural areas and thereby bring about an improvement in the general quality of life of rural mass. The approach emphasized more on Information Education & Communication (IEC) and Capacity Building activities to increase awareness among the rural people about sanitation facilities. An innovative and incentive based scheme, “Nirmal Gram Puraskar” was introduced to encourage the PRIs for promotion of sanitation.

To boost the Campaign, Govt. of India renamed the campaign as **Nirmal Bharat Abhiyan” (NBA) with effect from 1st April 2012**. The campaign aimed to transform rural India into ‘Nirmal Bharat’ by adopting the ‘community led’ and ‘people centered’ strategies and community saturation approach. The provision of incentive under NBA for construction of IHHL was enhanced to ₹.10,000/- (NBA- ₹.4600/- + MGNREGA- ₹.4500/- + Beneficiary- ₹.900/-). Under NBA, the incentive for toilet construction was extended to Identified APL families too. However there were implementation difficulties in convergence of NBA with MGNREGA as funding from different sources created delays at the implementation mechanism.

So to accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, Govt. of India launched “**Swachh Bharat Mission (Gramin)**” with effect from 2nd October 2014. It aims to achieve Swachh Bharat by 2019, as a fitting tribute to the 150th Birth Anniversary of Mahatma Gandhi. The National Flagship programme of Gol for

sanitation i.e. Nirmal Bharat Abhiyan has been restructured and renamed as “Swachh Bharat Mission” (Gramin). The concept of Swachh Bharat encompasses ways to access every person with sanitation facilities including toilets, solid & liquid waste disposal systems, village cleanliness and provision of adequate drinking water. In line with the national goal, Govt. of Odisha has also taken strong initiatives and strives to make Odisha Open Defecation Free (ODF) by 2019 by ensuring construction and use of Individual Household Latrine (IHHL) alongwith environmental cleanliness.

Major features of SBM

- ❖ Swachh Bharat Mission will have two sub-missions- Swachh Bharat Mission (Gramin) for rural areas and Swachh Bharat Mission (Urban) for urban areas.
- ❖ The Unit cost of the Individual Household Latrine has been enhanced from ₹.10,000/- to ₹.12,000/- so as to provide water availability, including storing, hand washing and cleaning of toilets. However no fixed amount has been kept for beneficiary contribution but it is suggested that it should be encouraged to ensure ownership of the HH.
- ❖ The entire funding for incentive for construction of IHL i.e. ₹12,000/- will be met from Swachh Bharat Mission with share of both Gol & GoO.
- ❖ The responsibility of construction of all School Toilets and Anganwadi Toilets which was rendered to R.D.Deptt. is transferred to S&ME and W&CD Deptt. respectively.
- ❖ The strategy of implementation of the sanitation programme will focus on behavior change with regard to toilet construction as well as its use.
- ❖ Emphasis on Solid & Liquid Waste Management for an amount of ₹7.00 lakh to ₹20.00 lakh as per HH (150- more than 500 HH).
- ❖ Provision of Community Sanitary Complex with an estimated cost of ₹2.00 lakh with 10% public contribution

However, to ascertain the actual number of HHs to be benefitted by SBM (G), a state wide Base Line Survey has been conducted and on-line entry of the HHs has been completed. As per the Base line data, it is determined that:-

Total No. of HHs	:	9020100
HHs having Toilet	:	1038127
Toilets to be constructed	:	7659231

Information, Education & Communication (IEC) is continued to be a very important component of the programme. It strives to bring about community wide behavior change and trigger demand for sanitation facilities in Household, School, AWC, as well as promote Community toilet and Solid & Liquid Waste Management through provision of information & awareness generation.

To generate critical mass awareness, intensive IEC activities from state to GP/village level with special focus on Inter-personal Communication (IPC) activities were implemented. State wide IEC campaign was also organized to sensitize rural mass about the importance of sanitation, construction and use of toilets, hand washing, safe drinking water etc. using different Medias.

To trigger the implementation process, a no. of Community led Total Sanitation (CLTS) trainings were organized and as a result, a cadre of motivators and resource persons are created who will in turn motivate the community to adopt correct hygiene practice, construct and use toilet and make their village/GP open defecation free.

Appropriate convergence has been made with SANJOG partner Depts. like: W&CD, H&FW, PR, S&ME to make the programme success. Current year (2016-17) it has been targeted to construct 21 lakh IHHLs by mobilizing community through individual as well as community approach.

Swachh Bharat Mission is gaining impetus and become a movement. The state is also striving to achieve the mission and determined to make Odisha Open Defecation Free as well as clean environment by the year 2019.

Rural Sanitation & Funding:

In order to address the Rural Sanitary needs through community empowerment, the centrally sponsored “Swachha Bharat Mission (Gramin)” [SBM (G)] is being implemented in all the 30 districts of the State. Government of India releases funds through the State Budget from 2014-15 under State Plan and the State Govt. releases funds to Odisha State Water & Sanitation Mission along with matching state share after making appropriate provision in the state budget. The entire operation under this campaign is being looked after by the OSWSM and the District Water and Sanitation Missions (DWSMs).

Nirmal Gram Puraskar

In order to achieve desirable impact on disease prevention as well as for ensuring minimum standard of living to the entire rural population, it is essential that every household in any particular area has access to sanitation facilities and has also to adopt hygienic practices. To promote such full coverage as well as to ensure total stoppage of the practice of open defecation and to maintain cleanliness, the Govt. of India have launched the Nirmal Gram Puraskar (NGP) from October, 2003. The NGP is awarded to Gram Panchayats, Blocks and Districts where there is no open defecation and access of toilets in all households as well as institutions like Schools, Anganwadi centers etc. So far 287 Gram Panchayats of the State have been bestowed with Nirmal Gram Puraskar at national level. Now the NGP Award scheme has been dropped by the Gol.

CHAPTER-II

Outcome Budget for 2016-17

The exercise is primarily meant for converting financial outlays into measurable and monitorable outcome. It is a performance measurement tool that helps in better service delivery, decision making, evaluating programme performance and results and improving programme effectiveness.

The Outcome Budget is also aimed at changing the outlook of the agencies entrusted with the responsibility of programme execution and implementation. The idea is to make the programme implementing agencies more result oriented by shifting the focus from “Outlays” to “Outcomes”.

The scheme-wise details for the year 2016-17 are indicated in the attached statement.

STATE PLAN (2016-17)

RURAL WORKS							
(₹in TRS)							
Sl. No	Name of the Schemes/ Programme	Financial Outlay	Broad objective	Quantifiable / Deliverable Physical Outputs	Project Outcome	Processes/ Timelines	Remarks / Risk Factors
1	2	3	4	5	6	7	8
1	Construction of Non-Residential and Residential buildings of R.D. Department	250000	Construction of new and ongoing office building and residential buildings of Rural R.D. Department	146 Res. Buildings & 118 Non-Res. Buildings.	Better working condition and living condition for the officials working in Rural Works Organizations.	12 months	Availability of Land, Non response tenders
2	Capacity Building (Resources & Infrastructure Development)	100000	Survey Expenses, Survey Equipment, Tech. Training, Consultancy charges-PMU & Quality Monitoring important roads, bridges & building projects, DPR preparation, Computerisation of offices, WAMIS,GIS exposure visit inside/ outside country etc.	Not quantifiable	Survey and investigation & conducting technical seminars, workshops, procurement of modern survey equipments for capacity building	12 months	---
3	Minimum Needs Programme- Constituency-Wise allocation (CWA)	284000	All-weather roads to rural habitations in 142 constituencies of the State.	Rural roads in 142 Assembly Constituency in the State	Improve critical roads in the rural area for better connectivity to the rural habitations	12 months Implemented through Chief Engineer RW-I and field functionaries.	The proposals are furnished by Hon'ble MLAs,
4	Construction of Bridges under Biju Setu Yojana	4000000	Construction of bridges on rural roads	Completion of 100 bridges	To improve rural connectivity	Through tender 9 months to 30 months	Land acquisition, difficult site in some cases.
5	Improvement of existing R.D roads	500000	To improve rural connectivity	Completion of 20 nos of RD roads	Improving riding quality of roads	12 months	---
6	Completion of incomplete roads & bridges under different tranches of RIDF & other schemes	700000	Completion of incomplete roads & bridges	30 nos. roads & 5 nos. of bridges	To improve rural connectivity	12 months	

7	Rural Infrastructure Development Fund	750000	To improve road infrastructure	Completion of 20 bridges & 10 roads	To improve rural connectivity	11 months to 30 months	Limited no. of Bridge contractors in the State.
8	Road Work 1.(PMGSY) (5054-1077-37114) 2.Completion of incomplete roads & bridges	(1)23000000 (2)100000	Construction of PMGSY Roads & Bridges, State share for constn of bridges, Tender Premium, Labour Escalation etc.	Construction of 3200 kms of roads .	To provide rural connectivity by way of all-weather road	12 months	Large number of non-response tender
9	Payment of decretal dues	2000	To clear the liability of contractors as per Court disposal	Not quantifiable	Disposal of Court's Order	12 months	---
10	Biju KBK Yojana	450000	Impvt of rural roads in KBK districts	Completion of roads	Improving riding quality of roads	12 months	Improve ment of arterial roads
11	Mukhya Mantri Sadak Yojana	3750000	Impvt of rural roads	To start 700 km. road to be constructed	Providing connectivity to unconnected habitations upto population of 100 & above (which are not covered under other schemes)	12 months	New scheme introduced
12	Development of rural road connectivity	10000	Development of rural roads	---	To improve road connectivity	12 months	New scheme introduced in 2014-15
13	Construction of Bailey Bridges	700000	Construction of bailey bridges in inaccessible area of IAP dist.	Completion of 130 nos Bailey bridge	To improve of rural connectivity	12 months	Balance fund of TRs.200000 required for completion of works

Rural Water Supply

(₹ in TRS)

Sl. No	Name of the Scheme/Programme	Financial Outlay	Broad objective	Quantifiable/Deliverable Physical Outputs	Project Outcome	Processes / Timelines	Remarks/Risk Factors
1	2	3	4	5	6	7	8
1	National Rural Drinking Water Programme (NRDWP) and Sate Plan	5172000	Providing safe drinking water to rural people	Availability of safe drinking water / Coverage of 6000 rural habitations through 9000 spot sources , 500 PWS Schemes	Providing drinking water to rural habitations through water supply projects under NRDWP	12 months	Availability of potential Source with quality water, electricity and Govt. land.
2	Rural Water Supply	3510000	Providing safe drinking water to rural people	50 new PWS schemes, augmentation of existing PWS Schemes, Construction of 600 OHTs in Existing PWS Schemes.	Construction of water supply projects not covered under NRDWP	12 months	
3	State Plan – Capacity Building	200000	Skill development	Survey & Investigation work including Source finding of new PWS schemes proposed to be taken up in 2016-17	Capacity building	12 months	
4	RTDF	1000000	Providing safe drinking water to rural people	Installation of Water Supply Projects in chloride / fluoride affected areas	Construction of Water Supply Projects in Nuapada district and Brahmagiri block of Puri district	12 months	
4	State Plan – Building Programme	100000	Construction of res./non-res. buildings	Construction and completion of Departmental Office Building – 25 Nos.and Residential Building – 40 Nos.	Providing better working and living condition to the officials	12 months	
Grand Total:		9982000

PRADHAN MANTRI GRAM SADAK YOJANA (PMGSY)

PMGSY programme, a Govt. of India sponsored scheme, aims at providing all-weather connectivity to all unconnected habitations in rural areas of the State upto population 500 and above for 12 Non-IAP districts and 250 and above in 18 IAP districts and population 100 and above in 38 blocks of IAP districts. Accordingly, Gol has so far sanctioned projects worth ₹.17815.38 crore for construction of 11649 nos. of roads with a length of 45190.14 Km. in different phases with construction of 292 missing link bridges on PMGSY roads for providing connectivity to 16392 habitations. Funds of ₹.13310.37 Cr. have been received from MoRD, Gol. till end of February'2016, ₹.14578.19 crore has been utilised for construction of 35428 Km. of roads including 134 missing link bridges for providing connectivity to 12660 habitations. Excess fund utilized has been met from State's contribution.

During the year 2015-16 state has programmed to utilize ₹.2238.33 crore for construction of roads of 3055 Km. Till end of Feb.'16 MoRD has provided funds of ₹.1382.70 Cr and State has provided ₹.955.63 Cr. towards state share. By end of February'2016, ₹.1917.91 Crore has been incurred by constructing 3040 Km. of roads for providing connectivity to 1691 habitations.

During the year 2016-17, it has been programmed to utilize ₹.2300 Crore for construction of roads of 5500 Km. Out of ₹.2300 Cr., ₹.1380 Cr. will be received from MoRD, Gol and balance ₹.920 Crore will be provided by the State towards construction of bridges & tender premium.

CHAPTER-III

Reform Measures and Policy Initiatives

R.D. Department has taken many e-initiatives to monitor and maintain transparency in the works being implemented by the Department. The provision of basic public services being provided through electronic mode is:

(i) Department Website:

The information relating to R.D. Department is being uploaded to the State Govt. website i.e. <http://rd.odisha.gov.in/>. The website of the department acts as an index of all activities relating to R.D. Department. Links have been provided to all other e-activities undertaken by this Department. The information on important schemes undertaken by this Department like Pradhan Mantri Gram Sadak Yojana (PMGSY), Mukhya Mantri Sadak Yojana (MMSY), Drinking Water Supply and Swachh Bharat Mission (Gramin) are being updated in the website. The letters dispatched through e-Dispatch by the Department are also being webhosted.

(ii) Online RTI

The applications being received under Right to Information Act are being updated in the online RTI web portal, developed by I&PR Department, i.e. <http://rtiodisha.in/Departments/28>.

(iii) e-Despatch:

Starting from the R.D. Department at Secretariat, a webbased integrated platform (<http://odisha.edespatch.in>) for dispatching and receiving letters is in use up to Division level since 2009. All letters are being despatched through the e-Despatch system and placed in the Department Website for public view for transparency, quick transmission and easy access.

(iv) Integrated Management Information System (IMIS):

A web-based system (<http://indiawater.gov.in/IMISReports/>) for management & monitoring of drinking water supply system has come into force with effect from 1st April, 2009. It is made accessible to Officials as well as public for knowing every detail of drinking water sources available in their habitation, the cost of the project, year of installation etc.

(v) Online Monitoring and Management of Accounts System (OMMAS):

To make it transparent and proper monitoring of both physical and financial progress, of PMGSY work, C-DAC, Govt. of India have developed a web-based software for online monitoring and management namely OMMAS. The URL of OMMAS site is <http://www.pmgys.nic.in/>. By accessing this site, the public can see the details of roads taken up under PMGSY, its executing agency, the cost of the roads, the length of roads and its physical & financial progress.

(vi) Swachh Bharat Mission (Gramin):

The information on Swachh Bharat Mission (Gramin) is also being monitored online. The URL of the NBA website is <http://sbm.gov.in/sbm/>. The details of Individual Household Latrines, Anganwadi Toilets, Village Sanitary Complex constructed under TSC/NBA/SBM(G) are available in the website.

(vii) Integrated Grievance Redressal System (IGRS):

An IGRS named as Sanjog Helpline (<http://www.sanjoghelpline.in>) is an IT solution which informs about the grievance of a common man to the right authority in real time via SMS and email. A toll-free number i.e. 155335/18003456770 has been provided for the public to register their complaints. IGRS is activated and operated towards the goal for smooth redressal of public grievances on Rural Water Supply and Sanitation (RWSS) and Pradhan Mantri Gram Sadak Yojana (PMGSY).

(viii) e-Procurement:

It is carrying out traditional tendering process in an electronic form (through internet). It connects the procuring organization with the bidders through electronic exchange of tender. It is a management and reform program in the procurement field.

e-Procurement and iOTMS/iFMSis done with a software application that includes features for supplier management and complex auctions. Here in the electronic tendering process both the Govt. and the contractors will be benefited.

(ix) WAMIS:

Works and Accounts Management Information System (WAMIS), a web-based application (<http://www.wamis-odisha.gov.in>), is being developed by C-DAC, Pune. It is a Division Automation System integrated with MIS features.

WAMIS has 4 modules such as :

- 1) Accounting Management System (AMS)
- 2) Works Management System (WMS)
- 3) Budget Management System (BMS),
- 4) Billing Module, and
- 5) Integration with iFMS/iOTMS and AG Accounting System.

By using this application, Divisions are generating their Monthly Accounts and submitting these to AG online. Not only R.D. Deptt, but also all engineering departments of the State like Works, Water Resources and H&UD Departments are now using WAMIS. For better monitoring of physical progress of works, provision has been made for uploading geo-tagged photographs of the works through mobile application.

(x) Web GIS-based Asset Management System (WGAMS)- It has been decided in a high level meeting to Develop a Comprehensive State-wide Web GIS based Asset Management System (WGAMS) focusing on long term assets managed by R.D. Departments. This will have realtime integration with WAMIS for monitoring, management and planning of departmental works.

(xii) OSWAS

Odisha Secretariat Workflow Automation System, an e-filing system has been implemented in Rural Development Department since January, 2012. Now all files are being processed through OSWAS, which not only eases the movement of files but also tracking of Daks and files has become much easier. OSWAS is also now integrated with e-Despatch, which facilitates in receiving and sending letters to the line offices electronically. This makes the Department a Less Paper Office.

CHAPTER-IV
